P R E F A C E

Shipping is a vital link in international trade and forms an important infrastructure in the development of the economy of any country.

Indian sub-continent shipping has grown today into a vast field with manifold ramifications and has made commendable progress during the last decade and this has had an impact in the compilation of this directory.

We found in our discussions with leading exporters and leaders of shipping industry that there has not been any book of reference detailing Indian sub-continent ports. It was also felt that a book of reference covering 5 countries of Indian sub-continent describing every aspect of shipping in these countries would benefit shipping industry and exporters.

We firmly believe that this maiden attempt would become an authentic and comprehensive reference on who are all in shipping, what they are doing, what is going on in the field, etc., and can be a kind of vade macum from which one can easily and unfailingly get the information of wide range and practical utility of knowledge of the subject and for the development of the industry.

We have tried to give precise accurate attention to details about changes that take place in shipping, ports, shipbuilding and allied activities.

This book, we are confident, would be useful to those particularly in international trade.

We are thankful to Ship owners, Steamer agents, clearing and Forwarding agents, port authorities, shipping executives and others who have played a role in making this publication possible. We thank all the advertisers for having supported us. We look forward to your criticism and encouragement. We hope and assure that like our shipping industry our directory will have smooth sailing in the years to come.

NNM

A REQUEST

We are not above errors. To err is human. We shall be highly obliged if any mistake or error is pointed out to us for rectification.

Nothing but change is permanent and this applies aptly to shipping where change is a constant phenomenon and hence it is only through your comments and suggestions can we aim at perfection.

The directory will be kept up to date by means of cumulative quarterly (four in a year) supplements containing each and every change taking place including the changes in port dues and charges also and that too at NO EXTRA CHARGE.

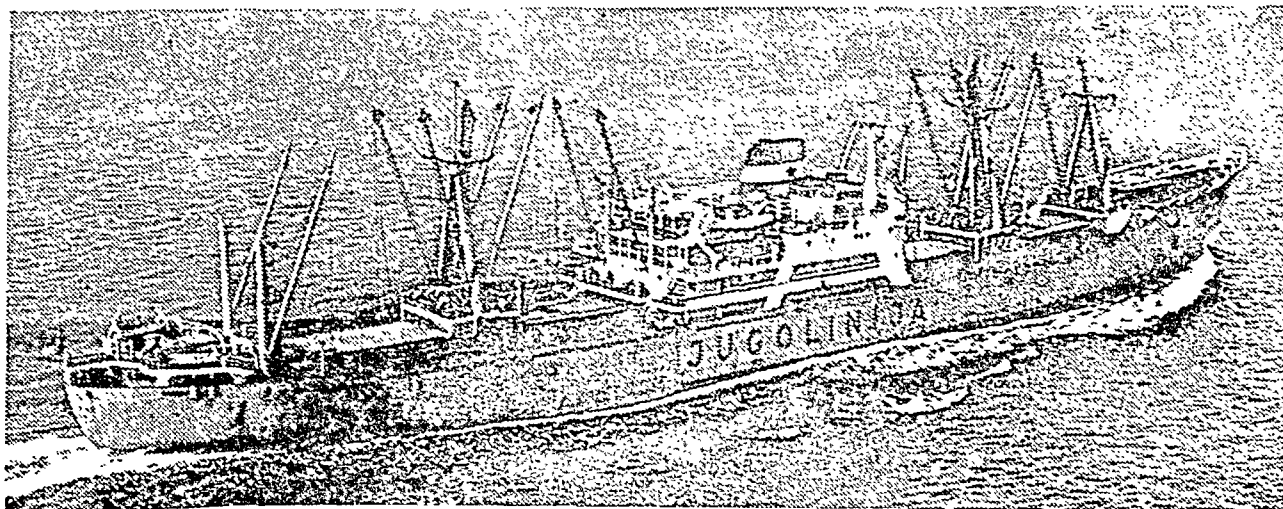

We appeal all those connected to shipping to send details of their organisation for including in the directory if the same is not appearing in the directory. If there is any mistake in name, address, telephone, telex, cable or business activities we hereby request to send the correct information so that the same can be included in the forthcoming supplement.

3-6-22, HIMAYATNAGAR, HYDERABAD-500 029,

A.P., INDIA.

We undertake Shipping, Airfreight, Clearing and handling of export shipments including documentation, Post Parcel handling, Warehousing, Insurance, Local Movement: Door to door shifting of household belongings in our own vans with the help of experienced and skilled people for this job-in other words complete door to door movement.

State Bank shows you...

**how to lay
the foundation for
your home today,
and let it build
itself up in
just a few years.**

We have a savings scheme that can turn Rs. 10,000 you save today into Rs. 26,855 in just ten years. Or double your money in almost seven years! One that gives the highest return on your investment. And interest earnings which, up to Rs. 3,000 a year, are free of tax.

We call this our **Reinvestment Plan**. You might call it your "save-for-my-own-home" plan.

If, however, you can't deposit a large sum now, how about saving a little money every month—say Rs. 125 in our **Recurring Deposit Scheme**. It will grow into a sizeable saving of over Rs. 25,696 in just ten years!

At State Bank, we have a scheme for every dream. To save you money. To make you money.

As India's largest bank, we offer you a lot more. More convenience—with over 5,000 offices countrywide. Better service—through a team of over 1,32,000 efficient employees. Greater security—with capital funds and reserves higher than any other bank in India.

State Bank

As long as there's a risk, we'll cover it for you.

That's right. Safeguarding you from all kinds of risks has been our motto at United India, from the start. That's why we've been designing a range of traditional and non-traditional general insurance schemes to benefit millions of people like you.

At United India we have an open-minded approach to insurance.

We offer protection for anything you might want: your home, property, business, profession, pets, you name it.

Apart from our standard fire, marine and motor policies, we also offer you a range of non-traditional policies—depending on your own personal problem or passion.

You see, we don't have any hard and fast rules about what policies we will write and what we won't. Because, as a matter of principle, we are constantly on the lookout for fresh possibilities for special insurances.

So, depending on what you want, we'll design a special insurance, just for you.

Expert advice and prompt service, UI style

Our risk management advisory service offers a team of professionals with a comprehensive knowledge of insurance which will always get you the best cover for the least cost.

What's more, whenever feasible, we reduce premium rates. Last year, for instance, fire insurance rates came down by almost 20 percent! Moreover, when it comes to settling claims we try to avoid frustrating delays as far as possible.

Reaching out everywhere

Today, United India has over

300 offices and a work-force of 10,000 people spread throughout the country, including the Andamans.

And if our growth rate of almost 14 percent, every year, is anything to go by, we'll be expanding even further. Which means, we'll be protecting more people. Against more risks.

**UNITED INDIA
INSURANCE CO. LTD.**

Indoceanic has the know-all to give you the know-how-to.

SHIPOWNING/SHIP MANAGEMENT

With owned and chartered vessels, the Company has emerged as one of the largest carriers of bulk and general/refer cargoes from the West Coast of India to West Asia (Gulf). The Company's vessels provide a regular and reliable service.

SHIP AGENCY

As shipowners, the Company is naturally aware of depressed market conditions and the need for economy. The Agency Division is fully geared to handle all types of vessels at least cost and greatest benefit to customers.

TECHNICAL SERVICE

The Technical Division, manned by experienced technicians, is equipped to render all types of technical advice and assistance. Indoceanic continues to grow to help you grow

APL - a pioneer of cont

Now a gateway to Asi

A leader in Indian shipping

American President Lines have been actively involved in Indian shipping for over 50 years. During its long established service, APL has achieved many 'firsts'.

In addition to introducing container shipping to India, APL pioneered the cashew trade to the USA after the Second World War. Today, cashew kernels and cashew shell liquid are among India's major exports to North America.

APL made another notable contribution to India's export trade when we delivered the first ever shipment of fireworks to the USA. This time, in time for their bicentennial celebrations in 1976.

One of the world's most innovative shipping lines

For 130 years, APL's philosophy has always been to blend innovation with tradition and dependability. Today, we have one of the most extensive networks in the world, linking 130 destinations throughout Asia and the United States.

We operate a modern fleet of 22 vessels, including 17 containerships and 5 container/breakbulk vessels.

We run 43 sales and service offices and agents and own our own container freight stations and terminals in most ports in Asia and the U.S.

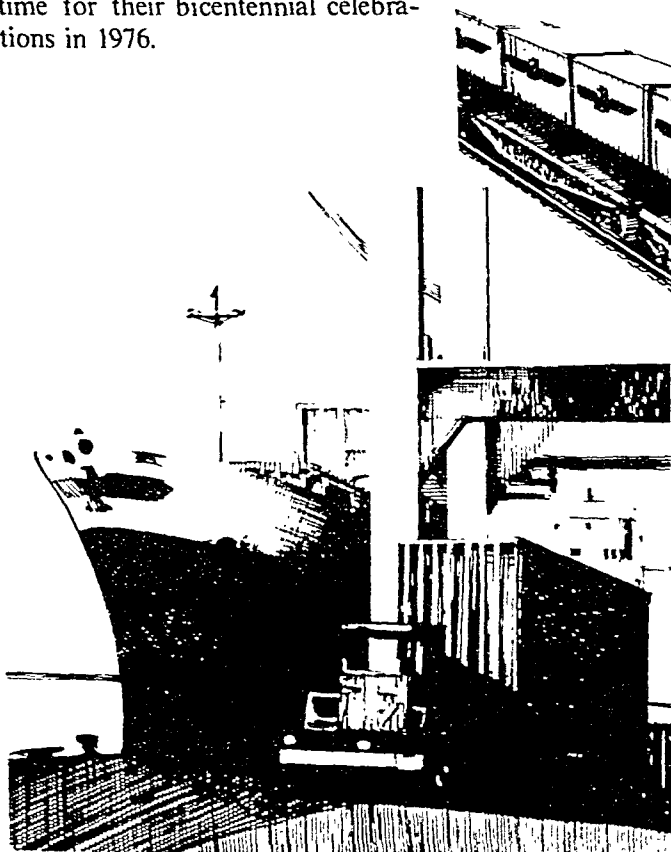

All the equipment and facilities you need.

As America's number one liner service, we have containers for every shipper's needs. Garment-racks, open-top containers, refrigerated containers, 40 or 20 foot hi-cube or standard

containers. You need it, you'll get it.

With APL's special refrigerated containers, for instance, your seafood arrives as fresh as the day it was caught. While APL's special garment-rack containers ensure your garments arrive clean and wrinkle-free. Ready to go onto the racks — and on sale.

For exporters of limited volumes, there's APL's less-than-container load service. So there's no more need to pay for unwanted space.

shipping in India and North America

Thru-Service you can count on

As an intermodal operator, APL is committed to service *beyond* the docks.

For Indian cargo destined to major mid-American cities, APL developed a true intermodal service named Thru-Service.

Within 24 hours of discharge on the US West Coast, your cargo is on its way to interior points in major cities all over mid-America.

We move your cargo on a single bill of lading between Thru-Service origins and destination points. We also provide the time-saving option of US Customs clearance at West Coast ports or inland locations.

Only APL gives you the Linertrain System

APL's most recent innovation is its exclusive Linertrain System — the block movement of containers on a purely APL unit train that takes your cargo efficiently from Los Angeles and Seattle to New York.

APL controls the pre-planned vessel stowage, so your containers move from ship to rail expeditiously.

APL controls the terminal operations. Therefore all container yard and Container Freight Station cargoes move from origin and destination terminals without delay.

APL controls the Linertrain System, so adverse weather conditions and rail congestion will not affect the movement of your cargo.

The most sophisticated Documentation System in the business.

Just to make our entire system work as one smooth efficient unit, we've developed a documentation network that beams on-line data across the Pacific by satellite to our US and Canadian computer terminals. Our computerized documentation service means faster shipment location and arrival information.

Dependable and frequent services worldwide

APL offers frequent container and breakbulk services to the Far East. To Hong Kong, Japan, Korea, Taiwan,

Singapore, Indonesia, Malaysia and Thailand among others.

Fortnightly services to the main Arabian Gulf ports.

Plus fortnightly services to the US West Coast, complemented by Linertrain service to the US East Coast. What's more, our Miniland bridge and Thru-Service operate to major US destinations.

For more information, call your nearest APL agent:

More than a means of transportation...

LASH

is a total system with several advantages.

**It's faster. Safer.
And
more economical.**

Developed in 1969 after intensive research, LASH is acknowledged the world over as the ideal method for reducing stay-time in port.

LASH is a streamlined form of unitised transportation that protects your cargo, cuts freight costs—and delivers the goods, really fast. The LASH system is the best answer to the port situation prevailing in India today.

Dhunjibhoy Shipping Enterprises Pvt. Ltd.

Shipping agents

**A newly-formed yet competent
shipping agency with
efficient, reliable and guaranteed
service in the Port of Bombay.**

The company is proud to announce the successful commencement of a reefer service, on a regular basis, from India to various Arabian Gulf ports with their agency vessels m.v. **"FRIGO KING"** and m.v. **"FRIGO QUEEN"**. The service has already proved a boon to exporters of frozen and chilled cargoes which was long awaited by them.

The company has at its helm a seasoned shipping personality with nearly 30 years' experience and expertise in ship-owning and ship-operations.

A ship looks great above the waterline and it's easier to keep her looking that way.

But below the waterline there is the greater problem of fouling and consequent drag.

Underwater Services Company specialises in

underwater hull cleaning and repairs.

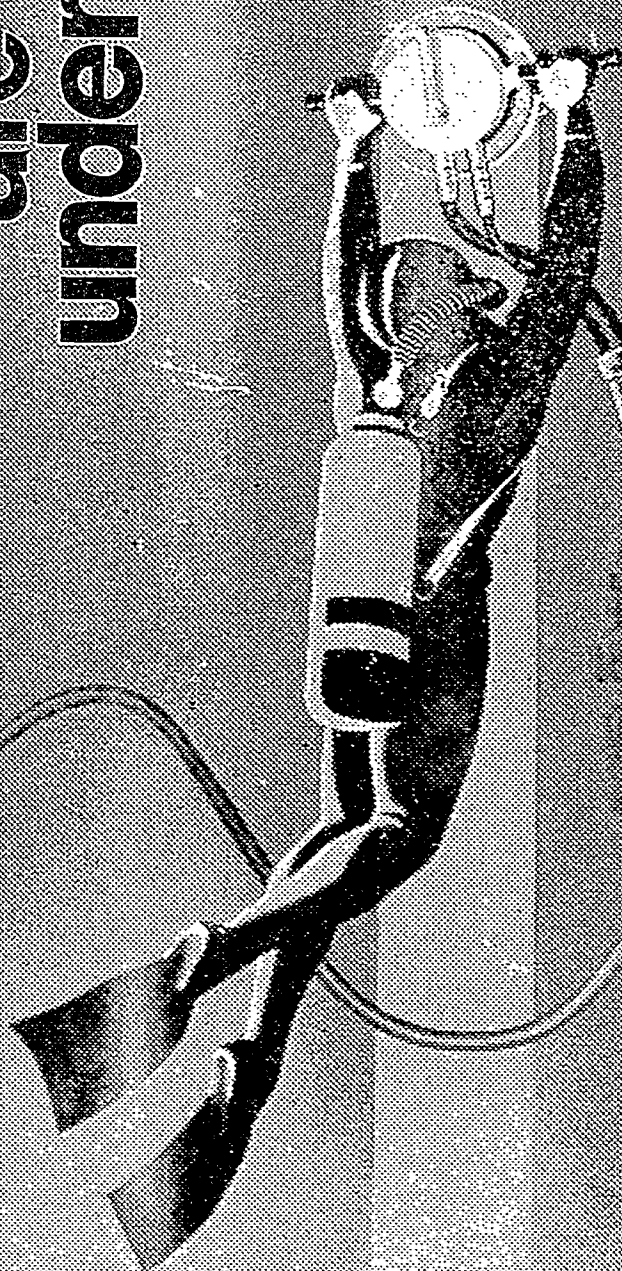

We also undertake underwater surveys,

construction, demolition and salvage.

And should the occasion arise,

our services are available round the clock.

Our finest moments are spent underwater

bme

Most modern equipment... and highly skilled service!

Engine, deck, boiler, electrical repairs-steel renewals and dry docking, periodic or special survey. We have a talented technical team backed by over 300 skilled personnel. We give personal attention to every job whether a hundred rupee or a million rupee job. It's the same to us. The same equipment. The same people. The same competence...and we're always on time. For, to date we've repaired over a thousand ships with a good record of delivery on time.

bme as a designer and
builder can help you meet
these new standards.

BOMBAY PORT FACILITIES

The Port of Bombay, the premier Port of India, has long been its principal gateway. Although the Port of Bombay, as we know it today, is comparatively modern, its magnificent harbour, which is the key-stone of its prosperity, has held its pride of place for centuries. The opening of the Suez Canal in 1869 revolutionised the maritime trade of Bombay and enhanced its importance. With the commissioning of the Marine Oil Terminal in 1955-56, there was a further spurt in the Port's traffic, Bombay's claim to be the premier Port of India is based on the facts that it is the leading of oil port with about 40% of the traffic, the leading general cargo port with about 46% of the traffic, the leading port of overseas passenger traffic and the main base for the Indian Navy. The Bombay Port bore the brunt of the heavy foodgrains and fertilisers imports of the last decade handling as much as 35% of the imports, in the peak period.

The Port of Bombay is situated almost midway along the west coast of India (Latitude 18° 54' north, Longitude 72° 49' east) and is gifted with a natural deep water harbour of 121 sq km protected by the mainland of Konkan at its east and the Island of Bombay on its west. The deep waters in the Harbour provide secure and ample shelter for shipping. This gift of nature has been developed by the enterprise of men, with vision and purpose, with the result that in the matter of natural facilities for shipping, Bombay is one of the most fortunate of the world's ports. The area of water enclosed by Port Limits is 465 sq km.

ADMINISTRATION

The Port of Bombay is administered by a statutory, autonomous corporation known as the Bombay Port Trust, which was set up in 1873 by the Government under an Act. The major Port Trusts Act was made applicable to the Port by Government from 1st February 1975. Under this Act a Chairman and a Deputy Chairman appointed by the Government and 19 other Trustees representing various interests concerned with the Port Trust such as the labour employed in the Port, the Mercantile Marine Department, the Customs Department, the State Government, the Defence Services, the Railways, Shipowners, etc., constitute a Board and is presided over by the Chairman. The day-to-day administration of the Port is carried on under the supervision and control of the Chairman, assisted by the Deputy Chairman.

PORT FINANCE

In 1979-80 the revenue of the Port amounted to Rs. 9592.93 lakhs and the expenditure to Rs. 5910.93 lakhs. The capital assets of the port amounted to Rs. 111.62 crores and the amount held in the general reserve fund aggregated Rs. 101.28 crores.

PORT FACILITIES

Wet Docks - it is the constant endeavour of the Port Trust to provide and improve the port facilities to meet the growing and changing needs of the traffic. The Port has extensive wet and dry dock accommodation to meet the normal needs of ships using the Port and it is well equipped with modern cargo handling equipment. There are three enclosed wet docks having a total water area of 46.30 hectares (114.4 acres) and quays of nearly 7776 metres (25513 ft) inside the wet basin and 853 metres (2800 ft) along harbour wall. The leading particulars of the wet docks are given below.

Wet Docks (Year of Construction)	Width of Entrance	Working Depth maintained	Water area of Dock basins	No. of Inside wet basin	Berths along harbour walls	TOTAL
	M Ft	M Ft	Hectares Acres			
Prince's Dock (1880)	20.1 66	6.4 21	12.14 30	14		14

The Hughes Dry Dock is provided with electric pumps for emptying and filling of the Dry Dock. These pumps are also used for impounding water to an extra height of 1.20 m. (4 ft.) so that the depth of water at all berths inside the Indira Dock can be increased from 9.10 m (30 ft) to 10.36 m (34 ft.)

The Princes and Victoria Docks are semitidal docks. Indira Dock has an Entrance Lock of 228.6 m (750 ft.) long and 30.5 m (100 ft.) wide through which vessels can enter or leave the docks at any state of tide.

There are points for supply of fresh water to ship is at all berths. Oil bunkering facilities exist at most berths.

DRY DOCKS

There are two dry docks—Merewether in Prince's Dock and Hughes in Indira Dock the dimensions of which are as follows :

Dry Docks (Year of construction)	Length		Width of entrance	Normal Minimum depth of the water over sill
	(1) Caisson in Inner Groove	(2) Caisson in outer Groove		
Merewether Dry Dock (1891)	(1) 152.40 m (500' .0")		19.960 m (65' .6)	6.400 m. (21' .0")
	(2) 160.00 m (525' .0)			
Hughes Dry Dock (1914)	304.80 m (1000' .0")		30.48 m (100' .0")*	9.750 m (30' .0")

(*Provided with two intermediate stops for division into two compartments of varying lengths)

Cargo Handling Equipment

The docks are adequately provided with hydraulic and electric wharfside cranes, heavy lift cranes, floating cranes and mobile cargo handling equipment, as follows :—

Hydraulic Quay Cranes	:	90 (1.5, 1.75 and 6 tons)
Electric Quay Cranes	:	100 (3 and 6 tons) 4 (13 tons)
Heavy Lift Cranes	:	1 of 60 tons at Hughes Dry Dock 1 of 60 tons at Jetty-End Indira Dock
Floating Cranes	:	1 of 125 tons & 1 of 60 tons
Mobile Cranes	:	50 (6 to 12 tons)
Crawler Cranes	:	2 (30 tons)
Forklifts	:	76 (2 to 10 tons)
Elevating	} Diesel	10 of 1 3/4 tons capacity each
Platform trucks		5 of 1 3/4 tons Capacity each
Tractors		50 of 6000 lbs. draw pull

Open Berths

The deep water open berths outside the docks are :

	Depth maintained (below datum of soundings)	Depth below Mean High Water Spring tides	Length of quayage
Ballard Pier	9,140 m (30' .0")	13,560 m. (44' .6")	244 m. (800' 0")
Ballard Pier Extension	10 36 m. (34' .0")	14 78 m. (48' .6")	244 m. (800' .0)
Pir Pau	8 840 m. (29' .0')	13,260 m. (43' 6')	174 m (570' 0')
Marine Oil Terminal	10,970 m.	15 390 m	3 berths each
Butcher Island	(36' .0')	(50' .6')	244 m (800' 0')

Ferry Wharf

The Ferry Wharf off Prince's Dock comprises 4 berths for handling ferry ships carrying coastal passengers and berths for launches plying across the harbour.

Facilities for P. O. L. Traffic

The Port has an off shore berth at Trombay (Pir Pau) which handles some of the POL traffic in bulk and liquid chemicals and liquid ammonia in large size parcels.

The berth can receive tankers upto 20,000 Displacement Tons (i. e about 15,000 DWT). The Port has also an oil Terminal at Butcher Island which is equipped with modern facilities. The Terminal comprises 3 berths two of which can receive tankers upto 70,000 Displacement tons and one for tankers upto 48,000 Displacement Tons. The terminal is connected to the two refineries at Trombay and oil installations at Seweri-Wadala by submarine pipelines

Fish Harbour

Fish Handling facilities are provided at Sassoon Dock in South Bombay and at Kassara Bunder near Central Bombay. The latter facility will be shortly resited at a new jetty being constructed off Malet Basin.

Container Terminal

The Port has been receiving fully containerised vessels since November 1973. These container vessels are generally handled at 12-B Indira Dock, 13/13-A Indira Dock, B.P.S. and also B.P.X. when not occupied by passenger vessels. A large container park and a freight station are provided at berth 12-B Indira Dock which is being extended to meet the growing container traffic. The traffic in containers was 77,832 TEU's in 1979-80. This figure is likely to go up considerably in the near future.

Bunders

Besides the wet docks, there are along the harbour front a number of bunders and open wharves and basins where the traffic carried by the Sailing vessels is handled. These bunders equipped with cranes and other facilities for loading, unloading and storing cargo and have an aggregate quayage of 12,500 metres (41,000 ft.)

Depots

There are various depots, such as Grain Depot, Cotton Depot, etc., which provide for storage of grain, cotton bales and other commodities as well as open Storage of coal timber, and other building materials, which are in the process of despatch either within Bombay and its Suburbs or to the hinterland of the Port. Preshipment storage facilities have been afforded to export cargo e.g oilcakes, sugar, iron and steel and General Cargo.

PORT TRAFFIC

In 1979-80 the cargo traffic passing through the Port aggregated 16.62 million tonnes comprising 11.58 million tonnes of imports and 5.04 million tonnes of exports.

PORT TRUST RAILWAY

The Port of Bombay owns and operates its own Railway which is connected to the broad gauge main lines of Central and Western Railways at its interchanges Railway Yard at Wadala. As the crow flies the railway runs for about 11 kilometres of straight-route between Ballard Pier and Wadala and has an extensive net-work of track of about 200 kilometres. It serves the docks as well as the vital installations and factories in the Port Estate. It has its own fleet of about 20 Diesel and 16 steam Locomotives, 2 Railway Cranes and 1 Wagon weighbridge of 100 tonnes capacity. The Railway itself handles about 3.5 million tonnes of traffic annually. The figures represent about 60% of the total railborne goods traffic of Bombay City.

FUTURE DEVELOPMENT

There is little scope for further development in the vicinity of the present docks, which is handicapped by bottle-necks due to saturating traffic and future development has, therefore, been planned eleven kilometres across the Bombay Harbour in the - Nhava-Sheva area, where natural depths of 12.8 m. (42 ft) to 13.7 m. (45 ft) will be available. It is felt that satellite port located across the harbour in the Nhava-Sheva area will not only provide substantial relief to the existing port but will also serve the dynamic needs of the industry which is developing rapidly in the neighbourhood of the Thane creek.

On the basis of detailed traffic forecasts made on the strength of extensive economic studies an articulated Master Plan is finalised for the balanced development of the Port in the next 50 years - with due regard to the needs of the new modes of marine transportation such as use of large bulk carriers, container vessels, LASH etc. The major development works contemplated by the port are as under :

- (1) One additional berth at the Marine Oil Terminal at Burcher Island capable of receiving tankers of 80,000 to 1,00,000 dwt. The construction of which has already started.
- (2) A satellite port at Nhava-Sheva on the eastern side of the harbour, to cater mostly for dry bulk cargoes and containers. This is to be developed in stages to match with traffic build up.
- (3) A new fish harbour to be constructed off Sassoon Docks to provide modern facilities for deep sea transfer.
- (4) Deepening of the main channel for the movement of bulk carriers and tankers of 80,000 DWT.

A few minor schemes contemplated in the near future are as follows :

- (1) Enlargement of container park at Indira Dock.
- (2) Development of Manganese Ore Depot as container freight station & setting up of container freight stations at different places outside dock premises is also under consideration.
- (3) Purchase of two bollard pull tugs for handling World Bank tankers & 3 New Pilot launches.
- (4) Procurement of the following cargo handling equipment :
 - (a) 30 Nos. Forklift trucks of various capacities.
 - (b) 5 Nos. Forklift trucks for handling containers.
 - (c) 8 Nos. Mobile tower cranes of 20 tonnes capacity.
 - (d) 1 travelling crane of 20 tonnes capacity at H. D. D.
 - (e) 3 container stacking cranes.
 - (f) 1 Gantry crane for ship to shore movement of container.

Short-term measures are also being taken for rationalising the handling of cargo in the existing Docks by segregating bulk cargoes, and providing facilities for handling of pre-palletised and a limited volume of containerised traffic, handling of bulk liquids, etc.

MEASURES FOR EXPORT PROMOTION

SUGAR

Compartment No. 1, Wadi Bunder Warehouse and Godowns Nos. 1501, 1502 at Elphinstone Estate have been given for storage of sugar pending shipment.

OIL CAKES

2 Warehouses of 5000 tonnes capacity.

GENERAL CARGO

Sheds Nos. 1, 2, 3, 5, 6, at Frere Basin admeasuring 12151 sq. metres, Ware-houses Nos. 6 and 7, prince's Dock together with the open plot adjacent to No. 7 Warehouse, Prince's Dock admeasuring 6053.69 sq. metres. B. P. S. Ware-house admeasuring 2675 sq. metres 4 Jethas at Hay Bunder together with open space admeasuring 10524 sq. metres have been provided for aggregation of export cargoes Prior to palletisation/containerisation. A warehouse admeasuring 1 lakh sq. metres at Cotton Depot complex away from the Main Docks is also available for advance carting of export cargo.

BERTH CHARGES ON VESSELS

BERTH CHARGES ON VESSELS

Chargeable against Masters, Owners or Agents of vessels in addition to charges on goods —

A On steam and other mechanically-propelled and square rigged vessels : —

1 On every vessel berthed inside the Docks or at East Harbour Wall of the Docks except as provided in (2) and (3), dues will be charged as under :

(a) Foreign going vessels :

33 Paise per ton of gross registered tonnage per day or part of a day with a minimum of Rs. 570/-

(b) Coasting vessels : -

22 paise per ton of gross registered tonnage per day or part of a day with a minimum of Rs. 360/-

(c) On every vessel under 50 tons gross registered occupying a berth for a period not exceeding 48 hours a charge of Rs. 23/- per day or part thereof, if it is a foreign going vessel and a charge of Rs. 12/- per day or part of thereof, if it is a coasting vessel will be levied. For this purpose, a vessel berthed inside the Docks shall be deemed to be in occupation of the berth from the time of entry into the Docks.

2 On every vessel berthed at the 18 Harbour Wall, Indira Dock, and making use of the passenger shed the following charges will be levied in addition to the dues payable under 1 above. —

(a) Foreign going vessels : Rs. 470/- per occupation.

(b) Coasting vessels : Rs. 300/- per occupation

3 On every vessel berthed at Ballard Pier or Ballard Pier Extension charges will be levied as under : —

(a) Foreign going vessels :

44 Paise per ton of gross registered tonnage per day or part of a day with a minimum of Rs. 2,240/-

(b) Coasting vessels : -

33 Paise per ton of gross registered tonnage per day or part of a day with a minimum of Rs. 1,350/-

4 On every vessel landing or embarking passengers only at the East Harbour Wall of the Docks without making use of the passenger shed at No. 18 berth following charges will be levied. —

(a) Foreign going vessels : -

Rs. 390/- per day or part of a day.

(b) Coasting vessels : -

Rs. 260/- per day or part of a day.

5 On every vessel not exceeding 1,000 tons gross registered engaged in pleasure cruises or excursions within the Harbour of Bombay, fixed charges of Rs. 230 - from foreign vessels and Rs. 140/- from coasting vessels will be recovered per occupation of the Ballard Pier Wharf, provided that the buildings at Ballard Pier are not in any way utilised. The Docks Manager has discretionary power to waive this charge when satisfied that such cruises are for charitable or private purpose, and for tenders connecting with vessels anchored in the stream

B On every Boat, Barge and country craft (not square rigged) entering Docks:

(a) Foreign going vessels :

Rs. 23/- per day or part of a day.

(b) Coasting vessels :

Rs. 12 - per day or part of a day.

C On vessels berthed inside the Docks or at the East Harbour Wall of the Docks undergoing repairs and not working cargoes preventing the usual working of the berth and also on vessels similarly berthed preventing the usual working of the berth than by reason of undergoing repairs or working cargoes following charges will be levied :

	For the first five Weeks of the occupation of the berth Vessels		For the next five weeks of the occupation of the berth vessels		For the next two weeks of the occupation of the berth vessels		There after Vessels

DRY DOCKS CHARGES

Charges against Masters, Owners and Agent of vessels for the use of the Board's Dry Docks, including charges for docking, shoring and undocking :

(a) Charge for the first 24 hours of occupation.

Note : The 1st period of 24 hours counts from the time the entrance caisson is placed in position after the vessel has entered. The period of occupation ends when the vessel has cleared the Dock entrance when leaving unless undocking is postponed for Dock convenience, when the period of occupation shall be reckoned upto the time that a vessel has indicated her readiness to undock. In order to cover trivial delays in undocking a vessel, fifteen minutes grace after the expiry of any period is allowed, and will not be charged for.

SECTION III

RENTS

A. Storage charges on goods in Docks Transit Sheds and Yards and on goods removed from the Docks and stored in any other premises in the possession of the Board.

IMPORTS

(a) GENERAL LANDING DATE :

- (1) *The Docks Manager shall declare the General Landing Date for cargoes discharged from a vessel, which, save as hereinafter provided, will be the day on which not less than 2/3rds of the vessel's cargo has been discharged, as intimated by the vessel's Master or Agents. For this purpose, the quantity of cargoes discharged after 5 p.m. on that day, that which must be fumigated prior to discharge ashore and that intended for overside discharge if it exceeds the quantity for shore discharge, shall be omitted.*

If the General Landing Date, as computed above, falls on a Sunday or on a Docks Holiday declared under Docks Bye-Law No. 118, the next working day shall be declared, as the General Landing Date.

- (2) Subject to the general conditions referred to above, the General Landing Dates for the following classes of goods will be fixed as under :—

- (i) For cargoes requiring fumigation prior to landing.

The day, on which 2/3rds of such cargoes brought by a vessel, has been discharged shore, duly fumigated

- (ii) For heavy lifts weighing single one & half tonnes or more :

If discharged prior to the General Landing Date declared for the vessel's cargo, the General Landing Date so declared; if discharged subsequently, the actual date of landing of each heavy lift.

- (iii) For liquors, wines and spirits :

The day of landing of the last package of each such Consignment.

- (iv) Where half the consignment or more is discharged after the General Landing Date declared for the vessel's cargo :

The date of landing of 2/3rds of each such consignment.

- (v) Where a part of a consignment is discharged after the expiration of the free days referred to below :

The date of landing of each package, piece or lot, as the case may be, provided that the relative Bill of Entry was noted for the consignment in the customs prior to the landing of such package, piece or lot as the case may be.

NOTE : In the case of Sub. Clauses (iv) and (v) above, packages and pieces short tallied, should be evenly distributed over the number of days occupied in the discharge of the principal consignment or part consignment covered by a single Import Bill of Entry or Transhipment Permit.

- (vi) Optional Cargoes :

If optional cargoes are discharged subsequent to the General Landing date, but within the 'free days' and their quantity tends to postpone the General Landing Date already declared for the vessel's local and transhipment cargo, the General Landing Date shall be changed to the later date. If any optional cargo is discharged subsequent to the expiry of the 'free days' a separate General Landing Date shall be declared for all optional cargoes on the date of landing of 2/3rds of the total quantity of optional cargoes whether landed within or beyond the 'free days'.

NOTE : Optional cargoes will mean cargoes not consigned to the Port, including transhipment cargoes.

- (vii) Where any consignment or part thereof of Iron & Steel, as described in clause (c) (iii) below, is landed from a vessel unmarked or in the opinion of the Docks Manager, so insufficiently marked as to prevent the delivery of the whole consignment according to the Bill of Lading, and he has the whole of such consignment sorted according to sizes as far as possible :

The date on which the Docks Manager shall notify that the Iron or Steel is sorted and ready for delivery.

- (b) FREE DAYS :

All goods, except, cinders, ashes, patent fuel, dust or rubbish will be allowed storage in the Docks, free of rent (demurrage) for three days following the General Landing Date declared in accordance with sub clause (a) above. In computing the number of 'free days' Sundays and Docks Holidays declared under Docks Bye-Law No. 118, as well as any other day on which Customs Import Duty, whether payable or not, may not be assessed or received, will be omitted in the case of all goods liable to duty under the Customs Act, 1962. In computing the 'free days' on other goods, Sundays and Docks Holidays declared under Docks Bye-Law No. 118 only will be omitted.

- (c) Demurrage Fees :

On the expiration of the free days, save as hereinafter provided, demurrage fees will be charged on all goods remaining uncleared for the period of storage at the following rates :

- (i) Rs. 50/- per tonne per day or part thereof on the goods classified under item 'No. 1, 2, 4, 43, 47, 57 (i & v), 63, 79, 87 and 88 in Section I
- (ii) Rs. 25/- per tonne per day or part thereof on the goods classified under item Nos. 3, 10, 11, 33, 46, 58, 62 (c), 69, 75, 82, 90, 91, (v), 92 and 93 in Section I and
- (iii) Rs 15/- per tonne per day or part thereof for the goods classified under all other items in Section I.

EXPORTS

Goods for Shipment	Period free of rent	How charged
(a) Stored in Docks open yards at Owner's risk	10 days	(i) Wharfage as per Section 1
(b) Stored in Docks transit sheds	7 days	(ii) A demurrage fee calculated at the rate of half the wharfage fee applicable for every three days or part thereof.
(c) Brought direct to the transit sheds by rail or from the rail-borne cargo sheds and shipped	Vide clauses (a) & (b)	
Note : Exporters must elect whether goods are to be stored in the open or in the transit sheds.		
(d) Brought into Docks by lighters for overside shipment but landed on the Docks quays by shipper's own labour	Vide clauses (a) & (b)	(i) Half import wharfage as per section 1 (ii) Export charges under clauses (a) & (b), the date of landing to be reckoned as the date of receipt.
(e) If not shipped but removed from Docks into Town by land carriage :		
(1) Provided Board's labour is not utilised.	NIL	(i) No wharfage. (ii) A demurrage fee calculated at the rate of half the wharfage fee applicable for every three days or part thereof
(2) Provided Board's labour is employed.	NIL	(i) No wharfage. (ii) A demurrage fee calculated at the rate of three quarters the wharfage fee applicable for every three days or part thereof

Note : Shut out cargo must be removed by shippers on receipt of three days' notice from the Docks Manager. In cases of non-compliance, the Docks Manager may remove such goods to a place of storage at the expense of shippers.

(f) Railed into Docks and stored in the railborne cargo sheds for shipment and not taken to the transit shed but removed into town.	NIL	<ul style="list-style-type: none"> (i) Half export wharfage as per Section I. (ii) Docks unloading and carting charges (iii) Ground rent from the date the goods were received in Docks in lieu of demurrage fees.
(g) Railed direct into Docks and found to be unfit for shipment :		
(1) Provided removed from Docks within 24 hours.	24 hours	<ul style="list-style-type: none"> (i) No wharfage. (ii) Docks unloading and carting charges.
(2) When not removed from Docks within 24 hours.	NIL	<ul style="list-style-type: none"> (1) If stored in the transit sheds : <ul style="list-style-type: none"> (i) No wharfage as per Section 1 (ii) Docks unloading and carting charges. (iii) Demurrage fees as laid down in clauses (e) (1) or (e) (2). (2) If stored in the railborne cargo sheds : <ul style="list-style-type: none"> (i) Half export wharfage as per section I (ii) Docks unloading and carting charges. (iii) Ground rent from the date the goods were received in Docks.
(h) (1) Jute and gunnies railed direct into the Docks and stored in the American Cotton Shed, Prince's Dock, awaiting shipment.	NIL	Rent at 66 Paise per tonne per week or part of a week.
(2) Jute and gunnies railed into the Docks and stored in the American Cotton Shed for shipment and not taken to the transit shed but removed into Town.	NIL	<ul style="list-style-type: none"> (i) Half export wharfage as per Section I. (ii) Rent at 66 paise per tonne per week or part of a week.

EXCEPTION : On Cargo railed into Docks by Bombay Port Trust Railway Wagons from the Grain and Cotton Depots under the orders of, and with permission from the Docks Manager, and on which Customs and Shipping Agents passes have been issued, no demurrage fees or ground rent charges will be levied provided such cargo is actually shipped on the vessel for which it was railed in. If such railborne cargo is shut out, or, for any reason, is not shipped, the ordinary charges from the date of arrival will be levied.

In computing the number of free days for charging rents, Sundays and the Holidays referred to in Docks Bye-Law No. 118 will be omitted.

B. Ground Rent Charges.

Ground rent charges in Docks' Sheds and Yards by special arrangement :

Period of storage	Rate
(a) In Sheds :	
(i) For the first two months	Rs. 4.80 a sq. metre per mensem.
(ii) Over two months but not exceeding four months	Rs. 5.20 a sq. metre per mensem. for the entire period of storage.
(iii) Over four months	Rs. 5.60 a sq. metre per mensem for the entire period of storage.
(b) In the open yards and open sheds	
(i) For the first two months	Rs. 2.80 a sq. metre per mensem.
(ii) Over two months but not exceeding four months	Rs. 3.40 a sq. metre per mensem. for the entire period of storage.
(iii) Over four months	Rs. 3.80 a sq. metre per mensem for the entire period of storage.

NOTE : (i) The above charges are subject to a minimum calculated as for 5 sq. metres for each consignment.

* (ii) The Chairman may in the public interest or in the interest of the Bombay Port Trust vary the above rates for good and sufficient reasons to be recorded in writing.

** C. Warehouse rent on Duty Paid goods stored on the Board's premises set apart for such goods and on goods bonded under Section 60 of the Customs Act, 1962.

(1) Warehouse rent on non-hazardous goods.

Per square metre for every week or part thereof.

How Stored	Upto 4 weeks	From 5 to 12 weeks	Beyond 12 weeks
	Rs.	Rs.	Rs.
In the open	3.50	7.00	10.50
In sheds	4.00	7.50	11.00

(2) Warehouse rent on hazardous goods per square metre for every week or part thereof.

How Stored	Upto 4 Weeks	From 5 to 12 Weeks	Beyond 12 Weeks
	Rs.	Rs.	Rs.
In the open	7.00	14.00	21.00
In sheds	8.00	15.00	22.00

NOTE :- The charges prescribed in (1) and (2) above are subject to a minimum calculated as for 5 sq. metres for each consignment.

* T. R. No. 539 of 23.9.75 - Central Govt's Sanction vide No. PGR-175/75 dated 25.11.75 published in Maharashtra Govt. Gazette on 11.12.75.

- ** (iii) An additional charge equivalent to 75 percent of the Ground Rent Charges recoverable under this section will be levied on the storage of cargo containers, chassis and other equipment used for handling container vessels/Ro-Ro vessels.

(3) Miscellaneous charges.

Items	Per	Rs. P.
1 For opening package :		
Motor Cars	Package	1.00
Machinery	"	0.53
Packages of other kinds	"	0.16
2 Rebagging and re-covering or repackaging	Bag or Package	0.16
3 Scale rent	Day or part thereof	3.00
4 Certificate of weight or measurement	Sheet	3.00
5 Duplicate Chappas	Each	0.53
6 Sunday or Holiday work	Each Warehouse per day	60.00
	Each Warehouse per Half day	40.00
7 Verifying stock list	Each	20.00

D. Warehouse rent on goods stored under Section 46 of the Customs Act, 1962.

For Storage upto the expiry of the 12th week from the date of receipt of goods in the warehouse. At the rates prescribed in the Schedules under Section III C (1) and (2)

NOTE : (1) Demurrage charges under Section IIIA of the Docks Scale of Rates or rental charges at the rates prescribed under Section III C (1) and (2), whichever is higher, will be levied from the date of noting of the Bill of Entry for home consumption or on the expiry of the 12th week from the date of receipt of the goods in warehouse, whichever is earlier.

(2) The above charges are subject to a minimum calculated as for 5 sq. metres for each consignment.

E. Warehouse rent and carting charges on goods sold under Section 61 or Section 62 of the Major Port Trusts Act, lying uncleared in the Docks or in other premises in the possession of the Board.

- (1) Carting Charges : Carting charges at the rate of Rs. 28 per tonne will be levied on all goods sold under Section 61 or 62 of the Major Port Trusts Act or withdrawn from sale. In the case of goods sold, such charges will be recoverable from the sale proceeds and, in other cases, from the consignees.
- (2) Free Days : Unless otherwise announced prior to auction as a special condition of sale, all goods sold by Public Auction under Section 61 or 62 of the Major Port Trusts Act will be allowed storage free of rent for five days following the date of confirmation of the sale. In computing the number of 'free days' Sundays and Dock Holidays declared under Docks Bye-Law No. 118 will be omitted.
- (3) Rent : On the expiry of the 'free days' rent will be charged on all goods remaining uncleared until delivery is effected at the rate of Rs. 7.70 per tonne per diem. If, however, the goods or a portion thereof remain uncleared on the premises of the Board beyond 15 days of the date of confirmation of the sale, the sale proceeds of the goods, or if only a portion of the goods remain to be taken delivery of by the purchaser, the proportionate sale proceeds, shall be forfeited and the goods, or a portion thereof, as the case may be, resold by the Port Trust. The aforesaid period of 15 days may be extended at the discretion of the Docks Manager in suitable cases, having due regard to circumstances of the case or to the quantity and bulk of the goods to be removed by the purchaser.

WE'RE No.1. In ropes, twines and nets.

Because every single product we market has to pass exacting chemical and physical tests at our laboratories. So that our quality is never in question. Our Manila and Sisal Ropes, manufactured from imported raw materials, are the finest available. And the same high degree of excellence and reliability characterises our full range of products. Synthetic ropes, twines & webbings for the marine industry, fibre core ropes for the steel wire rope industry,

haid cord for the textile industry alongwith jute, aloe, hemp and coir ropes for general and special uses. No wonder people have been relying on us since 1903!

**THE GANGES ROPE
COMPANY LIMITED**

For ropes reliable to the last tug!

Sinclairs

- Ship Chartering • Ship Sale and Purchase
- Shipping Consultancy • Liner Broking

Since 1869, SINCLAIRS has been in the international transport business. Initially Dutch, then British, SINCLAIRS today is totally Indian owned and managed. Catering successfully to the needs of the shipping trade.

Covering all aspects of ship broking with world-wide associates and an all-India coverage, SINCLAIRS is a name to remember in the international maritime circle.

OUR NAME HELPS LAUNCH
THOUSANDS OF SHIPS!

SHALIMAR

Shalimar Paints are always in demand
for the decoration and protection of
passenger and cargo ships.

For the shipping industry, we provide a wide range of heavy-duty Industrial Marine Coatings: used to fight corrosion, and rust on ship exteriors. We also supply paints for the interiors of ships and when required, formulate special finishes to meet our customers' requirements.

Shalimar Paints also decorate and protect surfaces in other spheres of life. In homes. Industries. And virtually every other place you can think of!

India's first large-scale paint company, Shalimar Paints have been colouring your world since 1902. Constantly developing new and sophisticated paints to maintain our reputation as pioneers in the field!

Shalimar Paints—equal to any painting task.

SHALIMAR PAINTS LTD.

Members of the International Paint Co., Courtaulds Group, U.K.

CALCUTTA PORT FACILITIES

Geographic Location and climate :

The port of Calcutta is the premier general cargo port on the eastern sea-board of India. Of all the ten major ports in India, it is the only riverine port, 80 miles away from the sea face but the Port pilotage extends further down by about 40 miles into the sea upto Sandheads. The Port is on the left bank of the River Hooghly which flows into the Bay of Bengal. The river Hooghly is formed by the confluence of three spill channels from the parent river the Ganga. These spill channels are the Bhagirathi, the Jalengi and the Churni. The Port is located at the latitude $20^{\circ} 32' 53''$ N and longitude $80^{\circ} 18' 05''$ E. The climate in this part of India is tropical—December, January and February being the winter when the minimum temperature is about 10° centigrade.

The origin of the Port of Calcutta dates back to the seventeenth century when people from European countries fitted out trading expeditious into the East. About 1700 A.D., a body of English merchants, known as the East India Company, purchased the villages of Sutanati, Govindapur and Kalikata and established there a trading settlement. The Port and the City of Calcutta grew out of those villages along the left bank of the River Hooghly.

HINTERLAND :

The Port commands a vast hinterland of about half a million square miles, comprising the States of West Bengal, Assam, Bihar, Orissa, almost the whole of Uttar Pradesh, a part of Madhya Pradesh and also the neighbouring countries of Nepal and Bhutan. This region is inhabited by about 200 millions of people and is rich in agricultural, mineral and industrial resources and extensively served by a network of transport and communication.

TRADE :

At present about 25% of the total value of exports from the country and 12% of the total value of imports into the country pass through the Port of Calcutta. Approximately one-fourth of the total foreign exchange earned by the country as a whole accrues from cargoes handled in this Port. Calcutta is a terminal Port and its two-way pattern of traffic is a source of special attraction to shipping. The volume of sea-borne traffic passing through the Port fluctuates with the state of the economy in the hinterland. The main exports are Tea, Jute, Gunnies, Coal, Shellac, linseed, Ores, Hides, Mica, Sugar, Iron Scrap, Finished Steel Engineering Goods and Structural. Principal imports are Salt, Fertilisers, Machinery, Hardware, Petroleum, Cement, Phosphates, edible oil and sundry other cargoes.

Tidal Characteristics and Approach Channel to the Port :

The approach channel to the Port presents some navigational hazards. There are several sand bars and sharp bends in the river which ships have to negotiate to call at the Port. Owing to constant fluctuations in the depths over the bars in the river, it is necessary to sound most of them daily and carry out frequent hydrographic surveys of the entire river and its seaward approaches to a high degree of accuracy. A large river-surveying organisation is being maintained for this purpose. It has a drawing office and a printing press where charts are printed and distributed to the Pilots who navigate the incoming and the outgoing vessels to and from the Port. Automatic tide gauges and semaphores are maintained to indicate the tidal heights day and night for the benefit of the Port Pilots. Latest reports on all bars and navigational changes are broadcast to shipping over the Port Trust's Wireless Stations in Calcutta (VWAI) and at Hooghly Point, (VWA2), 34 miles downstream of Calcutta, and also from Haldia, $56\frac{1}{2}$ nautical miles down Calcutta.

The estuary is open to navigation day and night. Starting from the seaward end, there are three attended Light Vessels. The two outer vessels are the most modern, being operated electrically with lights of very high intensity. From there onwards, the channel is marked by smaller light vessels, light floats and gas buoys. There are over 120 channel buoys of which 82 are lighted. About 500 river marks of which 140 are lighted are maintained by the Port Trust for safe navigation on the river. Two powerful despatch vessels-cum-tugs viz. 'Seva' and 'Nadia', serve the Light Vessels and maintain the other navigational aids. In addition, there are one workshop and a lighting launch named 'Jyoti'.

There are two lighthouses in the Lower Reaches of the River Hooghly, one at Saugor Island and the other at Dariapur. The Saugor Lighthouse is situated at the Middleton Point of the Saugor Island and about one mile inside. The Dariapur Lighthouse is situated on the right bank of the River Hooghly, south of the river Rasulpur. A Radio Beacon, maintained by the Director General, Lighthouses and Lightships, Government of India, has also been set up at Saugor Island, near the Lighthouse. Storm warning signals are exhibited from the Saugor Lighthouse. Diamond Harbour, Budge Budge, the Kidderpore Docks, Lock Entrance and the Port Trust's Head Office Building at 15 Strand Road, Calcutta-700 001.

Only trained pilots can navigate the incoming and outgoing vessels. Hence Pilotage on the River Hooghly is compulsory. Certain shallow draft vessels up to 200 tonnes may be allowed to be piloted by otherwise qualified persons with prior permission from competent authorities. Inland vessels, however, are allowed to navigate the river in accordance with the provisions of the Inland Steam Vessels Act in smooth or partially smooth waters, depending upon the certificates of plying.

The Pilot Vessels, "Sagar" and "Samudra" fitted with up-to-date navigational aids and equipment including D. F. Gear are maintained by the Port. One of these is stationed at Sandheads in turn and cruises in the vicinity of the Eastern Channel Light Vessel. Any merchant ship approaching Sandheads may call for D. F. bearing from the Pilot Vessel, if required. The Pilot Vessel on station (VWST) maintains a 24 hour wireless watch. Vessels arriving at Sandheads are required to indicate their 'Expected Time of Arrival' well in advance. They may also communicate with the Pilot Vessel in V. H. F. on Channel 16.

The size of vessels able to enter the River Hooghly is controlled by the available draft which fluctuates daily. The River Hooghly can generally be navigated by vessels, depending on the size and draft as far as upto Calcutta during the periods, viz., (I) June to October - At high water springs, drawing 8.70 metres (28.6 feet) drafts and at high water neaps, drawing 8 metres (26 feet) draft and (II) October to June - By vessels drawing between 6.7 metres to 8.2 metres (22 to 26.9 feet) drafts. The largest vessel to enter the Port of Calcutta was a 16,736 tonnes (gross tonnage) but the ship generally meant for the Port in Calcutta is a ship under 550 feet between perpendiculars in length, 65' to 70' broad in beam and loading to a maximum draft of 26 ft. The number of vessels which enter and leave this Port in a year varies between 1,000 and 1200, depending upon the demand from export, import and coastal trade and the state of the economy in the hinterland.

DRAFTS :

Drafts are allotted to Shipping on the basis of the depths available over the different bars and crossings including the governing bar and the expected tidal rise which varies from day to day and also from season to season. A draft forecast is issued to the Shipping Interests six weeks in advance for Calcutta, Haldia, giving the estimated fresh water draft for inward and outward bound vessels of various categories. These forecasts are subject to alteration, depending upon the changes in the depths on the bars in the river.

Incoming vessels, after being piloted from Sandheads to Garden Reach, a distance of 117 miles, are taken over by the Harbour Pilots who manoeuvre them to river moorings, riverside jetties or Lock Entrances as required. The movement of ships inside the impounded Docks is done by Berthing Masters who are attached to the Harbour Master (Port). The Harbour pilots also work under this Officer. The River Pilots are under the Harbour Master (River). These two Services along with the River Survey Service, Dredger and Despatch Service and the Marine Engineer Superintendent's Section together with other ancillary services constitute the Marine Department of the Port of which the Director, Marine Department, is the Head.

Dredging is very essential for maintenance of depths on various bars and crossings in the River Hooghly and the Port Trust maintains a large fleet of dredgers lifting approximately 18 million tonnes of spoil annually. In addition, depths at the Lock entrances and berths in the impounded docks and open jetties are maintained by dredging by bucket dredgers, small suction dredgers and grab dredgers.

For improvement of the navigable channel at the different reaches of the river by executing appropriate river training works, continuous exercise is being made. For this, model experiments were entrusted to

the Central Water and Power Research Station under the Government of India at Poona and on the basis of experiments conducted there, river training measures are undertaken to improve flow conditions in the river and streamline dredging operations. The Port Trust set up a new department known as the "Hydraulic Study Department" in 1962 with the object of studying the Hydraulic characteristics of the river and its estuary. The data and results obtained from sustained hydraulic research undertaken in particular reaches of the river are being utilised in devising longterm conservancy measures for the river.

Anchorage :

Anchorage are available in the River Hooghly at Saugor Roads, Haldia, Kalpi, Diamond Harbour, Royapur, Ulubaria, and Garden Reach which are utilised by ships on passage to and from the Port.

KIDDERPORE DOCKS

Cargo Berths :

These consist of two impounded Docks and a Turning Basin. There is a lock entrance from the river, measuring 580' X 80', which gives access to the docks. Vessels upto a maximum length of 515 ft. and a beam of 70 ft. can enter this dock.

DOCK No. 1

This dock is 2700 feet in length and 600 feet in width with a designed depth of water of 30 feet and has 12 berths served by single storeyed sheds. Berths Nos. 5 and 7 are used as one berth, depending on the size of the vessel. There are two buoy berths in this dock.

DOCK No. 2

This Dock has a length of 4500 feet and a width of 400 feet with a designed depth of water of 30 feet. It has 8 general cargo berths, served by single and double storeyed sheds and 2 coal berths. One of the coal berths is provided with mechanical loading appliances comprising a wagon tippler and a conveyor belt system. There are also two lay-up berths and two buoy berths in this Dock, where four ships can undergo repairs or load and unload cargo with the help of lighters.

NETAJI SUBHAS DOCK

This Dock has a lock entrance measuring 700'X90' with 6 import and 1 export berths, each being 600' long. It can take vessels upto 565 ft. in length. Three of the import berths are served by three-storeyed sheds and the rest by two-storeyed sheds. There is also an oil berth used for importing non-dangerous petroleum. Besides these, this dock has a heavy-lift berth provided with a 200-ton shore-based electric crane. The designed depth of water in the dock is 30' and four ships can work overside at the buoys in the dock. There is a lay-up berth with a length of 500 feet and a depth of water of 16/17 feet. In the extension of the N. S. Dock, two buoy berths are available to hold four ships. These are mainly used as lay-up berths. Three lighterage berths are also available in the Netaji Subhas Dock with a total length of 900 feet and a depth of water of 6/10 feet.

RIVER MOORINGS

The river moorings with capacity to accommodate 23 ships under favourable conditions of weather, tide etc. extend from the Howrah Bridge to Metiabruz. Due to the close proximity of Salt Golas, moorings adjacent to the Howrah Bridge are generally utilised for discharge of salt. The moorings in the river front opposite Esplanade and Hastings In the city are usually used for loading gunnies and other cargo, while the innermost berths along the Strand Road are used for discharging timber logs. Metiabruz moorings near the Garden Reach Anchorage are generally used by vessels awaiting berths or waiting for suitable tides to sail from the Port. Whenever necessary, these moorings are also used for discharging or loading cargo.

GARDEN REACH JETTIES

The Garden Reach Jetties consist of two usable jetties for ships upto 565 feet in length, served by double storeyed sheds. The depth of water varies according to seasons and location of each jetty.

CALCUTTA JETTIES

Calcutta Jetties were the oldest operational section in the Port dating from 1860s. Out of the nine Jetties, only one is now being used for inland craft.

BUDGE BUDGE OIL JETTIES

At Budge Budge, out of 8 pontoon jetties provided, only 6 are now in commission. Of these, Nos. 5, 7 and 8 Jetties are used for dangerous cargoes. The Oil Companies have laid pipe-lines for discharging petrol from tankers along these jetties to their installations on shore. Jetties Nos. 7 & 8 are capable of being used for import of edible oil and for export of industrial alcohol. The Jetty No. 5 is also sometimes used for bulk import of methonal and dangerous petroleum products for which pipe-lines have been laid from this jetty. The jetty Nos. 2 & 3 are mainly used for bunkering the Port Trust's vessels and craft. The jetty No. 3 is used for flats and Jetty No. 1 is used for loading and unloading of non-dangerous petroleum products.

DRY DOCKS

Of the ten major ports in India, Calcutta is the only terminal port marked by a two-way pattern of traffic and hence there is a regular demand from Shipping for dry-docking facilities. The concentration of ship-repairing industries around Calcutta also accounts for the steady and growing demand for ship-repairing facilities.

The existing facilities comprise five Dry Docks for undertaking all major surveys and under-water repairs and two lay-up berths in Kidderpore Docks and one lay-up berth in Netaji Subhas Dock. Of the five Dry Docks, three are in the Kidderpore Docks and two are in Netaji Subhas Dock. The maximum dimensions of the vessel that can be accommodated at these dry docks and the facilities available to shipping are given below.

	Length	Beam
K.P. Dry Dock No. 1	515'-0"	64'-0"
K.P. Dry Dock No. 2	470'-0"	64'-0"
K.P. Dry Dock No. 3	335'-0"	48'-0"
N.S. Dry Dock No. 1	565'-0"	75'-0"
N.S. Dry Dock No. 2	565'-0"	75'-0"

The dry docks in Netaji Subhas Dock are arranged in tandem and can be used as one continuous dock. The dry docks can be entered only from the wet docks.

The following facilities are available at the Dry Docks :—

NETAJI SUBHAS DRY DOCKS

Electric current

D. C. 220 or 110 Volts
Maximum available 600 Amps.

To be distributed as;

D. C. 220 or 110 volts
400 amps to one dry dock & 200 amps to other dry dock.

or
D. C. 220 volts - 400 amps to one dry dock
and
D. C. 110 Volts - 200 amps to other dry dock
or vice versa.

A. C. 400 Volts
Maximum available 700 Amps

To be distributed between the 2 dry docks upto a maximum of 350 Amps. at each dry dock

KIDDERPORE DRY DOCKS

D. C. 220 or 110 volts
Maximum available 400 Amps.

To be distributed as .
D C 220 or 110 volts at
200 Amps to each dry dock.

or
D C 220 volts - 200 Amps. to one dry dock and
D C 110 volts - 200 Amps to other dry dock
To be distributed between 1 & 2 dry docks to
a maximum of 300 Amps to each dry dock.

A. C. 400 volts

Compressed Air :

N. S. Dry Docks — 500 cft. at 100 lbs. per sq. inch ;

K. P. Dry Docks — 220 cft. at 100 lbs. per sq. inch ;

(but at present no compressed air is available)

Netaji Subhas Dry Docks — Max. 950 cft. per minute at 100 lbs. per sq. inch.

Kidderpore Dry Docks — Max. 800 cft. per minute at 100 lbs. per sq. inch.

Fresh water :

Drinking water can be supplied directly from the dock side hydrants at the rate of 10 tonnes per hour at each of the dry docks and also from the Port Trust's barges for ships occupying No. 1 Netaji Subhas Dry Dock (basin side).

Unfiltered Water Supply :

Unfiltered water supply at a maximum pressure between 30 to 50 lbs. per sq. inch and 50 tons per hour are available at both Netaji Subhas and K. P. Dry Docks through more than one hydrant.

Capstans :

Use of Hydraulic Capstans for propeller work can be made available on application at the owner's risk.

Cranes ;

Netaji Subhas Dry Docks - one 25 - tonnes travelling electric crane is available on the south side of the Dry Docks. In addition, the dry docks on either side are served by one 3 to 6 tonnes diesel electric crane and on the north side by one 3 - tonnes electric crane.

Kidderpore Dry Docks :

One 5 ton Weiman Electric crane available at No. 1 dry dock only. For propeller work or other heavy-lift work, various floating cranes owned by the Port Trust can be made available at both the Kidderpore and the Netaji Subhas Dry Docks on application to the Traffic Manager.

Telephones :

With the exception of No. 3 K. P. Dry Dock, all dry docks at Netaji Subhas and Kidderpore Docks are provided with automatic telephones for use on board the ships.

Transit

In the Port of Calcutta, there are 34 transit Sheds, 58 Warehouses, 5 hazardous Sheds and godowns, commodity dumps, and steel dumps etc. The floor area in the transit sheds measures 280240 sq. mtr. and the floor area in the warehouses measures 170530 sq. mtr.

Cranage and Equipment

The number and variety of cargo-handling-equipment available in the different operational areas of the Port are as follows :—

Garden Reach Jetties :

This section is served by 15 electric quay cranes, 3 electric roof-cranes, 4 electric yard cranes and 2 side cranes, all of 2 tonne capacity. Besides, there are 12 electric lifts of 2 tonne capacity to convey the cargo from one floor to another. The double-storeyed sheds are also provided with chutes for bringing down bagged cargo from the first floor.

Kidderpore Dock No. 1 :

The berths in this dock are provided with 47 level luffing full portal electric cranes of capacity varying from 3 tonnes at 27.7 metre radius to 5 tonnes at 15.2 metre radius.

Kidderpore Dock No. II :

There are 10 level luffing full portal electric quay cranes of 3 tonne capacity, 5 level luffing full portal cranes of 6 tonne Capacity, 4 back roof cranes of 1½ tonnes capacity each, 2 yard cranes of 1½ tonnes capacity each and 11 lifts of 2 tonne capacity each. Besides, there are 8 yard cranes with a capacity varying from 6 tonnes to 30 tonnes. There are also 16 electric lifts of 2,600 lbs. capacity each and 22 electric lifts of 3,600 lbs. capacity each at the safe Tea Warehouse and hide Road Tea Warehouse respectively. For handling coal meant for coastal export, there are 5 level luffing full portal electric cranes of 5 tonne capacity each.

There is also one Mechanical Coal Loading Plant at No. 18 Berth, Kidderpore Dock II with arrangements to unload coal from open wagons and load it into vessels. The plant is provided with wagon tipplers, a conveyor belt system and 2 travelling loaders, each having a peak rated capacity of 200 tonnes per hour.

A mechanical grain handling plant has been installed at No 23 Berth, Kidderpore Dock II, where storage facilities are available at the silo constructed by the Government of India. The storage capacity of the Grain Silo is 19,000 tonnes. The conveyor belt system at the mechanical grain handling plant has a rated capacity of 200 tonnes per hour.

Netaji Subhas Dock :

There are 45 level luffing electric quay cranes of which 25 are of 2 tonne capacity, 10 of 3 tonne capacity, 7 of 5 tonne capacity, 1 of 6 tonne capacity, 1 of 15 tonne capacity and 1 of 200 tonne capacity. There are 59 lifts of 2 tonne capacity, 13 electric yard cranes of 2 tonne capacity, 6 electric side cranes of 3 tonne capacity and 2 electric side cranes of 2 tonne capacity each.

At the Libyan Depot Tea Warehouse there are 6 electric cargo lifts of 1364 Kg. capacity each or 3000 lbs. capacity each.

Facilities for Handling Heavy Lifts :

There are heavy-lift yards at the Kidderpore and Netaji Subhas Docks. The heavy-lift yard at the kidderpore Dock II is served by a 30-tonne crane, a 15-tonne crane and two 6-tonne cranes.

Netaji Subhas Dock has two heavy-lift yards, one at No 1 Berth provided with a 200-tonne electric crane which serves as quay crane also and the other at the 'E' berth embankment provided with one 10-tonne, one 25-tonne electric gantry crane, one 10-tonne steam crane, and two 10-tonne diesel cranes. The 200-tonne electric cantilever crane at No. 1 Berth of Netaji Subhas Dock is the highest capacity shore-based crane in India. This crane played a very important part in helping to build up the heavy and basic industries in the country. There is also one 5-tonne capacity Diesel crane at No. 1 Berth of Netaji Subhas Dock.

Mechanical Handling Appliances :

To quicken the pace of handling cargoes at transit sheds, yards, warehouses and storage areas, a number of mechanical appliances has been purchased. The fleet consists of 35 mobile cranes of 6 to 30 tonne capacity, 49 forklifts of 1.5 to 3 tonne capacity, 45 tractors, 8 heavy trucks of 7 tonne capacity and 140 platform trailers of 3 to 20 tonne capacity. There is also a P & H crawler crane of 30-tonne capacity, based in Netaji Subhas Dock. A Separate repair shed has been provided for these appliances to ensure their availability for handling varied cargoes which mark the traffic pattern of the Port.

A vessel can obtain fresh water from the pipe connections which exist at the berths in the Docks and Jetties. A vessel in stream can obtain water from barges.

Transportation links :

The Port of Calcutta is linked to the net-work of the National High ways running throughout its vast hinterland of about half a million square miles connecting the State of West Bengal, Bihar, Orissa, Assam, a part of Uttar Pradesh, Madhya Pradesh and neighbouring countries like Bhutan and Nepal.

The Port has its own railway system with direct mileage of 350 Km. and route mileage of 36 Km. The Port Railway serves as the terminal for two principal zonal systems of the Indian Railways affording facilities of direct receipt and despatch of goods from or to any part of the country. The Port can be accessible from insular points in the hinterland through inland water transport.

STORAGE AND OTHER FACILITIES

The area covered by the Port Estate, including the land on which various docks, jetties, wharves, workshops, roads, buildings, warehouses, transit sheds, godowns, hospitals, quarters, etc. are located is 5.25 sq. miles. The rentable land is demarcated into plots and let out to parties for putting up medium and small-scale industries, trading establishments, warehouses, godowns, open storage yards, etc. Many of these plots are served by rail. The leases are on a short term or long term basis and contain provision for revising the rent every 5 years and 10 years respectively. The number of short term leases is 1,986 and those on long term are 632.

In the port area, extensive facilities are available for warehousing of tea and other cargoes and for open storage of iron and steel etc. Warehousing accommodation provided in the port area with ancillary facilities like electric elevators, wall cranes, chutes and slopeways covers an area of 15,58,491 sq. ft. This comprises the sale tea warehouses with an area of 3,04,409 sq. ft., Hide Road warehouse with an area of 2,83,212 sq. ft., Lybian tea warehouses with an area of 5,78,700 sq. ft., tea transit sheds with an area of 1,58,388 sq. ft., Clive and Canning Warehouses with a combined area of 97,586 sq. ft. and the Strand Warehouse with an area of 1,60,774 sq. ft. The Transit Sheds at Calcutta Jetties offer 38,011 sq. ft. of storage space and Import Warehouses, 96,208 Sq.ft. of space.

The grain sheds at Kantapukur where tea and sugar are also stored have 9,71,243 sq. ft. of accommodation. Storage accommodation available in other locations covers 19,941 sq. ft. at 'C' Shed, Netaji Subhas Dock, 3,00,595 sq. ft. at Hide Road Depot Sheds, 6,52,464 sq. ft. at Brooklyn sheds, 2,82,138 sq. ft. at Hoboken sheds, 69,640 sq. ft. at Jinghirapul, 8,000 sq. ft. at Chetla, 23,835 sq. ft. at the Naval transit shed and 5,02,791 sq. ft. available Baghbazar, Cossipore, Rutholla, Nimtolla, Armenian Ghat, Jagannath Ghat, Pathuriaghat and Sahebbazar. On the Howrah side, the Trustees have provided accommodation having a floor area of 2,14,198 sq. ft. At Budge Budge 2,97,685 sq. ft. of storage accommodation is available. All these total to 51,15,806 sq. ft. of storage space.

Adequate facilities exist in the Port for the storage of hazardous cargoes. These comprise a godown at Budge Budge for storage of liquid Hydrocarbon and solids of category 1. The godown at Oudh South (N.S.D.) provides storage for hazardous categories 1, 2, 3, and 4 other than liquid hydrocarbon and/or inflammable liquid, the godown at MU shed (K.P.D.), for hazardous categories 2, 3, & 4 excepting liquid hydrocarbon/inflammable liquid and the godown at Calcutta Jetties, for hazardous categories 2, 3, & 4 excepting liquid hydrocarbon/inflammable liquid. A Fumigatorium has been provided behind No. 2 Garden Reach Jetty to facilitate import of American Cotton through this Port. The Fumigatorium has 3 separate chambers, each having a capacity to fumigate 650 bales of cotton. Each chamber is equipped with travelling gantry cranes to facilitate stacking of bales inside the Chambers.

Facilities of water supply, both filtered and unfiltered, exist in all sections of the Port. For Kidderpore Docks, there is a hydraulic system encircling Dock I, Dock II, the old 60 ft. Lock Entrance which is now being used for undertaking repairs to craft and the Tidal Basin. For Netaji Subhas Dock, a Hydraulic Main at 400 lbs. per sq. inch pressure is available at all the berths. Drinking water is supplied to ships at the Impounded Docks, riverside jetties and in stream. While water is supplied from the hydrants at alongside berths, vessels in stream inside the docks receive supplies from dumb water barges and those at riverside jetties from the Port Trust's Water Vessels. The responsibility of supplying filtered water rests with the Corporation of Calcutta under the Municipai Act. Direct Supplies from quays and jetties where hydrants are available are controlled by the Port Trust on behalf of the Corporation of Calcutta. Adequate water supply is ensured to all sections of the Port for the purpose of fire fighting.

The numbers of steel barges including flats and the country craft registered in the Port upto March 1979 are 2988 and 1718 respectively.

Fuel is supplied to merchant ships from the oil jetties at Budge Budge by the Indian Oil Corporation. The merchant vessels are also bunkered by oil barges through some special arrangements at Docks, Jetties and Moorings in Calcutta.

A Central Ore Depot has been developed at Sonai covering an area of approximately 12,00,960 sq. ft. to serve as cushion dumps for storage of ores pending shipment. These dumps are served by rail and road and are connected to the semi-mechanical ore-loading berth at No. 5 Netaji Subhas Dock. Due to shifting of the iron ore traffic from Calcutta to Haldia, No. 5 Netaji Subhas Dock is now being utilised as a steel shipment Berth. The different ore storage dumps are also being let out for use as Steel Dumps.

An area of 8 lakh sq. ft. of space has been provided in the Dock area for the use of exporters of iron and steel. On the Howrah side, about 1,120 cottahs have been let out for the similar purpose.

Organisation

The affairs of the Port are managed by a Statutory Body constituted under the Major Port Trust Act, 1963 and known as the "Trustees of the Port of Calcutta". It is composed of 19 official and non-official members representing the principal chambers of Commerce and Industry in the City of Calcutta, Shipping, shippers and Importers, Customs, Railways, the Corporation of Calcutta, the Government of West Bengal and Labour employed in the Port. The Chairman, the Deputy Chairman of the Port Trust and the General Manager, Haldia Dock Complex, Calcutta Port Trust, are appointed by the Government of India. The Chairman is the executive head of the Port Trust. There are various departments under the Port Trust dealing with Administrative and Policy matters including Publicity, Accounts and Finance, Traffic Operations, Civil Engineering Works, Operation and Maintenance of Cargo-Handling equipment and Appliances, Repairs to Floating Craft, Pilotage, Dredging and Navigation, Purchase of Stores and Equipment, Medical and Health Services, Hydraulic Research, Lease of Lands and Buildings and Allotment of staff Quarters, Legal Affairs, Labour Relations and Labour Welfare and Administration and Management of the Haldia Dock Complex.

Port Development

Under the Five Year Development Plans of the Country, a series of development programmes has been taken up to replace, modernise and expand various port facilities under the First, Second, Third and Three-Annual, Fourth, Fifth and Sixth Five Year Plans. Upto 1978-1979, a sum of Rs. 328 crores has been spent on different items of Port Development including work on the Deep-water Dock Project at Haldia. The Development projects of the port, besides the Haldia Dock, cover generally the construction of various floating craft, new warehouses and berths, railway wagons, improvement of loading and unloading facilities, expansion of the railway marshalling yards, replacement of the old bridge, purchase of diesel locomotives and various cargo handling equipment, improvement of workshops and ship-repair facilities, modernisation of dry docks and various works for the conservancy of the river and its improvement including capital dredging and river training works.

Haldia Dock Project

Special mention may be made of the deep-water modern Dock System some berths of which are now open to shipping at Haldia, 56½ nautical miles downstream Calcutta. As it is not possible for big ships and oil tankers to call at the Port in Calcutta because of restrictions in draft and length of ships, the above project is being executed to neutralise these barriers. The first merchant vessel, a collier, entered Haldia Dock in end February 1977. Ore and Coal Berths have started shipments. Cement, Fertiliser and Container ships are also being handled there. The Haldia Dock Project, in its first phase, provides for one river-side oil jetty and two fully mechanical berths for loading ore and coal, three other berths for handling phosphate, foodgrains, general cargo, heavy lift and containers and a finger jetty for handling salt and other similar types of cargo within an impounded dock.

Berths :

An Oil Jetty - in commission since August 1968 - designed to accommodate super-tankers with over-all lengths upto 780 feet and draft of about 28/30 feet at present, progressively increasing to 40 feet in due course. The Jetty, which is on the river, is already serving the new Oil Refinery at Haldia. It is connected by a pipeline to the Barauni Oil Refinery also. The World Bank Tankers of the capacity of 87,500 tonnes have been calling at the jetty frequently.

An Iron Ore Berth - equipped with a mechanical plant capable of loading both lumps and pellets at the rate of 5,000 TPH (tonnes per hour) initially, with provision for a further increase. The berth is designed to load a bulk carrier of the 60,000 dwt. class in a day.

Pertinent Data :

2 Wagon Tippers	:	Capacity - 1500 TPH each.
4 Stock Yards	:	Total capacity - Initially 300,000 tonnes with Provision for a further increase to 450,000 tonnage.
4 Stacker - Reclaimers	:	Type - rail - mounted bucket - wheel each with stacking capacity of 1500 TPH, reclaiming capacity of 1250 TPH.
2 Ship Loaders	:	Capacity - 3000 TPH each, capable of increasing to 4000 TPH

A Coal Berth - capable of Loading conventional ships and bulk carriers of the 60,000 dwt. class at the rate of 2,000 tonnes per hour.

Pertinent Data :

2 Wagon Tippers	:	Capacity-1500 TPH each.
2 Stock Yards	:	Total capacity-175,000 tonnes.
2 Stacker-Reclaimers	:	Type-rail-mounted bucket-wheel, each with stacking capacity of 1500 TPH; reclaiming capacity of 1000 TPH.
2 Ship Loaders	:	Capacity-1500 TPH each, fitted with mechanical trimmers.

A Fertilizer Berth- for rapid mechanical discharge of rock-phosphate, potash and sulphur, capable of handling bulk carriers of the 60,000 dwt. class as well as conventional ships at a rate of 6,000 to 8,000 tonnes per day. The berth will have a mechanised transit shed with storage capacity for 30,000 tonnes. It will also be connected with the Fertilizer Plant in progress in the vicinity.

A Finger Jetty-equipped with a grab-bridge crane for transfer of salt, rock-phosphate and other bulk cargoes from ships to barges or to shore installations at an average rate of 2000 to 2500 tonnes a day. It is proposed to have a modern 40,000 tonnes salt storage and processing facility belt, connected to the berth.

Two General Cargo Berths-each with a quay, 730 ft. long and 120 ft. wide and a back-up area of 60 acres. Both berths will be equipped with adequate cranes, the latest in cargo-handling machinery and road-rail facilities. One of the berths is served by a modern 100,000 sft. transit shed and a Portainer crane for handling containers.

Pertinent Data of Portainer :

Cutreach	:	107' 6" from berthing face
Carrying Capacity	:	30-tonnes payload
Cycle time	:	3 minutes maximum
Lift above quay	:	65 Feet
below quay	:	50 feet

A Container Marshalling Yard-covering an area of 180,000 sq ft equipped with two high-speed, rail-mounted Transtainer cranes capable of serving both rail and road vehicles and providing storage for over 1500 containers at a time.

Pertinent Data of Transtainers:

Cranes	: Type-rail-mounted
Span	: 75 ft. with an overhang of 20 ft on both sides.
Carrying capacity	: 30-tonnes payload
Height (effective)	: 27 ft. for stacking containers two or three-high.

LOCK ENTRANCE AND WET DOCK

All cargoes, except oil, are handled inside a deep and extensive wet dock with a water area of over 170 acres served by one of the largest lock entrances in the world.

Some pertinent data are given here under :

Lead-in-Jetty	: Length : 1010 ft.
Lock	: Length : 985.5 ft. clear length between the Outer and Inner Gates.
	Width : 130 ft.
Gates	: 3; Sliding-type caissons, providing cambers of 654 ft. and 984.5 ft.
Silt depth	: 33 ft below CPT datum which is 9.3 ft. below the Mean Sea Level

Wet Dock

Turning Basin	: Diameter : 1800 ft.
Water Arm	: Length : 5000 ft.
	Average width : 950 ft. with mid-stream buoys holding ships.
Final dredged depth	: 45 ft. with the provision for increasing it by another 2/3 ft.

The Master Plan has provision for construction, when necessary, of additional Iron Ore, Coal, Fertilizer and General Cargo berths, extended Container Facilities, and a second Lock Entrance.

OTHER FACILITIES AT HALDIA

A single track railway line connecting Haldia with Panchkura on the Howrah-Kharagpur main line of the South Eastern Railway at a distance of 71 Kms. from Howrah has been commissioned.

The port has its own internal railway system connecting the docks and industrial establishments within the Port area with the South Eastern Railway. The Port township is being built at the western end of the Dock system along the River Haldi. About 1400 acres of land have been earmarked for this purpose.

The West Bengal State Electricity Board is to supply all the power needs of the Port and industries in this region by drawing a high tension line off the Damodar valley Corporation grid from Kolaghat in Midnapore. For a period of more than six months in the year, the river water at Haldia is potable. This period is expected to increase with the discharge of upland water from the Farakka Barrage which commenced from April 1975. The Geological Survey of India has been carrying out exploratory work in this area for over a year and have indicated that water sources accessible by deep tubewells are adequate for all industrial needs for the present.

An Oil Refinery is already in stream at Haldia. A vast modern Fertilizer Complex is in an advanced stage of progress. Besides, many port-based and port-oriented industries some of which have already started coming up bid fair to develop at Haldia, offering modern material-handling facilities. Township development is also taking place at Haldia on modern lines.

OTHER IMPORTANT PROJECTS

The Farakka Barrage Project which is better known as the project for the preservation of the Port of Calcutta is designed to revitalise the river Hooghly by restoring perennial flow of upland water from the parent river-the Ganga. The upland discharge from Farakka through the feeder canal has started from April, 1975. The benefits from the Farakka Barrage over the years will be on two counts. There will be a general improvement in navigation on the river Hooghly. Secondly, the frequency and intensity of bore tides which dissipate berthing capacity in Calcutta will be gradually eliminated. The Calcutta-Haldia will be an integrated port complex, catering to general and bulk cargoes meant for Eastern India.

Another important project which has been taken up for execution is known as the Second Crossing over the river Hooghly. When executed, this project will considerably ease the flow of traffic and transportation over the entire Metropolitan Region of Calcutta, including 34 municipalities on both the banks of the river Hooghly.

IMPORTANT GOVERNMENT BODIES

The Collectorate of Customs

15 - 1 Strand Road
CALCUTTA - 700.001.

PORT DUES & CHARGES CALCUTTA

APPENDIX I SCHEDULE A — WHARFAGE

WHARFAGE

1. (1) Animals :—	Rs. P.
Beasts of burden and wild animals	1·10 Each
Sheep, goats, calves and other small animals	0·30 Do
Birds in crates and baskets	0·90 per crate or basket
(2) Bamboos, fishing rods and poles	0·30 per 25
(3) Bicycles, rickshaws, palkees and perambulators	1·10 Each
(4) Cocoanuts and coconut shells	1·50 per 500
(5) Empties :—	
Barrels and casks	0·30 per 4
Buckets, canisters, cases, chests' drums, cast iron pans and similar small receptacles not exceeding 12 inches in width or diameter	0 30 per 25
(6) Furniture	0·30 per package
(7) Gunny bags :	
Hessians, baled	1·00 per 2 bales
Other bags, baled	1·00 per 3 bales
Loose bags	1·00 per 600 pieces
(8) Horn	1·10 per 500 pieces
(9) Jute :—	
Bales	1·50 per 5 bales
Drums	1·50 per 20 drums
Bags or bundles	1·50 per 10 bags or bundles
(10) Mats, drums	1·10 per 500 pieces
Mats, hogiah	1·10 per 1000 pieces
(11) Oil— kerosene.	0·75 per 100 litres
(12) Piece goods, haberdashery and twists, silk, cotton or woollen in bales or cases	0·30 per bale or case
(13) Straw	0·30 per kahun
(14) Tea	0·20 per 3 chests
(15) Tiles - country, large, flat	1·50 per 250
Tiles - country, cylindrical	1·50 per 2,000
Tiles - country, of all other description	1·50 per 500
Tiles - marble	1·50 per 50
(16) Vehicles other than those mentioned in Item (3)	1·50 each
(17) Coal passing over the inland Vessels Wharves including Shalimar Wharves	1·10 per tonne

(18) All other goods

1·20 per tonne of Rs. 0·90 per cubic metre at Trustees' option when neither weight nor volume is readily ascertainable, the Trustees may at their option reckon 20 cooly loads or one bullock cart load as equal to 1 tonne, a two-wheeled buffalo cart load as 2 tonnes and a lorry as 3 tonnes or its carrying capacity or on the registered tonnage of the boat.

2. The minimum charge shall be Rs.0·20 and the minimum weight for charge shall be 100 kgs. or 0·1 cubic metre

3. In addition to the foregoing charges, an extra fee amounting to 25 per cent of the charge in each case will be levied on all goods passing over the inland Vessels Wharves on Sundays or any day declared by the Trustees as a public holiday In the case of tea discharged from or loaded into flats or steamers on Sundays or any day declared by the Trustees as a public holiday at T.T. Shed and or its annexes, a consolidated charge of Rs. 200·00 per day on each flat or steamer will be recovered from the Central Inland water Transport Corporation in lieu of the extra fee of 25 per cent.

4. For work done between the hours of 6 p.m. and 6 a.m. an extra charge of Rs. 3·00 per hour will be levied.

SCHEDULE B — RENT CHARGES

1. Stacking goods on the wharves:—

Rs. 7·00 per stack per night for the first seven nights.

Rs. 14·00 per stack per night thereafter.

For the purpose of this charge a stack will be held to comprise goods covering an area of not more than 10 square metres.

2. Space for operations not directly related to the loading or discharging of goods, such as space for scales and desks and chairs and for packing, unpacking, measuring, repairing, marking or drying etc., Rs. 7·00 per scale and chair, or lot per day This charge is not levied on goods detained for Customs and/or Licensed Measurer operations

For the purpose of this charge a lot will be held to comprise goods covering an area of not more than 10 square metres.

3. On boats beached for repairs or other purposes on the hards opposite Shibpore College or elsewhere:—

	Rs. P.
Bhur or pansy	7·00 per day per bhur or pansy
Boats	7·00 per day per boat
Dinghees	2·00 per day per dinghee
Steamers, flats, etc.	Upto 283 cubic metres nett Rs. 15·00 per day Over 283 cubic metres to 566 cubic metres Rs. 30·00 per day. Above 566 cubic metres nett Rs.60·00 per day.

4. Space for keeping:

- (a) Bullock or buffalo carts
- (b) Lorries, trailers

4·00 each per night
6·00 each per night

5. Fishing	10.00 per season per net
6 Floating timber	8.00 per 25 pieces per night
7. Goods lying on the wharves after having been salvaged from the river	5.00 per lot per week
8. Timber temporarily stored on the Wharf land between Elliot Bridge and the Botanical Garden North wall by timber merchants having storage accommodation at the Timber Pond, Shibpur.	45.00 per 25 pieces per month for the first month at Trustees's option and at the rate specified under clause 6 above thereafter if the removal of the timber to rented ponds was prevented by genuine tidal difficulties.

SCHEDULE C — SPECIAL CHARGES ON CARGO PASSING THROUGH NO. 1 CALCUTTA JETTY

(1) On all cargo discharged from or loaded into boats through No 1 Calcutta Jetty, the toll is 50 per cent. In excess of the toll specified in Schedule 'A'

(2) For hoisting cargo into or from boats or transferring of cargo from one boat to another on a Sunday or any day declared by the Trustees as a public holiday and during the hours between 15.30 hours of any day and 6.30 hours of the day following, a crane charge of Rs. 4.00 per crane per hour is levied whether the crane works or not, from the time it is booked up to the time of completing the work or of cancelling the booking or 6.30 a.m. whichever is the earliest.

NOTE : No refund of toll and crane charges Paid under Appendix I on goods that have not been loaded or discharged or on cranes that have not been used, is granted unless the receipt for payment has been endorsed by the Assistant Superintendent/Inspector on duty.

SCHEDULE D — TERMINAL CHARGES ON TICKETS ISSUED BY OWNERS OF FERRY SERVICES AND WHARF TOLL ON BOATS:

1. Terminal charges	Re. 0.01 per ticket recoverable through the owners of Ferry Services.
2. Wharf Toll charges on boats	Re. 1.00 per boat per day recoverable from owners of boats using the Trustees' wharves

HOLIDAY CHARGES

(a) Holiday fees are charged on a sea-going vessel working on a Sunday or any day declared by the Trustees as a public holiday at the rates given below :—

(1) at jetty or Dock berths excepting Petroleum berth in Docks and Coaling jetties or Dock berths used for loading coal, per day.	Rs. P. 588.00
(ii) at Coaling jetties or berths, per day	221.00
(iii) at Petroleum berth at Budge Budge or in the Docks	221.00

(b) Holiday fees are charged on any non-sea-going vessel booked to be loaded or discharged by the Trustees on a Sunday or any day declared by the Trustees as a public holiday at the jetties or in the Docks excepting at a Petroleum berth in the docks and Coaling Jetty at Rs. 111.00 per day.

NOTE : (A) Holiday fees are not charged if the order for work on Sundays or any day declared by the Trustees as a public holiday is cancelled by 2 p.m. on the previous working day.

NOTE : (B) A surcharge of 57.5 per cent is levied on rates under this section in respect of vessels engaged in overseas trade.

HEAVY LIFT CHARGES

Particulars	Charges per	Rates			
		Import		Export	
		Rs.	P.	Rs.	P.
(a) Article less than 4 metric tonnes	Tonne per hoist	52	90	32	30
(b) Article weighing 4 metric tonnes or more but less than 30 metric tonnes	Tonne per hoist	62	60	40	10
(c) Article weighing 30 metric tonnes or more but less than 60 metric tonnes	Do.	82	10	47	90
(d) Article weighing 60 metric tonnes or more	Do.	101	60	47	90

A charge of Rs. 19.50 per metric tonne is levied in addition to rates mentioned above whenever a floating crane is used for discharging articles weighing 4 metric tonnes and above.

A charge for the use of Trustees' lighter for the carriage of heavy lifts between a vessel's side and a heavy life yard or quay is Rs. 19.50 per tonne of each heavy lift so carried.

The Trustees reserve to themselves the right to levy a minimum charge of Rs. 1716.00 per shift whenever a crane vessel or the sheer legs or 200 ton crane is employed. For the use of a crane vessel above Rabindra Setu or below Garden Reach Jetties an extra charge of Rs. 1,287.00 is levied and the Trustees may at their discretion place an officer on board to transport the crane vessel to and from her place of work. If the services of an officer are utilised in this way, the appropriate charges are levied in addition.

Heavy lift charges are levied for the discharge of light articles or packages sent in a boat or lighter for discharge at one of the Trustees' heavy lift yards.

On heavy lifts loaded or discharged from or on to a quay by the vessel's own appliances shipping or landing charge is levied at the rate of Rs. 15.50 or Rs. 28.70 per tonne of each article handled.

Charges for loading into or unloading from boats or lighters and shipping from boats or lighters of heavy lifts other than heavy machinery exported from this port, will however be levied at the rate of Rs. 20.60 per tonne of each article handled.

FRESH WATER CHARGES :

	Rs.	P.	
(a) 1 Supply or filtered water to shipping—			
(i) from pipe line at the Docks	13	00	per 1000 litres or part thereof.
(ii) by the Trustees' water Boat at any place within Garden Reach	19	00	Do.
(iii) by the Trustees' water Boat at any place beyond Garden Reach—			
(a) For supply of water	19	00	Do.
(b) Additional charge to cover incidental expenses			

(i) Beyond Garden Reach and upto Budge Budge	490 00	per trip plus overtime and khorak allowance of water boat crew, if any incurred.
(ii) Beyond Budge Budge	1225 00	
(iii) A countermanding charge will be levied at the rate shown opposite for every requisition for supply of water from waterboat cancelled by a vessel at any point in Port area	92 00	
(2) Supply of water from the Trustees' pipe line at Budge Budge to shipping and the public	13 00	per 1,000 litres or part thereof .

LIGHT DUES :

Paid by every vessel over 50 tons arriving at or departing from any port in India, subject to proviso that if light dues have been paid at an Indian port, no payment. Rate for steamships, 50 n.p. per n.r.t. once in 30 days.

RENT

(i) Goods are rent free for three clear working days after the date of landing: Sundays, days declared by the Trustees as public holidays and days on which the Customs Treasury is closed are not counted as working days. When goods are landed on a day that is not a working day, the landing date is taken to be the next working day. Goods not removed by the evening of the third working day are charged rent from the following day at the rates given in the schedule below whether that day is or is not a working day.

(ii) On cases of wines including those received in damaged condition, rent free time counts from the date of receipt in the wine godown provided that in case of damaged cases of wines removal instructions are filed within the free time as computed under (i) above.

(iii) On goods for despatch by Railway or removal to the Trustees' Warehouses, rent is charged at the rates given in the Schedule below upto the date of loading of the cargo into wagons or of removal of cargo

(iv) On all goods received by the Trustees in a damaged condition and for which a claim is preferred against the Steamer Agents, rent is not charged until the fifth clear working day after the day of landing provided that notice of survey is given to the Docks Manager or Superintendent, Jetties and Wharves, as the case may be, within two clear days after the goods have been landed. This concession is also given whenever General Average has been declared provided that written notice of declaration is given to the Trustees by Steamer Agents before any goods are landed from the vessel

(v) On goods landed in a good condition but subsequently damaged for which an application for survey is received by the Docks Manager or the Superintendent, Jetties and Wharves, as the case may be, within five clear working days, no rent is charged after the date of landing upto the second clear working day after the date on which survey is held by the Trustees.

(vi) .On general import cargo sold by public auction by the Trustees, rent will be charged at the rates given in the schedule below on the expiry of a free time of three clear working days after the day the goods are available for delivery.

The Trustees reserve to themselves the right to charge three times the rates given in the schedule below on any goods which in their opinion could have been removed from their premises before rent was incurred.

Schedule No	Description of goods	Charges per	Rates	
			Rs.	Ps.
1	Cotton, cotton yarn waste, jute, hemp, all other fibres, wool, cotton piece goods and all kinds of cotton twist and yarn in bales	Bale per day	0	90
2	Hores boxes	Each per day	11	80
3	Motor vehicles, bodies, chassis, earth moving and similar equipments not in cases and not heavy lifts	Do.	59	00
4	Sugar in bags, rice, wheat, all other cereals, pulses, seeds including groundnut kernels, all flour and atta	Tonne per week	1	90
5	Salt	(i) Tonne per day for the first 3 days	0	25
		(ii) Tonne per day for the fourth and subsequent days		
6	(A) All other goods on which the landing charge levied by weight -			
	(a) goods other than heavy lifts	(i) Tonne per day for the first 3 days	4	30
		(ii) Tonne per day from the 4th to the 6th day		
		(iii) Tonne per day for the 7th and subsequent days	7	10
	(b) heavy lifts (on each package)	(i) Tonne per day for the first 3 days	9	40
		(ii) Tonne per day from the 4th to the 6th day	11	80
		(iii) Tonne per day for the 7th and subsequent days	14	20
6	(B) All other goods on which the landing charge is levied by measurement	(i) Cu. metre per day for the first 3 days	3	80
		(ii) Cu. metre per day from the 4th to the 6th day	4	70
		(iii) Cu. metre per day for the 7th and subsequent days	5	90

Note - In the case of schedule No. 4 the Trustees reserve to themselves the right on giving seven day's notice to increase the rate of rent to any amount not exceeding Rs.3.55 per tonne per week after the first week's storage.

On unmanifested cargo, rent is charged at the schedule rates given above from the date of delivery of the out-turn report if the goods are not cleared within five clear working days after delivery of the out-turn report to the vessels' Agents.

No rent is charged on goods detained by the Customs authorities for special examination and chemical test under section 17 of the Customs Act 1962, from the actual date of detention upto the first clear working day after the date of release of the goods by the Customs provided the detention is certified by the Collector of Customs to be not attributable to any fault or negligence on the part of the Importer.

No rent is also charged on goods when the removal of such goods is delayed through no fault or negligence on the part of the importers owing to the reasons specified in column 2 of the schedule below for such periods and subject to such conditions as are specified in column 4 thereof

Schedule No.	Reasons for delay	Rate of rent to be charged	period
1	Detention of packages by the Police under the Criminal Procedure Code	No rent	From the date of detention or the date of filing of Jetty Challan whichever is later upto the seventh clear working day after the date of advice of the lifting of the restriction.
2	Goods not traceable when delivery was applied for in respect of which a "Not found" remark was made	No rent	From the day following the date on which the "Not found" remark was made upto the first clear working day after the date it was found if traced within a week and upto the seventh clear working day after the date of advice if traced after a week. No concession is admissible if traced within forenoon of the day after the day on which the remark was made.
3	Goods shown as short landed in the Out-turn Report of the vessel but subsequently traced.	No rent	From the day following the date on which a "Not found" remark was made or from the date of issue of a 'B' form whichever is earlier upto the fifteenth day from the date of advice.
4	Delay in clearance due to non-availability of crane. (Dummy Wharf Rent Bill will be attached to the Jetty Challan.)	No rent	For the period during which the crane was not available provided that an endorsement on the Hoisting Application is obtained from the Shed Master or Shed Foreman concerned, but in the latter case counter signed by the Inspector on duty. The concession must be applied for prior to delivery.

Schedule No.	Reasons for delay	Rate of rent to be charged	period
5	Delay in clearance due to misdelivery.	No rent	For period from the date following the date on which a "Not-found" remark was made up to the seventh clear working day after the date of advice.
6	Goods intended for charitable purpose imported by charitable organisations recognised or treated as such by the Trustees, provided exemption has been obtained in respect of Customs duty.	No rent	For the period for which rent is due.

Note Rent on American cotton bales detained in port for purpose of fumigation will be levied at a flat rate of Rs.0.70p. per square bale and Rs.0.60p per round bale for the period from the date of landing upto two clear working days after the date of receipt at the delivery shed on completion of fumigation and thereafter at the rate specified in schedule 1 of sub-section 6A.

On goods detained in the port on account of analytical tests under the drugs control Act and compliance with Import Trade Control formalities rent will be levied at one-sixth for the first sixty days, one-third for the next thirty days, one-half for the next thirty days and to thirds for the next thirty days of the highest rate applicable under sub-section A of section 6 provided that the detention in each case is certified by the Customs.

On goods the clearance of which is delayed on account of loss or misplacement of shipping documents in the Custom House, the Trustees may, if they so wish, remit in whole or in part the rent charges payable under sub-section 6-A provided that the importers can substantiate the detention by production of a certificate signed by an Officer not below the rank of Deputy Collector of Customs.

EXCEPTION (1) When the removal of goods is delayed through no fault or negligence on the part of the importers owing to the reasons specified in column 2 of the Schedule below, the Trustees may, if they so wish, charge rent at the rates specified in column 3, instead of the rates payable under section 6-A, for such periods and subject to such conditions as are specified in column 4 thereof.

Schedule No.	Reasons for delay	Rate of rent to be charged	Period
	Detention under injunction from court	50 per cent of rent due under Section 6A	From the date of detention or the date of filing of Jetty Challen whichever is later upto the seventh clear working day after the date of advice of the lifting of the restriction.

Schedule No.	Reasons for delay	Rate of rent to be Charged	Period
2.	Goods held up due to Railway operational restrictions and taken delivery of by gate for despatch by rail or steamer from Howrah, Sealdah or local Steamer Ghat on production of documentary evidence	50 per cent of rent due under Section 6A	For the period detained
3.	Cargo intended for other Ports over-carried (not ordinary transshipment cargo) landed here and subsequently transhipped.	50 per cent of rent as under Section 6A	For the period during which the cargo was detained. The concession is given only to steamer agents.
4.	Consignments of dunnage wood landed ex-vessels other than manifested cargo and if clearance is effected within a month from the date of landing.	50 per cent of rent as under Section 6A	From the landing date upto the date of delivery.

B - EXPORTS

Rent is charged at the rates given in the Schedule below:—

1. On goods received for shipment before exports are opened for the vessel by which the goods are to be shipped, from the date the goods are received upto the date on which exports are opened.
2. On goods not shipped by the steamer for which they are booked, from the date of receipt of the goods upto the date on which complete documents are submitted for a vessel for which exports are opened and by which the goods are actually shipped.
3. On goods received for shipment but removed from the Trustees' premises, from the date of their receipt upto the date of their removal, and
4. On goods received for shipment but not booked at the time of receipt to a specified ship or a specified shed from the date of their receipt upto the date on which instructions to despatch are received. When goods are booked to a specified shed without a steamer's name being given such goods are deemed to be booked for shipment by the steamer working at the shed when the goods arrive, but if no steamer is so working, by the next following steamer.

The Trustees reserve to themselves the right to charge three times the schedule rates of rent on any goods other than coal, ores in bulk and pig iron which incurrent under (2) above if in their opinion the shutting of the goods by the steamer was avoidable.

The Trustees also reserve to themselves the right to charge eight times the schedule rates of rent on any goods which incurrent under (1), (2), (3) and (4) above for any period in excess of seven days if in their opinion the storage of the goods is likely to involve additional risk on account of the goods being of an inflammable or hazardous nature.

The rates under schedule Nos. 1, 3 and 5 below are levied on the maximum stock held during the month.

Schedule No.	Description of goods	Charges per	Rate	
			Rs.	P.
1.	Coal, if dumped	Tonne per month	0	40
2.	Cotton, cotton yarn waste, hemp jute, all other fibres, wool cotton piece goods and all kinds of cotton twist and yarn in bales.	Bale per week	0	50

(4) Vessels entering and leaving in ballast and not carrying passengers	0 75	The due is payable once in sixty days.
(5) Dhoonies and Country Boats	0 75	The due is payable once in sixty days.
II Tugs and River Steamers	1 50	The due is payable once between the 1st January and 30th June and once between the 1st July and the 31st December, in each Year.

(B) PILOTAGE

Rs. 250/- Per 1000 G.R.T. or part thereof plus. Rs. 200/- per 30.48 centimetres or part of 30.48 centimetres upto 914 Cms.

Rs. 300/- per additional 30.48 cms. or part of 30.48 cms. over 914 cms. : The above is subject to a minimum of Rs. 3000/- in one operation.

MOORING HIRE

(a) Mooring hire shall be levied on all vessels as laid down below :

0.16 per G.R.T. per day or part of a day—subject to a minimum of Rs. 490/- per day or part of a day

	Rs. P.
(b) (i) Reserved moorings per month, subject to a month's notice of vacation	3,063.00
(ii) Reserved swinging moorings per month	735.00
(iii) Occupation of swinging mooring per day	62.00
(c) For the use of moorings at Budge Budge by flats, hire is charged :	
(i) for the first 24 hours	75.00
(ii) for each succeeding 24 hours	25.00

- (d) For the use of moorings by launches, house boats etc. the charges are levied as under :

(i) <i>Swinging or fixed moorings, per vessel per day</i>	Rs. P. 31.00
(ii) <i>Swinging or fixed moorings hired by the month if the vessel is not more than 20 metres over all, per vessel per month</i>	368 00
(iii) <i>If the vessel is more than 20 metres over all, per vessel per month</i>	490.00

DRY DOCK CHARGES

1. Dry Dock Charges are levied on a vessel using a Dry Dock at the following rates :

	Rs. P.
(a) For the first day	15,313.00
(b) For the second to eighth day, per day	12,250 00
(c) For the ninth day and subsequent days, per day	18,375.00

2. If the dry docking of a vessel, for which a dry dock was booked, is cancelled without giving notice, 24 hours in advance of the ship entering the dry dock as per programme, 20 per cent of the dry docking charges will be recovered from that vessel in accordance with her gross cubic metre and the period of the booking.

3. When (a) a vessel requires special disposition of blocks, which includes the operation of laying and replacing, or (b) keel blocks have been removed for repairs which will necessitate dewatering the dry dock after undocking of the vessel for putting these in position an additional charge of Rs. 4,288/- is levied and the docking period is reckoned from the time the dry dock is dewatered for arranging blocks till the restoration of the dry dock to its original condition after undocking of the vessel under (a) and till the restoration of the dry dock to its original condition after undocking under (b).

4. If a vessel heels over to one side or the other at the time of undocking contrary to the declaration made in the Tank Declaration form by the Master of the vessel, an additional charge of Rs. 4,288/- is levied if it is considered necessary to dewater the dry dock for replacing the blocks. The dry dock charges are levied upto the time of restoration of the dry dock to its original condition after undocking of the vessel.

5. If a vessel discharges oil or other rubbish involving the Trustees in extra expenditure to clean the dry docks and loss of revenue the number of days of 24 hours taken for cleaning either with or without the vessel in the dry docks will be charged for at the first day's rate.

6. For redocking within the period for which the vessel has been regulated, for each operation—Rs. 2,144 00

NOTE : (i) Redocking will include all cases in which it is necessary to pump out a dry dock again at the request of the vessel using the dock after it has once been flooded.

(ii) The above charges include docking, pumping, shoring and undocking, also the use of trestles and punts, if available for cleaning and painting but the Trustees do not undertake any repairing work of cleaning or painting.

(iii) The period of a vessel's occupation of the dry docks counts from the time the caisson is placed in position after she enters until she clears the dry dock entrance when leaving, excepting under schedules 3, 4 and 5 above when the period is determined as stated therein. In the case of a vessel detained in No. 2 Dry Dock, Netaji Subhas Dock owing to No. 1 Dry Dock, Netaji Subhas Dock being occupied by another vessel, a mooring hire only in accordance with Section 27 will be levied for the period she is so detained instead of the usual dry dock charges.

7. For supply of water for testing tanks or similar purposes

Rs. P

(i) Upto 2 Hose Pipes, per day

644 00

(ii) For each additional Hose Pipe

429 00

8. For the use of a Trustees' Capstan for the handling of vessel's propellers or other work required by the vessel, per 8 hours or part thereof

858 00

9 For the removal and repositioning of each block

86 00

10. For the supply of compressed air by the Trustees at the dry dock, per tool per eight hours

172 00

11. For use of cranes at Dry Docks per four hours

(a) 3 tonne steam travelling crane

429 00

(b) 3 tonne or 3 tonne/6 tonne Electric or Diesel Electric crane

858 00

(c) 25 tonne Electric crane

1,287 00

Provided that if the 25 tonne crane is made available for use due to non-availability of 3 tonne/6 tonne crane, the charge for the lower capacity crane will only be levied on the certification by the Superintendent, Dry Docks.

12. Hire charges for the use of the slipways at the Trustees' island and North Workshops —

For the first 24 hours-

Rs. 3,216.00

Per day from the 2nd day to the 15th day

Rs. 215.00

Per day for every day following thereafter

Rs. 322.00

NOTE : A charge of Rs. 215.00 for the first 24 hours instead of Rs. 3,216.00 in case of prolonged occupation for new constructions.

13. Other charges :-

For the supply of water for testing-Rs.129.00 per day of 8 hours

For removal of blocks on extra blocking Rs. 31.00 per block

For Compressed air per line-Rs.129.00 per day of 8 hours.

For shore current at North workshop, 220V. and 440V. D.C. and island Workshop, 220V.D.C./500V. A.C.— Installation charge of Rs. 108 - for all load connections plus unit consumption at the rate of Rs. 2/- per unit with rebate at the rate of 0.13 P. per unit for prompt payment.

TOWING CHARGES

Towing is done subject to the condition that owners or agents of the vessels to be towed undertake to keep the Trustees indemnified against and themselves to bear any loss or damage caused to or by a vessel to be towed or to or by any of her cargo or any loss or damage caused to or by any Trustees' vessels engaged in the towing operation whether such loss or damage is occasioned by any actual or alleged negligence or default by the Trustees or their servants or by any defect in the tug or her gear or by any other cause whatsoever.

Whenever a Trustees' vessel is used for towing or for assisting another vessel in any way the Trustees have the option of insuring their vessel or vessels and if they exercise this option the owners or agents of the vessel assisted are required to pay the insurance premia at the rates shown in Appendix II, plus 20 per cent of these rates, in addition to the rates given below :

Position	For each operation	Trustees' Vessels not Exceeding 1,200 I.H.P.	Trustees' Vessels Exceeding 1,200 I.H.P.
		Per vessel Rs. P.	Per vessel Rs. P.
(a) Above Rabindra Setu	not exceeding 12 hours	1,225.00	1,838.00
(b) Between Rabindra Setu and Quarantine Moorings	not exceeding 6 hours	919.00	1,225.00
(c) Inside the Docks	not exceeding 6 hours	613.00	
(d) In Garden Reach	for assisting a vessel to turn	919.00	919.00
(e) Between Quarantine Moorings and Budge Budge Boundary Pillars	not exceeding 12 hours	1,225.00	1,838.00
(f) Between Budge Budge Boundary Pillars and a line drawn 230° True from Moyapora Semaphore	(i) for assisting a vessel to turn	1,532.00	1,532.00
	(ii) for other operations not exceeding 12 hours	1,838.00	3,063.00
(g) Below a line drawn 230° True from Moyapora Semaphore	not exceeding 12 hours	3,063.00	4,288.00

The rates in the above schedule for each operation not exceeding 12 hours are also applicable to operation for each additional 12 hours, the Trustees' vessels are used under (a), (e), (f) (ii) and (g) and for each operation not exceeding 6 hours are also applicable to operation for each additional 6 hours the Trustees' vessels are used under (b)

NOTE: 1 The above charges do not apply to operations in assistance of a ship in distress.

NOTE: 2 If a high power vessels is used within the port limits to suit the Trustees' convenience the charges will be the same as those for a low power vessel. The time will be calculated from the time a vessel leaves her moorings or previous duty to the time she leaves the assisted vessel. For one operation the highest rate leviable for any portion of the operation will be applied throughout.

NOTE: 3 No charges is levied if the movement is made to suit the Trustees' convenience.

BERTH HIRE

1. Every Vessel at a jetty or a loading or unloading berth in the docks or a petroleum wharf at Budge Budge shall be charged berth hire at the following rates :
0.22 p. per G.R.T. per day or part of a day subject to a minimum of Rs. 919.00 per day or a part of a day.
2. Vessel permitted to occupy a jetty or a Dock berth as a laying up berth for minor repairs only before, during or after loading or discharge shall be charged berth hire at 50 per cent of the above rates for not exceeding 3 days only after which berth hire at the above rates shall be levied
3. A vessel less than 106 nett registered ton and barges while occupying a landing stage at Budge Budge shall be charged berth hire at the rate of Rs. 123.00 per 12 hours.
4. A flat while occupying a landing stage at Budge Budge shall be charged berth hire at the rate of Rs 245.00 per day. No charge is levied against a towing river steamer laying on the off side of the flat and two or more flats occupying the same landing stage are treated as one unit.
5. (i) When a vessel is moved from a mooring at Budge Budge to a mooring or berth above Garden Reach or vice versa hire for moorings or berth both at Budge Budge and Calcutta shall be levied for the day on which such movement takes place.
(ii) When a vessel is removed from a jetty or a Dock berth to another jetty or Dock berth, only one berth hire is levied for the day on which such movement takes place; but in case the above movement is from a mooring (Dock or Stream) to a jetty or Dock berth or vice versa, the higher rate is levied for the day on which such movement takes place.

CRANE, DERRICK AND IDLE-TIME CHARGES

1. A sea-going vessel working at the Docks or jetties (excepting Coal Berths and Heavy Lift Yards) is charged, as follows:—

(a)	Basis of charge	1st shift	2nd & 3rd Shift
1. Electric Crane	per crane per hour	Rs. 20.00	Rs. 20.00 (Subject to a minimum charge of Rs. 96/- per crane)
2. Hydraulic Crane	Do.	Rs. 15.00	Rs 15 00 (subject to a minimum charge of Rs. 64.00 per crane)
3. Derrick	per derrick per hour	Rs. 13.00	Rs.13.00

NOTE : For work in the 1st Shift, full charge for the entire shift is levied irrespective of the hours of work.

(b) For work on Sunday or any day declared by the Trustees as a Public Holiday or overtime an addition of 50 per cent is made to the rates, stated above.

NOTE : The charges are not levied (a) if the order for work on the 1st and 2nd shifts of any day is cancelled by 2 p.m. on the previous working day, (b) if the order for work on the 3rd shift of any working day is cancelled by 2 p.m. on the same day, and (c) if the order for work on the 3rd shift of Sundays and Holidays is cancelled by 2 p.m on the previous working day.

2. (a) For hoisting cargo into or from boats or transferring of cargo from one boat to another on a Sunday or any day declared by the Trustees as a public holiday and in the Second and third shifts of work of any other day on account of parties other than Steamer agents, a charge of Rs. 20.00 per crane per hour is levied whether the crane works or not, from the time it is booked upto the time of completing the work or of cancelling the crane or 6.30 a.m. whichever is earliest.
- (b) For any work done outside the normal working hours by a crane vessel and for any work so done on a Sunday or any day declared by the Trustees as a public holiday, an extra charge of Rs.102.00 per hour is levied.
3. (1) Idle-time charges as detailed below are levied in respect of Port Trustees' labour, supplied *against requisition of cranes or derricks for vessels' work but not fully and properly utilised :-*
 - (a) due to not-working a crane or derrick throughout the shift for which booked. Rs.10 40P. per mazdoor per shift.
 - (b) on account of the breakdown of ship's winches, rigging of ship's derricks, shifting of cranes at request, cargo not ready for shipment or discharge, late arrival of vessel at berth, completion of loading or discharge by a particular hook before the closure of the shift or for any other reason which is attributable to the vessel and is beyond the control of the said labour.
 - Rs. 1.30 per mazdoor per hour in case of 8 hours' shifts.
 - Rs. 1.50 per mazdoor per hour in case of 7 hours' shifts.
 - Rs. 1.60 per mazdoor per hour in case of 6-1/2 hours' shifts.

(2) Idle-time shall be calculated as follows :—

Any continuous stoppage of 15 minutes or less is to be ignored. Any continuous stoppage of more than 15 minutes and upto 30 minutes shall be counted as 30 minutes but when there are more than one such period of continuous stoppage of over 15 minutes, the actual periods of such stoppage in a particular shift will be added together at the end and rounded off to the nearest quarter of an hour

(3) In case of any difference of opinion on the period of 'idle-time' the decision of the Traffic Manager shall be final and binding.

Where in the world is a new source for quality containers?

In Cochin, India where Balmer Lawrie commissions new plant

Here's good news for container buyers ! Balmer Lawrie's new container manufacturing unit at Cochin has gone into stream and offers these BIG advantages.

- ★ Incorporates the most modern machines and is designed to exclusively

manufacture quality containers.

- ★ Is backed by Technical expertise and know-how of York Trailer Co. Ltd., U.K.
- ★ Uses the latest technology for anti-corrosive treatment and high gloss stoved finish.
- ★ Is geared to manufacture

containers in sizes ranging from 20 ft. to 40 ft. to ISO standards.

- ★ Can also supply 20 ft. Containers with 24-T load capacity.
- ★ Certified by Lloyds, Bureau Veritas and American Bureau of Shipping.

**YORK
Balmer**

STRONG, STURDY AND SAFE.

WHEN YOU NEED CONTAINERS PLEASE CONTACT :

Balmer Lawrie & Co., Ltd.

COCHIN - PORT FACILITIES

While Cochin Port is progressing far ahead of other major ports in India as far as containerised traffic is concerned, it has also developed modern standards in port operation by way of general facilities expected in any modern port.

BERTHING

Berthing facilities including deep water wharves, jetties, and stream moorings are provided on the two deep shipping channels on either side of Willingdon Island, on which the port is located.

WHARVES

There are two major wharves on the East and West side of Willingdon Island, known as the Ernakulam Wharf and Mattancherry Wharf.

MATTANCHERRY WHARF

This, the first wharf of the Port, was constructed immediately after the II World War. It has an effective length of 609.60 Metres with four shedded berths (Quay 1 to Quay 4), of about 152.40 Metres each. The Maximum draft at these berths is 9.14 Metres.

ERNAKULAM WHARF

This, the eastern wharf, in the Ernakulam Channel was commissioned during the 3rd Plan period and has four shedded berths (Quay 5 to Quay 8) having an effective length of 609.60 Metres. Later, an open berth, Quay 9 with a length of 244.00 Metres has been added to the Wharf. The maximum draft at these berths is 9.14 Metres.

BOAT TRAIN PIER

In addition to the two wharves is the Boat Train Pier, used generally by vessels loading cashew shell liquid and reefer cargo, intermittently.

Hydrochloric acid also is handled at this pier, the length of which is 182.88 Metres with draft of about 9.14 Metres.

COAL BERTHS

Two coal berths, the North and the South Coal Berths of length 182.88 Metres and 192.02 Metres respectively have been provided with draft of 8.5 Metres.

The South Coal Berth has now been remodelled as combination berth for handling reefer cargo and bulk liquid ammonia. The storage tank system for bulk liquid ammonia is located near this berth.

TANKER BERTHS

There are two tanker berths in the Ernakulam Channel connecting directly to the mainland, the North and the South Tanker Berth.

The North Tanker Berth accommodates vessels upto 213.36 Metres in length and of size 30,000 DWT.

The South Tanker Berth can accommodate 198 Metres long vessels, light loaded to 18,000 DWT. A draft of 9.14 Metres is always maintained at the Tanker berths which have facilities for direct pumping from ships to the shore where the installations lead on to the delivery point far inland namely, the Cochin Refineries Ltd.

STREAM MOORINGS

There are 11 stream moorings in the Mattancherry channel where ships with length ranging from 60.96 Metres to 172.21 Metres can be moored. The draft maintained ranges from 4.57 to 9.14 Metres.

In addition, there are one low water wharf in the Mattancherry channel and a shallow draft wharf at Fort Cochin which are primarily meant for fighters and sailing vessels.

CARGO HANDLING

The Port has provided 28 electrically operated wharf cranes of capacity 1.5 tonnes to 10 tonnes for cargo handling operations, 12 at Mattancherry Wharf and 16 (out of which 4 are fitted with grabs) at the Ernakulam Wharf. 10 mobile cranes of capacities ranging from 4.5 tonnes to 15 tonnes (32 tonnes block), one 120 tonne floating crane for heavy lifts and 42 fork-lift trucks of capacity 1.8 tonnes to 3 tonnes are also available for cargo handling. Besides these, 5 tractors and 11 trailers (3 tonnes to 5 tonnes capacity) have been provided for hauling the cargo.

STORAGE AND OTHER GENERAL FACILITIES

Adequate storage facilities have been provided at the Port in the form of warehouses, overflow sheds and transit sheds at the wharf berths. Sheds are separately available for storing hazardous cargo also. The total area available per day is 38,244 sq. Metres at Mattancherry Wharf, 29,300 sq. metres at Ernakulam Wharf and 1,864 sq. metres at Fort Cochin Wharf. Besides these, there are 12 tanks of 1340 tonnes capacity for storage of cashew shell liquid and 2 tanks of 320 tonnes capacity for storage of hydrochloric acid near the Boat Train Pier.

DOMESTIC TRANSPORTATION FACILITIES PORT RAILWAY

All the alongside berths excepting the tanker jetties and Fort Cochin Wharf are provided with railway tracks. Though owned by the Port Trust, the Port Railway of 6 Km. route length is operated by the Southern Railway under an agreement. It is connected with the broad gauge system of Southern Railway linking with Mangalore, Bangalore, Coonoor and Madras in the North and North East of the Port and with Quilon and Trivandrum in the South.

ROAD, WATERWAYS AND AIRWAYS

The Port has an extensive network of internal roads covering a total length of 20 Kms, of which 18 Km is black-topped. This planned system of roads joins the National Highway (N. H. 47) passing through Willingdon Island facilitating quick transport of goods by road between the Port and the different centres of the hinterland.

The Port is also adequately served by a network of inland waterways connecting the Port with distant hinterland points through the backwaters.

The aerodrome at Cochin is situated 5 Kms, away from the Port's main offices. There are daily flights direct to Bombay, Madras, Bangalore, Trivandrum, etc.

WATER SUPPLY AND BUNKERING FACILITIES

Adequate facilities for supply of fresh water to ships exist at the Port. While ships at the wharf and jetties receive water from the shore hydrants at the alongside berths, vessels in stream moorings receive supply by water barges. Facilities for bunkering have also been provided at the Port. While furnace oil is supplied to ships at jetties and wharf berths through shore pipelines, other fuel like light diesel, high speed diesel, etc. are supplied with the help of large oil barges. However, bunkering of ships in stream moorings is done solely with the help of barges.

MODERN CARGO HANDLING TECHNIQUES

Cochin has been one of the premier Ports of India which readily absorbed the technological innovations in cargo handling techniques the world over. Among the methods of unitisation, which helped in a large measure to simplify cargo handling processes and reduce the cost of handling and transportation resulting in quicker turnaround of ships, preslinging and palletisation were introduced in the earlier stages as modern cargo handling methods adopted by the Port. Response from trade to the adoption of these methods has also been quite encouraging. Cochin was one of the first Ports in India to provide necessary facilities for this method of cargo handling. A new era in the development of cargo handling techniques at the Port was ushered in when the first container vessel President Tyler called at the Port on the 27th November 1973.

PORT FACILITIES AT A GLANCE

No. of wharves	: 2
Length	: 609.60 metres each
No. of alongside shedded berths	: 8
Draft	: 9.14 metres
Open Berth	: 1
Length	: 244 metres
Draft	: 9.14 metres
Coal Berths	: 2
Length : North Coal Berth	: 182.88 metres
South Coal Berth	: 192.02 metres
Boat Train Pier	: 1
Length	: 182.88 metres
Draft	: 9.14 metres
Tanker Berths	: 2
North Tanker Berth	: Accommodates ships upto 213.36 metres in length and of size 30,000 DWT
South Tanker Berth	: Accommodates 198 metres long vessels light loaded to 18,000 DWT
Draft	: 9.14 metres
No. of stream moorings	: 11 (in Mattancherry Channel) ranges from 4.57 to 9.14 metres
Draft	: Ships of length 60.96 metres to 172.21 metres can be accommodated.
Low Wharf and Shallow wharf	: At Mattancherry channel and Fort Cochin meant for lighters and sailing vessels.
SMALL DRY DOCK OF SIZE :	:
Length : 67.77 Metres	
Width : 15.44 Metres	
Sill Level : 3.54 Metres	

II. HANDLING FACILITIES

Electrically operated wharf cranes	: 28 (Four fitted with grabs)
Capacity	: 1.5 tonnes to 10 tonnes
Mobile cranes	: 8
Capacity	: 10 tonnes to 32 tonnes
Floating crane	: 1
Capacity	: 120 tonnes
Fork lift trucks	: 50
Capacity	: 2 to 3 tonnes
Tractors	: 6
Trailors	: 30
Capacity	: 3 to 40 tonnes Haulage

III. STORAGE FACILITIES

Total shedded area available at Mattancherry wharf:	: 38244 sq. metres
At Ernakulam wharf	: 29300 sq. metres
At Fort Cochin wharf	: 1864 sq. metres

Twelve tanks of 1340 tonnes capacity for storage of cashew shell liquid and two tanks of 320 tonnes capacity for storage of hydrochloric acid.

IV TRANSPORT

PORT RAILWAY :

All alongside berths provided with railway tracks.

Route length of Port Railway : 6 Kms

Links the entire country through the system of broad gauge. .

Roadways :

Internal roads of the Port-length : 29 Kms

Links up with the National Highway.

Waterways :

A vast network of inland waterways stretches from the shipping channels for hundreds of kms North and South.

Airport :

Right on the Willingdon Island where the Port is located is the Cochin Airport, with links to all major centres in the country.

THE CONTAINER CONCEPT

This is one of the most modern systems, efficient and economic for cargo transport, adopted by modern ports the world over. The Government of India, alive to this modern trend, appointed a working Group on Containerisation in 1969 to study prospects of containerisation at Indian Ports and the salient questions viz. availability of sufficient containerisable cargo the economics of introducing containerisation, facilities existing at Indian Ports and the feasibility of converting existing facilities to receive container ships.

BENEFITS OF CONTAINERISATION

The full benefits of containerisation can be obtained only if containers are moved from door to door, in the countries of their origin and destination. The basic advantages of containerisation are (i) reduction of turnaround time of ships through high cargo handling rates resulting in high throughputs over berths (ii) increase in total quantity of cargo which can be carried per ship per annum facilitating associated economies of scale (iii) simplified packaging, lower pilferage and breakage risks, and (iv) lower handling charges per tonne, etc. Containerisation facilitates through transport of the Cargo in that a single transport operator takes complete control of the Cargo throughout the whole journey from its inland origin through the sea voyage to its final inland destination.

COCHIN PORT ON THE CONTAINER MAP

The findings of the Committee. submitted in 1971, revealed that the Ports of Bombay, Calcutta and Cochin, have enough traffic composition and potentialities for introducing containerisation. The Committee estimated that the volume of containerisable cargo passing through Cochin, by 1985-86 would be of the order of 6.02 lakhs tonnes consisting of 4.06 lakhs tonnes exports and 1.96 lakhs tonnes imports, and recommended facilities to be provided to handle container ships of 9.12 metres draft at one of the existing berths at Cochin.

THE BEGINNING OF THE CONTAINER ERA AT COCHIN

At Cochin, container traffic commenced regularly with U.S. Ports in November 1973, as a feeder service, with two sailings every month by vessels of American President Lines. Their Mariner Class ships started calling at this port regularly from October 1975.

In addition, conventional general cargo vessels belonging to other lines such as the American Mail Lines, American Export Lines, Concordia Lines, Hoegh Lines, Hellenic Lines etc. have also been calling at Cochin Port with limited number of containers on their decks or in the square hatches.

20 ft. as well as 40 ft. containers are used in the container traffic through Cochin Port.

PORT FACILITIES FOR CONTAINER TRAFFIC

BERTHING

Q5 berth in the Ernakulam Wharf has been provided with facilities to handle container vessels. This is done as an interim measure, pending conversion of Q9 berth of the Port into a full fledged container berth, work on which is now going on. Q5, the temporary container berth, has an effective length of 152.40 metres and provides a draft of 9.14 metres. This berth has a backup area of 1404 sq. metres, specially hard surfaced for container handling. The berth and the backup area are floodlit to facilitate night operations too.

CARGO HANDLING AND STORAGE

Transit shed accommodation has been provided at this berth for storage of import and export cargo. The berth is also fitted with 3 electrically operated wharf cranes, in addition to mobile cranes, fork lift trucks and tractor trailers which have ample parking facilities.

DOMESTIC TRANSPORTATION LINKS

Rail and road connections are available from this berth which help direct movement of wagons and trucks from berth to the distant points in the hinterland.

And most of the offices of the Steamer Agents in the Port are located in the vicinity of Ernakulam Wharf. A Customs unit is stationed at the wharf for speedy examination and clearance of import/export cargo. The Export Documentation Centre, where all the formalities relating to export can be completed under one roof at considerable saving of time has been established to help the customers in getting the documents speedily cleared without having to run about to various offices situated at distant points from each other.

FEEDING THE CONTAINERS

In the absence of infrastructural facilities for transportation of loaded containers which are too heavy to be transported by rail and road to inland terminal points, and vice versa, stuffing and unstuffing of containers are now being carried out in the wharf premises without having to move the containers out of the port area. Adequate facilities are provided for carrying out these operations in the transit shed adjacent to Q5 berth.

CONTAINERISING EXPORT CARGO

Export cargo to be shipped in containers are received and stacked in the Q5 shed and after customs clearance, are stuffed into containers by bringing the container, mounted on trailer chassis, right up to the shed platform and stuffing of cargo is either done in palletised units or in break bulk form. Adequate shore gangs and stevedore gangs are employed one for delivery of the cargo at the door of the container and the other for stuffing it.

UNSTUFFING CONTAINERS

Import cargo, discharged in containers from vessels, are brought to the shed platform by trailer chassis and unstuffing is done by stevedore labour and stacking inside shed by shore labour. And customs clearance is carried out in the shed itself

For both stuffing and unstuffing operations, there are sufficient number of fork lifts to facilitate all stages of work in removal and reception of outgoing and incoming cargo.

LOADING AND DISCHARGE OF CONTAINERS

Containers stuffed with export cargo are taken alongside the vessel by the trailer chassis and lifted straight from the chassis on the ship with the help of cranes/derricks of the Vessel.

The process is reversed when it is import cargo containers. The containers are lifted from the vessel on to the chassis waiting alongside and taken to wharf shed, for unstuffing and later for onward despatch of cargo either by road or rail.

Apart from ships derricks or gantry cranes, wharf cranes are there to unload empty containers from ships, when needed.

The Steamer lines themselves are now supplying trailer chassis used for the operations.

Yet another method is employed by which export cargo is lifted in break bulk form from shore using cranes of the Port and placed on board the vessels for stuffing the containers on board. This is adopted when trailer chassis are not available or when there is a shortage of empty containers on shore.

REEFER CARGO

Cochin Port which handles the largest share of the country's marine exports has started handling of such reefer cargo in containers. This perishable commodity is best suited for containerisation and special reefer containers are utilised for this purpose.

The Port has provided, at the Wharf itself, 15 plug outlets for power supply to reefer containers. at Q9 berth, Cochin is the first port in India to provide this facility and this is only a preliminary step towards making Q9 a specialised container berth. Reefer cargo brought to the wharf in refrigerated vans are stuffed straightaway in reefer tainers at the wharf itself after customs clearance. The trailers with loaded containers are towed to Q9 berth where they are kept plugged to the power points till the container vessel arrives, when they are towed back to Q5 berth and loaded on to the ship.

CONTAINER DEPOT

Peirce Leslie India Limited as agents for Container Transport International Inc. (CTI), and Integrated Container Service (ICS) New York, opened a Container Depot at Cochin in June 1975.

PORT RATES FOR CONTAINERS

Quay dues for handling containers at alongside berths and stream dues for handling containers in stream are charged by the Port at the following rates—

	Quay dues Rs.	Stream dues Rs.
For handling containers and empty containers regardless of weight (for each)	26-00	19-50

Cargo inside the containers will be charged according to the quay or stream dues applicable to cargo.

Open space for storage of containers and container chassis is let out at the rate of Rs. 21-00 per 10 sq metre or less per calendar month or part thereof

PLANNING AHEAD

The Port has drawn up a detailed scheme for equipping Q9 berth with all modern facilities for handling container traffic.

The Q9 berth has a total length of 244 metres and provides for a draft of 9.14 m. The scheme which is to be implemented in two stages is as follows :

STAGE I

- a) A marshalling yard in the back-up area behind the berthing line to stock containers (to park containers), with hard surfacing so as to take on heavily loaded trailers and tractors.
- b) A container freight station to stuff and unstuff containers near the berth and outside the container marshalling yard.
- c) Adequate road and rail facilities for movement of cargo.
- d) Adequate lighting for the entire berth as well as provision of sufficient power plug points for reefer containers.
- e) Adequate Port equipment like tractors and trailers for transport of containers.

Stage one programme has already been taken up and works are well under way

The lighting level at the Container Yard, will be maintained at 20 lux as per international lighting standards by using special types of flood light luminaires fitted with HPMV Lamps.

Cochin will be the first port in India to provide such lighting facility conforming to international standards.

For more efficient handling of the heavy containers from and to the vessel, and at the container yard, the port has a proposal to import two diesel/electric, pneumatic-tyred mobile cranes of 30/35 tonnes capacity.

STAGE II

The Stage II programme includes provision of more sophisticated facilities for handling containers, such as portainer crane on the quay side and a transtainer crane for the marshalling yard. This facility will be provided later, after an assessment of the growth of container traffic.

CONTAINER TRAFFIC IN THE PORT

Now, a variety of cargo is shipped in containers through the Port. These include tea, pepper, cashew kernels, ginger, cardamom, coffee, seafoods, coir products, textiles, chemicals, wire ropes, iron and steel, etc.

Imports, however, do not balance the exports. The main items imported in containers are wheat, vegetable oil, machinery etc.

PROSPECTS

The Potential for growth of container traffic through the Port is very rich, as a bulk of the Cargo shipped through the port is amenable to containerisation. The shipping and trade circles are alive to this and to the advantages of containerisation. Thus this method of unitisation is expected to make rapid head way.

DOMESTIC TRANSPORT

The facilities now proposed only take into account the needs of the Port. But, in the not too distant future, it would be possible to move containers directly between the Port and destination, or origin points, of import and export of the port.

This process would be speeded up once the container traffic at the port stabilises. The facilities needed for inland transportation of containers are expected to be gradually developed along with provision of inland terminal depots and streamlined system of customs examination, documentation, etc.

The Indian Railways have already developed a system of transport of containers of the ISO standard. Trial runs of containers, mounted on flat bogie trucks, from Cochin to the hinterland have already been conducted successfully by the Railways. And very soon, a system would evolve by which containers from terminal to terminal by sea, road, rail and inland waterways are transported.

With the completion of the facilities now under way, Cochin would be one of the leading container terminals in South East Asia.

Commoditywise Container Traffic Handled At Cochin Port

Commodities	(Tonnes)

PORT DUES CHARGES - COCHIN RENT

Schedule of Godown Rent on Import Goods

Item No.	Classification		How Charged	Rate
				Rs.
(i) (a)	Goods left lying in the godowns or in open space and on which Stream dues are fixed on weight	per tonne per day	1st week 2nd week Succeeding period	2.40 5.40 9.00
(b)	Goods left lying in the godown or in open space and on which stream dues are fixed on measurement	per cubic metre per day	1st week 2nd week Succeeding period	2.40 4.20 5.40
(c)	Liquids left lying in godowns or in open space and on which stream dues are fixed on liquid measure	per 1000 litres	1st week 2nd week Succeeding period	3.00 5.40 9.00
NOTE: For determining the rates on fractions, the same methods as for calculating Quay dues and Stream dues will be adopted				
(d)	Goods left lying in the godowns or in open space on which the rate of stream dues is fixed per; each/per package/per number	per each package number per week or part of a week	1st week 2nd week Succeeding week	120% of the stream dues 200% of the stream dues 300% of the stream dues
(ii)	Sweepings collected on board			Godown rent as applicable according to above classifications
(iii)	Goods from unknown vessels			Godown rent as applicable according to above classifications upto a maximum of two months only
(iv)	Salved goods			Godown rent as applicable according to above classifications
(v)	Overcarried cargo			Godown rent will be charged at the applicable to the original consignment
(vi)	Packages which have been landed empty or partly empty			Godown rent as applicable according to the above classifications

Item No.	Classification	How Charged	Rate
			Rs.
(vii)	Uncleared goods left lying in the Transit Sheds open transit space for over four months pending disposal either by clearance or sale		Godown rent as applicable according to the above classification upto and including the date of clearance or the date of sale

SCHEDULE OF GODOWN RENT ON EXPORT GOODS

Item No.	Classification	How Charged	Rate
			Rs.
(i) (a)	General Cargo	per tonne per day	1st week 1.20 2nd week 2.40 Succeeding period 4.20
(b)	General Cargo	per cubic metre per day	1st week 1.20 2nd week 2.10 Succeeding period 3.90
(c)	Goods on which the rate of stream dues is fixed 'per each	per package per week or part of a week	1st week 120% of the Stream dues 2nd week 200% of the Stream dues For each succeeding week 300% of the Stream dues
(ii)	Salved goods	Same as under (i) above	
(iii)	Shut-out cargo	Same as under (i) above	

SCHEDULE OF GODOWN RENT ON TRANSHIP GOODS

Item No.	Classification	Rate
(i)	Goods originally manifested at the Port of shipment for transhipment at Cochin	As per items (i) to (iii) of Schedule B. dealing with Godown Rent on Export Goods
(ii)	Goods not originally manifested for transhipment at Cochin but meant for other Ports, landed at this Port but reshipped later, provided the prior written permission of the Port's Traffic Manager for re-shipment of goods is obtained before landing the said goods	

**OVERTIME FEES PAYABLE BY VESSELS WORKING AT THE WILLINGDON ISLAND WHARVES
AND THE OIL TANKER BERTH JETTY IN ERNAKULAM CHANNEL**

Item No.	Period and Description of work	Charges leviable
(i)	Work during recess hours by day including Sundays and holidays.	Rs. 22/- per hour or part thereof for staging porthole or hook (crane, derrick)
(ii)	Night work including work done during recess hours by night	
(iii)	Work on Sundays and holidays : For work on Sundays and holidays i.e., from 8 a.m. to 5 p.m. with one hour interval between 12 noon and 1 p.m. or from 6 p.m. to 3 a.m. with one hour interval between 10 p.m. and 11 p.m.	
		Rs. 330/- per vessel
(iv)	Additional charges for working a special shift between 3 a.m. and 8 a.m. at the Willingdon Island Wharves for discharging bulk wheat	Rs. 36/- per hour or part thereof for staging porthole or hook (crane, derrick)

OVERTIME FEES FOR DELIVERY OF IMPORT CARGO FROM OR ADMISSION OF EXPORT CARGO INTO THE WHARF PREMISES ON WILLINGDON ISLAND ON SUNDAYS, HOLIDAYS AND OUT OF WORKING HOURS ON WORKING DAYS

Item No	Description of works	Charges leviable
1.	For overtime work done out of working hours on working days	Rs. 30/- per hour or part thereof per point subject to a minimum of Rs. 60/- from each applicant for work at each berth
2.	For overtime work on Sundays and holidays	Rs. 60/- per hour or part thereof per point subject to a minimum of Rs. 120/- from each applicant for work at each berth

OVERTIME FEES FOR EMPLOYEES OF THE PORT

Fees for the services of the employees of the Port of Cochin performed out of office hours or during the holidays (hereinafter referred to as overtime work) shall be charged at the rate given below

Grade of employee	Fees chargeable for work performed Between 6 a.m. & 6 p.m. Between 6 p.m. & 6 a.m.

Charges for the hire of Port's Tugs :

Hire charges of tugs used for berthing, unberthing or shifting of vessels.

- (a) Vessels other than Oil Tankers.

	Rs.	
(i) For Vessels below 1500 NRT	300.00	per tug per operation
(ii) For vessels of 1500 NRT and above but below 3000 NRT	600.00	Do.
(iii) For vessels of 3000 NRT and above but below 5000 NRT	800.00	Do.
(iv) For vessels of 5000 NRT and above but below 10000 NRT	1000.00	Do.
(v) For vessels of 10000 NRT and above	1500.00	Do.
(b) Oil Tankers	2500.00	Do.

Note :- Hire charges of tugs used for berthing or unberthing of a vessel, for whose convenience an adjacent berth/berths is/are kept vacant due to the nature of cargo handled at that particular berth, or for any other reason additional tug hire at the rate applicable to the particular vessel shall be charged for each of the so kept vacant berth.

BERTH HIRE

1. A. Steamers (Other than Oil Tankers)

(i) Occupying a Wharf berth or a stream berth

	Rs	
(a) Vessels of less than 300' in length (91.44 metres)	300.00	per day or part thereof
(b) Vessels of 300' and above but less than 450' and (137.16 metres)	600.00	Do.
(c) Vessels of 450' and above but less than 550' (167.64 metres)	900.00	Do
(d) Vessels of 550' and above but less than 650' (198.12 metres.	1750.00	Do.
(e) Vessels of 650' and above	3,000.00	Do.

Note :- The length of the vessel means 'length overall'.

(ii) Anchoring with their own gear anywhere in the dredged area and deep water channels navigated by sea-going vessels	20.00	Per vessel per day or part of a day subject to minimum of Rs. 50 per vessel.
--	-------	--

B. OIL TANKERS :

In respect of Oil Tankers berth hire at 150% of the rates specified in A above will be levied.

II. SAILING VESSELS :

	Rs.	
(i) Occupying a Wharf Berth or a stream berth	100.00	Per vessel per day or part of a day
(ii) Occupying a low wharf berth or jetty of Willingdon Island	50.00	do.
(iii) Anchoring with their own gear, any where in the dredged area and deep water channels navigated by sea-going vessels	15.00	Per vessel per day or part of a day subject to a minimum of Rs. 50.00 per vessel.

Notes:- 1 A day shall be reckoned as 24 hours from the time of mooring in a berth or anchoring is completed.

2. (a) A steamer shifting from a stream berth to a wharf berth or vice-versa shall be liable to pay the fees chargeable for the original berth calculated for the entire period the vessel is in Port.
- (b) A sailing vessel shifting from a low wharf berth to a stream or wharf berth or vice-versa shall be liable to pay the fees chargeable for the stream or wharf berth as the case may be for the day of shifting.

3. The vessel for whose convenience adjacent berth/berths is/are kept vacant due to the nature of cargo to be handled at that particular berth or any other reason shall be charged additional berth hire for each of the so kept vacant berths at the rates applicable to the particular vessel.

SHIFTING AND RE-MOORING OF VESSELS

	Rs.	
(a) For shifting a steamer to another berth	400.00	Per vessel upto 2999 NRT
	800.00	Per vessel of 3000 and above but below 5000 NRT
	1,200.00	Per vessel of 5000 and above but below 10000 NRT
	1,500.00	Per vessel of 10000 NRT and above

N.B.— Double the rate shall be levied if the work is performed during the hours between 6 p.m. and 6 a.m. The rates exclude hire charges of tugs, launches and similar things.

	Rs.	
(b) For re-moorings a steamer	100.00	Per steamer
(c) For utilising the services of a sailing vessel's pilot for shifting a sailing vessel in the inner Harbour.	100.00	Per sailing vessel

NOTES :— 1. When a moored steamer is shifted for the convenience of the Port, no shifting or re-moorings fees or tug hire shall be charged. When a moored steamer is shifted and re-moored for its own convenience or for the convenience of another steamer, the steamer for whose convenience the shifting takes place shall pay the shifting and re-moorings fees and tug hire.

2. These charges are in addition to "berth hire" specified in item I and II above.

3. (a) Sailing vessels will be allowed to be shifted in the inner harbour only under tow which should be arranged by the owners at their cost, and with the prior written permission of the Deputy Conservator.

(b) Sailing vessels of 200 tons (net) and above must have a sailing vessel's pilot on board while shifting in the inner harbour, for which the fees prescribed in item III (c) above is payable to the Port.

(c) If sailing vessels of less than 200 tons (net) require the services of a sailing vessel's pilot for shifting in the inner harbour, the same may be provided on payment of the fee prescribed in item III (c) above.

I A. Fees for the supply and use of cranes at the Wha

I CRANAGE CHARGES AGAINST IMPORTERS OR SHIPPERS :

1. On Cargo not paying quay dues

	Rs.	
(a) For lifts below 1 metric tonne equivalent to 1000 kgs. each	3.00	Per tonne or part thereof per hoist.
(b) For lifts of 1 metric tonne and above but below 10 tonnes each.	15.00	Per tonne or part thereof per hoist.
(c) For lifts of 10 tonnes and above but not exceeding the rated capacity of the cranes.	30.00	Per tonne or part thereof per hoist.

Provided that cranes charges will not be levied for the operation of landing or shipment if incurred by importers or shippers.

CRANAGE

II CHARGES AGAINST MASTERS, OWNERS OR AGENTS OF VESSELS FOR LOADING OR UNLOADING OF VESSELS BERTHED AT THE WHARF FRONTAGE.

	Rs.	
(a) Cranes of 3 tonnes capacity or under during day or night.	21.00	Per hour or part thereof per crane requisitioned by each applicant and supplied subject to a minimum charges of Rs. 80 per crane.
(b) Cranes of over 3 tonnes capacity during day or night.	38.00	Per hour or part thereof per crane requisitioned by each applicant and supplied subject to a minimum charge of Rs. 150 per crane.
II On Cargo not paying quay dues		
	Rs.	
(i) Cranes of 3 tons capacity or under during day or night.	45.00	Per crane per hour or part thereof.
(ii) Cranes of over 3 tons capacity during day or night.	90.00	Do.
III HIRE FOR OTHER PURPOSES :		
(a) Cranes of 3 tons capacity or under during day or night.	45 00	Per crane per hour or part thereof subject to a minimum charge of Rs. 180 per crane from each person requisitioning the cranes.
(b) Cranes of over 3 tons capacity during day or night.	105 00	Per crane for the first hour or part thereof and Rs. 55 for every subsequent hour or part thereof from each person requisitioning the cranes.

FEES FOR THE SUPPLY AND USE OF FORK LIFT TRUCKS AT THE WHARVES AND ON BOARD VESSELS

Home Trade Vessels		Foreign Trade Vessels
(i) For Fork Lift Trucks for use at the Wharf	Rs. 45.00 per hour or part thereof per Fork Lift Truck subject to a minimum charge of Rs. 70.00 per Fork Lift Truck	Rs. 75 00 per hour or Part thereof per Fork Lift Truck subject to a minimum charge of Rs. 120.00 per Fork Lift Truck.
(ii) For Fork Lift Trucks for use on board the vessels.	Rs. 60.00 per hour or part thereof per Fork Lift Truck, subject to a minimum charge of Rs. 90.00 per Fork Lift Truck.	Rs. 90 00 per hour or part thereof per Fork Lift Truck subject to a minimum charge of Rs. 120 00 per Fork Lift Truck.

A. CHARGES FOR THE SUPPLY AND USE OF THE FLOATING CRANE 'ST. GEORGE'

(a) For landing or shipping at the Wharves or of goods to or from the Wharves or in Stream :

- | | |
|---|--|
| 1. For Lifts not exceeding 10 tonnes | Rs. 13.00 per tonne or part thereof subject to a minimum of Rs. 130.00 |
| 2. For Lifts exceeding 10 tonnes but not exceeding 15 tonnes | Rs. 30.00 per tonne or part thereof subject to a minimum of Rs. 375.00 |
| 3. For lifts exceeding 15 tonnes but not exceeding 30 tonnes. | Rs. 40.00 per tonne or part thereof |

B. CHARGES FOR THE SUPPLY AND USE OF THE FLOATING CRANE 'PERIYAR'

(a) For landing or shipping at the wharves or of goods to or from vessels at the wharves or in stream :

- | | |
|---|--|
| (i) For lifts/not exceeding 15 tonnes | Rs. 23.00 per tonne or part thereof subject to a minimum of Rs. 375.00 |
| (ii) For lifts exceeding 15 tonnes but not exceeding 30 tonnes | Rs. 38.00 per tonne or part thereof |
| (iii) For lifts exceeding 30 tonnes but not exceeding 60 tonnes | Rs. 60.00 per tonne or part thereof |
| (iv) For lifts exceeding 60 tonnes | Rs. 90.00 per tonne or part thereof |

(b) For lifts temporarily landed and shipped or shifted during landing and shipping operations, the period use being reckoned from the time the crane is engaged till its release as recorded in the crane's log

Rs. 375.00 per hour or part thereof.

(c) For any operation within Port limits other than those under (a) and (b) above the period of hire being reckoned from the time the crane is made available till its release as recorded in the crane's log

Rs. 2600.00 per hour or part thereof

CHAPTER IV

A. SCHEDULE OF DEMURRAGE ON IMPORTS

Item No.	Classification	How charged	Rate Rs.
1	(a) Goods left lying in the Transit sheds or in the open transit space and on which quay dues are fixed on weight.	per tonne	1st week 2.40
		per day	2nd week 5.40
			Succeeding period 9.00
	(b) Goods left lying in the Transit sheds or in the open transit space and on which quay dues are fixed on measurement	per cubic	1st week 2.10
		metre per	2nd week 4.20
		day	Succeeding period 5.40

Item No	Classification		How Charged	Rate
				Rs.

FACILITIES AT PORT KANDLA

(I) BERTHING FACILITIES FOR DRY CARGO :

- (i) 5 alongside berth - Total quayage : 3825 Ft
Draft : 31Ft
- (ii) 5 Mooring berths :
 - 1) 3 General Cargo Mooring berth : For ships drawing draft between 22 ft to 26 ft.
 - 2) 1 Deep draft Mooring berth : For vessels drawing upto 36 ft.
 - 3) 1 Salt Mooring : For ships drawing upto 29 ft.
- (iii) 3 Wharves at the Bunder basin :
 - 1) South Wharf for loading and unloading lighters by quay cranes.
 - 2) North Wharf for loading and unloading sailing vessels.
 - 3) West Wharf for loading/unloading heavy lifts from lighters with 60 tonnes electric gantry crane.

(II) BERTHING FACILITIES FOR LIQUID CARGO :

- 1) 1 RCC Pier (Old jetty) : Permissible draft 30 ft.
- 2) 1 RCC Pier (New jetty) : Permissible draft 34 ft
- 3) Electric and Diesel Booster pumps for accelerating discharge rate of POL.
- 4) 3 Oil pipelines 12", 14" and 16" dia for pumping POL (16" pipe is for Black Oil).
- 5) 5 pipes of various dimensions for handling liquid chemicals viz. Phosphoric Acid, Edible Oil, etc.,

B. TUNA PORT :

Small minor Port 15 miles South of Kandla, being used for loading and unloading sailing vessels.

C. STORAGE FACILITIES :

- 1) 3 Single storeyed transit sheds at Cargo Jetty - 450 ft. x 140 ft. each, capacity 8000 tonnes uniform type of bagged cargo.
- 2) 3 Temporary Transit Sheds :
 - i) One North of Transit Shed No. 1 admeasuring 150 ft x 132 ft. Capacity 2000 Tonnes.
 - ii) One between No. 1 and 2 Transit Sheds admeasuring 200 ft. x 132 ft. Capacity 3000 tonnes.
 - iii) One between No. 2 and 3 Transit Shed admeasuring 200 ft. x 85 ft Capacity 1650 tonnes.
- 3) 4 double storeyed warehouses 500 ft. x 120 ft. each - Capacity 15000 Tonnes for uniform type of bagged cargo and equipped with four electric cargo lifts. 2 of 2 tons and 2 of 4 tons capacity. One of the warehouses is fitted with automatic water sprinkler arrangements with fire alarm system for storage of cotton and other combustible cargo.
- 4) Bonded Warehouse with storage capacity of about 1000 tonnes of cargo.
- 5) Open storage yards in transit area as well as in rental area, served with Railway lines Total open storage areas for rental purposes : 15, 56, 300 Square feet of this, 4, 41, 300 sq ft. is pucca built with asphalt surface.
- 6) A Warehouse of 5000 tonnes storage capacity is built by Central Warehousing corporation Ltd. within the Cargo Jetty area.

- 7) 2 Vegetable Oil tanks - total capacity - 400 tonnes.
- 8) Dangerous cargo sheds of 320 tonnes aggregate capacity (area 1800 sq. ft), and a Calcium Carbide shed of 48 tonnes capacity (area 350 sq. ft)
- 9) 2 Transit Sheds at Bunder basin admeasuring as under : -
South Wharf 200' x120' North Wharf 100' x60'.
Aggregate capacity - 3,000 tonnes.
- 10) Three sheds for the storage of Fertilizer having an area of 62409 sq. ft with aggregate capacity - 10000 tonnes.

D. TRANSPORT ARRANGEMENTS :

All transit sheds, warehouses and open yards are liberally served with Railway lines both by Broad-Guage and Metre Guage and Good Roads.

E. CARGO HANDLING EQUIPMENTS :

- i) 21 Electric level luffing quay cranes at cargo jetty berth 16 of 3 tonnes, 4 of 6 tonnes and one of 10 tonnes capacity.
- ii) 4 Electric level luffing quay cranes at south wharf of Bunder - 2 of 3 tonnes, 1 of 6 tonnes and 1 of 10 tonnes capacity.
- iii) One 60 tonnes gantry crane at West Wharf of Bunder Basin
- iv) One 2 tonnes crane at Fishing jetty.

v) Mobile equipment :

- 2 Mobile cranes of 6 tonnes capacity each.
- 2 Mobile cranes of 3 tonnes capacity each.
- 1 Mobile crane of 10 tonnes capacity.

vi) Fork lifts :

- 10 Numbers - Capacity 2-5/3 tonnes

vii) 3 Tractors and 4 Trailors

- viii) 3 specially fabricated trailors of 10 tonnes capacity each for transporting pipes.

x) Lighters :

- Steel Barges 6 Nos - Capacity 150 tonnes each

F. CARGO HANDLING EQUIPMENT UNDER PROCUREMENT :

- a) 2 Mobile Cranes each of 3 tonnes capacity.
- b) 1 Pay Loader - 3 tonnes capacity.
- c) 5 shore cranes - 4 of 3 tonnes capacity each and one of 6 tonnes
- d) 4 Chassis each of 35 tonnes capacity.
- e) 2 Toachers each of 40 tonnes capacity.
- f) 1 Mobile crane of 36 tonnes capacity.

G. WATER SUPPLY TO SHIPS :

- i) By shore points at all Cargo berths, RCC Piers & Bunder.
- ii) By barge 'TUSHAR' of 200 tonnes capacity

H. REGULAR LINER SERVICE :

A monthly regular liner service to U.K., Continental and U.S.A., ports each.

I. BUNKERING FACILITIES :

Oil Bunker to ships at Cargo Jetty berths supplied by Oil Companies through tank lorries

J. SPECIAL FACILITIES :

For Mechanical discharge of Fertiliser :

Marine Unloader at Berth No .V. to discharge bulk fertilizer and its Raw Materials. Rated capacity 500 tonnes per hour Fertilizer storage shed capacity 30000 tonnes and 16 automatic bagging and stitching machines each with the rated capacity of 24 tonnes per hour

K. FACILITIES FOR STORAGE OF EDIBLE OIL/CHEMICAL PROVIDED BY PRIVATE CONCERNS :

- 1) Two storage tanks at Old Port (Owned by M/s. D.T.C) for storage of liquid chemicals or Soyabean Oil - capacity 2500 tonnes each - Total capacity 5000 tonnes
- 2) 50 tanks with an aggregate capacity of 84200 tonnes owned by M/s. Chemicals & resins and other private importers
- 3) 2 tanks owned by M/s. Indian Molasses Co. for storage of Molasses at Cargo jetty area - capacity 16000 tonnes.
- 4) 3 tanks for storage of Phosphoric Acid - Owned by M/s IFFCO - capacity 30000 tonnes.

L. OTHER FACILITIES :

- i) Floating dry dock for repairing crafts upto 240 ft. Length
- ii) Cold storage for Fishing Industry provided by the Gujarat State at Bunder area-capacity 30 tonnes.
- iii) Fully equipped Workshop for attending to repairs to crafts.

M. WEIGHMENT FACILITIES :

2 Number 20 tonnes Lorry Weigh Bridge for weighment of cargo

N. SHIP REPAIRS/SHIP PROVISION FACILITIES :

Ship repairs, Supply of ship provisions etc., by licensed ship Chandlers and Firms.

O. NAVIGATION FACILITIES :

The Pilot Station of the Port is situated at Latitude 22° 55' .7" N. and Longitude 70° 07' 1" E about 14 miles (22 Kms). from the Signal Station at the Kandle Tower. Most upto-date navigational aids as detailed below are provided:

- a) An automatic tide gauge.
- b) Lighted channel buoys
- c) Shore Beacons
- d) Fast Pilot launches (14 Kms. speed).
- e) Survey launches fitted with echo sounders for shallow depth sounding.
- f) A Light House at Tekra
- g) V.H.F Communication at the Signal Station.
- h) Diving/Salvage gears.
- i) Heave-up barge for buoy work
- j) Tugs for attending Piloting

P. VADINAR PROJECT :

Single Buoy Mooring. to handle VLCC (Very Large Crude Carrier) to discharge Crude Oil through two submersible & Shore based pipe lines - Capacity 2000 tonnes each per hour.

Item	Unit	Rate
1	Per tank or part thereof	Rs. 2000 per month or part thereof

FEE FOR USE OF PORT'S TUGS :

“(1) If a tug is used for attendance on, or pulling or pushing of a vessel in the harbour for berthing, unberthing or shifting of the vessel to be piloted, a fee of Rs 2500/- per coastal vessel and a fee of Rs. 4000/- per foreign vessel per tug shall be levied in addition to the pilotage fees or shifting charges. No such special fees shall be levied when the tug is utilized for shifting of vessel to suit the convenience of the Port. “or when the tug is utilized for shifting of vessels loading or unloading upto 3,000 tonnes of cargo, not being liquid cargo in bulk.

(2) For attending a vessel underweigh in the approach channel (Kandla Bar Area) during pilotage (if such attendance is considered necessary by the Deputy conservator), fees of Rs. 1055/- for coastal vessel and Rs. 1665/- for foreign vessel per tug shall be levied for such attendance if the tug is used for pushing or pulling an additional fee of Rs. 525/- for coastal vessel and Rs. 825/- for foreign vessel shall be levied for a vessel under weigh.

(3) For owing a vessel in the pilotage limits of Kandla Port a charge of Rs. 3520/- for coastal vessel and Rs. 5540/- for foreign vessel per tug for a vessel under 3000 G R T and Rs. 4,500/- for coastal vessel and Rs. 7,000/- for foreign vessel per tug for a vessel of 3,000/- GRT and over but not exceeding 10000 G. R. T. and Rs. 6,000 for coastal vessel and Rs. 9,450/- for foreign vessel per tug for a vessel of over 10,000 G. R. T. shall be levied.

(4) For detention of a tug during berthing, unberthing or mooring, unmooring or shifting for more than half an hour owing to any reason except for reasons of stress of weather, desertion of crew or such other reasons beyond the control of the Master, a charge of Rs. 1055/- for coastal vessel and Rs. 1665/- for foreign vessel per hour or part thereof shall be levied in addition to the charges to be levied for the services rendered by the tug.

(5) If a tug is ordered to tow a vessel and if after having specially raised steam but before leaving her mooring for the above purpose is informed that her services are not required a charge of Rs. 1065/- for coastal vessel and Rs. 1665/- for foreign vessel shall be levied.

(6) If a tug is required to attend a vessel for purposes other than shifting, berthing or unberthing a fee* or part thereof per hour for attendance and Rs. 1580/- for coastal vessel and Rs. 2490/- for foreign vessel per hour or part thereof shall be levied.

Explanation :— For the purpose of subclause (6) of the time taken for attendance will be counted from the time the tug leaves her mooring to the time the tug returns to her mooring and for usage the actual time the tug was engaged in usages shall be taken.

(7) When a vessel is underweigh in approach channel and attended by a tug and tug is detained due to engine trouble of the vessel or vessel running around the fees for the tug shall be leviable under sub-clause (2) or sub-Clause (3), or sub-clause (6) which ever is more.

Fees for etc. Fees amounting to 50 percent of the pilotage fees enumerated in part I and III of the Schedule to this order shall be levied each time for shifting any vessel from one place to another inside Kandla Creek, but for the shifting of any vessel beyond entrance channel or vice versa it shall be treated as additional pilotage and full pilotages charges shall be levied :—

Provided that no shifting charges shall be levied on any vessel,

- (a) For the loading or unloading upto, 3,000 tonnes of cargo, not being liquid cargo in bulk;
- (b) When shifting of the vessel is necessitated to shift the convenience of the port.

8. FEES FOR SERVICES RENDERED AT OUTER TUNA BUOY, PILOT STATION :

Fees amount to full pilotage shall be levied for any services rendered by a Port's pilot to a vessel at Outer Tuna Buoy, Pilotage Station.
* of Rs. 1055/ for coastal Vessel and Rs. 1665/-for Foreign vessel

9. FEES FOR WORKING ON SUNDAYS OR PORT HOLIDAYS :—

Fees amounting to 50 per cent of the normal fees chargeable shall be levied in addition to the normal fees, for the Pilotage and use of port tugs on Sundays or Port Holidays

Provided that no such additional fees shall be charged from the vessels loading or unloading upto 3,000 tonnes of cargo, not being liquid cargo in bulk.

10. Fees for light pilotage - Fees amounting to 50 per cent of the normal fees chargeable during day shall be levied in addition to such normal fees, for the pilotage and use of port tugs during the night.

Provided that no such additional fees shall be charged from the vessels loading or unloading upto 3,000 tonnes of cargo, not being liquid cargo in bulk.

Explanation : For the purpose of this clause "night" means the period between 7.00 p.m. and 7.00 a.m.

SAILING VESSELS OTHER THAN MECHANICALLY PROPELLED VESSELS

Classification	Pilotage fees
(a) Sailing vessels of 150 tons GRT or less	Pilotage is not compulsory. If required by the Master of the vessel a Pilot may be utilised in which case pilotage fee of Rs. 175/- for coastal vessel and Rs. 275/- for foreign vessel shall be charged.
(b) Sailing vessels exceeding 150 tons GRT but below 300 Tons GRT.	Can be exempted from Pilotage if Deputy Conservator or Harbour Master or any other Officer authorised by the conservator of the Port certifies to that effect in any particular case. A fee of Rs. 105/- for coastal and Rs. 170/- for foreign vessel, shall be levied for exemption certificate each way. If required by the Master, a pilot may be utilised in which case a pilotage fee of Rs. 280/- for coastal vessel and Rs. 445/- for foreign vessel each way shall be charged. If a vessel enters or leaves the port without a pilot or a valid pilotage exemption certificate, a pilotage fee of Rs. 280/- for coastal vessel and Rs. 445/- for foreign vessel Each way shall be charged
(c) Sailing vessels of 300 tons GRT and over.	Rs. 425/- for coastal vessel and Rs. 665/- for foreign vessel.

	(d) Above 91 Kgs. and upto 102 Kgs.	Bags	76.25	100 Bags	Do.

1. BULK CARGOES :

The boat hire chargeable on all bulk cargoes shall be only on the quantum of weight arrived at by the ship's draft survey figures only, which is BILL OF LADING quantity.

2. WAITING CHARGES :

- (a) If a boat is made to wait for more than 36 hours at shore, waiting charges shall not be exceeding Rs. 80/- and Rs. 90/- for each boat below 50 tons and above 50 tons respectively for every 24 hours after the initial free period of 36 hours.
- (b) If a boat is made to wait for more than 36 hours alongside the ship, waiting charges shall not exceed Rs. 90/- and Rs. 100/- for each boat below 50 tons and above 50 tons respectively for every 24 hours after the initial free period of 36 hours.
- (c) If a boat is loaded and unloaded within 36 hours one trip has got to be paid and if it is detained beyond the above 36 hours, one more trip has got to be paid if it does not exceed 24 hours. In case the boat is kept loaded ashore for 36 hours beyond the above period, one more trip has to be paid. The above provision shall be applied only if the ship does not arrive or if the cargo is held back for storage difficulties etc. These detention charges shall not apply in case of bad weather when waiting charges as per item (a) and (b) above shall apply.

3. CANCELLATION CHARGES :

If a boat is called for and not engaged a sum not exceeding Rs. 50/- shall be paid as cancellation charges.

4. SHUT OUT CARGO :

Shall be paid at the same rate as the cargo taken to the Ship on the quantity returned at prorata i.e., exactly the quantity returned ashore.

5. DIVERSION CHARGES :

If a loaded boat is diverted from one ship to another ship in roads, two trips shall be paid.

6. RETURN TRIPS :

If a boat returns to shore with cargo, due to bad weather, only one trip will have to be paid and if the same boat goes to ship again for tendering the same cargo, another trip will have to be paid. The Tindal will have to lodge a protest with the Port Officer, Machilipatnam and produce the same to the ship-pers in case such return trips are claimed. No such return trips will be paid if the loaded boat returns back to shore before crossing the entrance channel.

7. TARPAULIN HIRE :

A sum not exceeding Rs. 7/- per tarpaulin, carrying and procuring expenses are to boat owners' account.

8. PLACEMENT OF BOATS :

Only cleaned boats shall be allotted for loading general cargo.

9. ACKNOWLEDGEMENT OF CARGO :

Export and import cargo shall be acknowledged by the boat tindals in the respective boat notes.

10. THEFTS, PILFERAGE AND SHORTAGE :

The boat owners shall be liable for proved thefts, pilferages and shortages.

11. LIABILITY FOR DAMAGE TO CARGO DUE TO NEGLIGENCE OF THE CARRIER :

If the cargo is damaged wilfully or through the negligence of the boat owner or of his crew it is the sole responsibility of the boat owner to make good such losses to the owner of the cargo. It is the bounden duty of the boat owner and the tindal and his crew to see that the accumulated water in the boat is pumped out prior to loading and during the transportation and alongside period of the boat, to clean the boat thoroughly before loading is commenced in his boat, to keep the boat in a leakproof condition, to provide adequate tarpaulins and cover the cargo properly to protect it from rain and splashing of sea water, stow the cargo securely and slinging the cargo correctly and tender the cargo with utmost care. It is also appropriate on part of the boat owner/his representative and the shipper/his representative to be present at the loading places during the loading operations to forestall any damages to cargo by seeing to the pumping out of accumulated water, boat in sound condition, provision of adequate good tarpaulins, seeing the cleanliness of the cargo, proper stowage with adequate lashing and attending to such other matters which would ensure safe carriage of cargo. For the above purpose, if the hirer is not satisfied with any or all the aspects mentioned above he should be in a position to get the above issues rectified through a Committee comprising of the Port Officer, Machilipatnam or his representative not below the cadre of a Gazetted Officer as Chairman and one representative of the boat owners and one representative from the Krishna District Chamber of Commerce as members and their decision should be final. The time lost for such rectification of defects should not be counted for levying the waiting charges.

12. In addition to the above conditions stipulated, from 1 to 7 above, the following conditions are stipulated for the use of Government Cargo boats owned by the Andhra Pradesh Port Departments.

- (1). 50% of the above boat hire rates fixed by the Government is payable by the hirer of the boat to the A. P. Port Department. Out of the above 50% payable to the A. P. Port Department,

- Rs. 15/- per trip shall be retained by the hirer for payment to the boat crew engaged by him for manning the above boats towards the crew food charges.
- (2) Application for the use of cargo boats should be presented at the Port Office, Machilipatnam (in duplicate) at least 24 hours before they are required.
- (3) The services of the Port cargo boats will be made available only at the discretion of the Port authorities.
- (4) The hirer is solely responsible for the conditions 8 to 11 above in respect of cargo boats owned by the Port Department and the words "Boat Owner" mentioned in conditions 10 and 11 are to be construed as "hirer"
- (5) (A) The hirer should indemnify the Government against all charges arising from accidents to men and boat while they are under his/their hire. Claims under workmen's compensation Act shall be payable by the hirer
- (B) The cargo boats shall be utilised with maximum care and should be handed over back to Port Department without any loss of equipment and without damages to the cargo boats. The Port authorities will fix up the responsibilities for the losses and damages taking into account the prevailing weather conditions etc. Whenever the cargo boat runs aground on the bar, the hirer shall take most immediate steps at his cost to refloat the boat to avoid damages. If the Port authorities notice any lapse on the part of the hirer in taking immediate steps, the hirer is liable to compensate the damages to the cargo boats.
- (6) **ADVANCE BOAT HIRE :**
- The hirer shall pay a sum of Rs. 500/- for each boat towards advance hire charges which shall be adjustable at the time of final settlement of hire charges after completion of the vessel.
- (7) **SURCHARGE :**
- The hirer shall pay an additional sum of Rs. 0.50 Ps. per ton as surcharge directly to the cargo boat serangs engaged by him towards compensation during the period when there is no shipping activity.
- (8) The hirer should load the cargo as per instructions of the Officers of the Port Departments or Serang-In-Charge of the cargo boat engaged by the hirer.
- (9) The hirer shall engage at his own cost one skilled Serang and adequate number of skilled kalasies (not less than eight) for manning the cargo boats and also to carryout loading and unloading of cargo alongside the Wharf and alongside the ship respectively. The hirer should also ensure that 50% of the boat hire is paid to the above crew towards their services. The hirer should also ensure that all payments due to the boat crew as specified above shall be paid promptly and final settlement of dues shall be made within 72 hours from the time of completion of each vessel.

The Sea Becomes the Land for us

Conti Asian operates shipping service as if the sea was the land for us.

Conti Asian ships are the fastest in operation making Antwerp, Rotterdam, Hamburg to Bombay in just three weeks, which is a record on this route.

Conti Asian operates without transshipment, therefore no delays and no damages.

Conti Asian operations are streamlined by computerisation, but still personal attention contributes to maximum efficiency.

Conti Asian helps developing nations to faster growth with secured, efficient and economic shipping service.

Set us in motion and see how we keep moving for you.

CP Rail is made up of many parts all moving in harmony to give you integrated service. Whether you have a simple shipment similar to thousands we move daily—or a

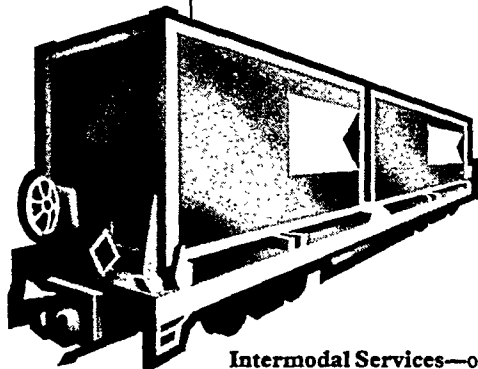

special problem requiring an imaginative new solution—look to CP Rail for the ways and means of moving your goods efficiently, and keeping your business on-the-go.

Marketing & Sales—providing personalized service. CP Rail representatives are both physical distribution consultants and transportation specialists. They work closely with our Market Development team to study a customer's transportation requirements.

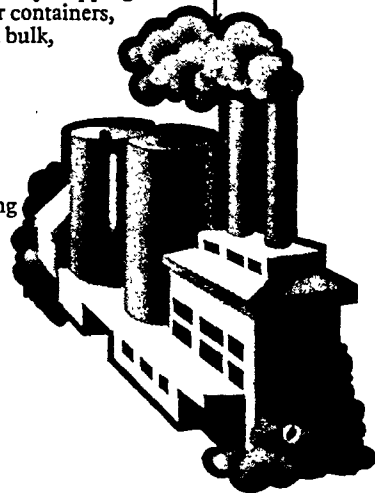

Overseas Trade—developing transportation packages for freight shipments, to and from North America and points around the world. Working with any shipping line, any port; completely equipped for containers, dimensional shipments, dry and liquid bulk, refrigerated and general cargo.

Intermodal Services—offering five basic plans for handling goods, plus variations if needed. Piggyback and containers combine the benefits of both rail and road. A network of terminals; modern handling equipment; coast-to-coast, door-to-door deliveries.

Industrial Development—recommending sites for new plants, finding industrial buildings, assembling information for location decisions, assisting with market studies, and helping industry grow.

MADRAS PORT

POSITION :

Latitude : 13° 06' N.

Longitude : 80° 18' E.

Major East Coast Port, on low sandy coast with shelving Beach. Artificial Harbour.

AUTHORITY :

Madras Port Trust, Rajaji Salai, Madras - 600 001,

Telephone Nos. 30161
29115 } (Round the dock)

Telax Nos. : 041 - 331

Telegraphic Code : PORTRUST MADRAS.

STD CODE : 044.

ACCOMMODATION

Harbour 83.04 Hectares Area enclosed by two break waters, 914.14 m. long

Entrance 121.92 m. wide protected by groyne 457.2 m long giving double shelter to vessels and harbour.

Depth in harbour entrance 12.19 m H.W. 10.97 m. L.W. centre of harbour dredge to 10.67 m.

EQUIPMENT FACILITY - CRANES

Berth No.	Facility for Loading /Discharging
North Quay 4	Two 5 ton and one 3 ton electric luffing crane.
West Quays 1 & 2	Six 3 ton and two 5 ton electric travelling portal luffing jib cranes of 60 ft. maximum radius.
West Quays 3 & 4	Nine Electric Level Luffing Cranes (Eight 3 ton, One 5 ton).
Central Berth	One 60 ton electric crane of 40 ft. radius (capable of lifting 30 tons at 60 ft. radius by main hoist, and 20 tons at 90 ft. radius by auxiliary hoist).
South Quay 1	One 10 ton crane of 90 ft. radius one 5 ton crane, one of 90 ft. radius, one 50 ton crane lifting 50 tons at 50'radius and upto 20 tons at 90 ft.
South Quay 2	One 5 ton crane with 90 ft. radius and four 3 ton cranes of 65 ft. radius.
South Quay 3	Three 13 ton cranes for lifting trays of iron ore at a radius of 65 ft. Two transporter cranes of 13 tons for loading ore at ore yard.
South Quay 4	Two 3 ton cranes.
East Quay	Open Berth.
Jawahar W Dock	Seven 3 ton and one 5 ton cranes.
Jawahar E Dock	One 13 ton crane, Three 3 ton and two 10 ton.
Ore Yard.	Two 13 ton transporter cranes.

MARINE SERVICES

Dredgers	:	4 (Capacity ranging from 200 to 2000 tons)
Tugs	:	6 (Bollard pull ranging from 12 to 36 tons)
Pilot Launches	:	3
Water Barges	:	2
Self propelled Cargo Barge	:	1
Modern sounding electronic equipment used for marine survey and dredging	:	"SEA FIX"

CARGO HANDLING EQUIPMENT

Locos (Diesel)	:	20
Mobile Cranes	:	24 (Capacity ranging from 3½ to 10 tons)
Fork Lift Trucks	:	54 (Capacity ranging from 1½ to 3 tons)
Payloaders	:	4
Power Shovels	:	2
Wharf Cranes (Electrically Operated)	:	47 (Capacity ranging from 3 to 13 tons)
Electric Forklift Trucks to work inside the hatches	:	6 (1½ tons capacity)
Electric Reach Trucks	:	2 (1½ tons capacity)
Tractors	:	6 (Capacity ranging from 3 to 10 tons)
Trailers	:	28 (Capacity ranging from 5 to 15 tons)

HEAVY LIFT FACILITIES

Travelling Electric Crane	:	1 (Capacity 50 tons)
Floating crane	:	1 (Capacity 120 tons)

TRAFFIC HANDLING POTENTIAL

Grains	:	300 tons/day/hook
Fertilisers Manual	:	200 to 300 tons/day/hook
Mechanical	:	800 tons/day/hook
General Cargo	:	150 tons/day/hook
Liquid Cargo (other than Oil)	:	150 tons/hour
Ore	:	8000 tons/hour
Oil (Crude)	:	4000 tons/hour
Oil (Products)	:	700 tons/hour

OTHER FACILITIES AVAILABLE

Bunkering of Oil
Supply of fresh water
Modern Navigational Aids
Telephone connection to vessels
Lighterage
Insurance

STORAGE

WAREHOUSING & STORAGE CAPACITY.

Covered	Type	No.	Area.
1	Warehouses	17	80,600 Sq. Metres.
2	Transit Shed	10	47,450 Sq. Metres
OPEN			
3	Open Space		291,875 Sq Metres.

Three 1,000,000 gal. tanks for mineral Oils which pumped in direct from tankers.

Two 200 ton and one 250 ton tanks reserved for groundnut oil with Electric pumps.

Bounded stores 30,000 Sq. ft.

Tanks :	Molasses	5,000 tons	one
	Vegetable Oil	Tallow	8000 one
	"	"	10,000 one
	Phosphoric Acid		10,000 three

Repair & Dry Docking Facilities

Shipway 545 ft long in boat basin can take upto 965 tons, length of the cradle 221 ft. drafts 4½ ft forward, 15-ft. at mean H.W.S.T.

PORT DEVELOPMENT WORKS

(i) ORE HANDLING FACILITIES :

The Ore handling facility is installed behind the additional bulk carrier berth at Bharathi Dock. This additional berth is capable of accommodating vessels upto 1,50,000 DWT and drawing upto 14.6 metres. The facility installed is designed to handle 8 million tonnes of Ore at the rate of 8,000 tonnes per hour. The stock-piling capacity is 8,00,000 tonnes.

(ii) FISHERIES HARBOUR :

At the request of the Union Ministry of Agriculture and Irrigation the Trust has undertaken the construction of the Fisheries Harbour as a deposit work. The Project has been planned to accommodate 50 trawlers and 150 pablo boats initially and 150 trawlers and 500 pablo boats in the second stage. The harbour basin will have 48.56 hectares water spread area and can accommodate trawlers drawing upto 6 metres. Proposed Harbour will provide shore facilities such as 'auction' and 'packing' halls. Sufficient land area will be earmarked for the State Government and fish based industries in the private sector for the necessary shore facilities.

(iii) REMODELLING OF BOAT BASIN AND PROVIDING REPAIR FACILITIES TO THE TRUST'S FLOATING CRAFTS :

The existing boat basin was constructed in the year 1920 for sheltering the Trust's dredgers, tugs and other crafts during the monsoons. A slipway of 1,000 tonnes capacity is also provided in this basin.

With the increase in the size and number of port owned floating craft the accommodation available in the boat basin and the capacity of the slipway have been found to be inadequate. The bigger dredgers of the Trust have to be sent to other dry docks for their annual repairs resulting in heavy expenditure and loss of dredging time. The port has therefore planned to remodel the boat basin so as to accommodate all the floating craft and to construct a dry dock capable of servicing the bigger dredgers and commercial vessels upto 5,000 DWT.

(iv) OUTER ARM :

Bharathi Dock cannot be used during the north east monsoon for bringing larger vessels due to certain constraints that have to be imposed on the size and draft of the vessel. During monsoon vessels upto 11.58 metres only can be admitted at present. In order to make Bharathi Dock 'an all weather port' protection is necessary to the channel and the turning circle. The protection can be afforded by providing a breakwater of a length of 1,005 metres starting from the existing sheltering arm of the inner harbour.

(v) CONSTRUCTION OF FOODGRAIN GODOWNS :

At the request of Food Corporation of India the Trust has undertaken the construction of four food-grain godowns as a deposit work. The facilities to be provided by the Port include the construction of four godowns with underground tunnels for reclamation of grain dump pit at one of the godowns with a bucket elevator etc. The planned storage capacity is 80,000 tonnes, the sheds would be constructed in an area of 4.29 hectares in the South Foreshore. The development of land formation of roads and laying of railway tracks will be done at the Port's costs.

vi) CONSTRUCTION OF FERTILISER GODOWNS :

At the request of Ministry of Food and Agriculture, Government of India, the Trust has undertaken the construction of four Fertiliser godowns as a deposit work. The storage capacity of the Godowns is 70,000 tonnes.

(vii) CONTAINER HANDLING FACILITIES :

Madras Port has drawn up schemes to equip itself sufficiently to meet the demands for the handling of containers. The first stage development will provide for the procurement of equipments such as Tractors and Trailors for handling 20 ft., 40 ft. containers, forklift trucks and tyre mounted transtainers.

The second stage development will provide for exclusive container terminal in the Bharathi Dock with all requisite infra-structure facilities. This will include the provisions of a berth with sophisticated modern handling equipment with full-fledged container parking yard, freight station, workshop, administrative buildings, Computer centre, control rooms, etc.

Expansion of Jawahar Dock

It is proposed to expand Jawahar Dock sufficiently accommodate two vessels of 200 metres length and one vessel of 150 metres length. In addition sufficient space will be ear-marked for handling of lash barges at the southern end of the Dock.

Future Developments :

CARGO HANDLING EQUIPMENT ORDERED FOR SUPPLY AND PLANNED FOR PROCUREMENT

Ordered For Supply

1. 18 Nos. 3 T. Fork Lift Trucks
2. 1 No 10 T. Heavy Duty Mobile Crane
3. 2 Nos. 15 T Heavy Duty Mobile Cranes

Planned For Procurement

1. 9 Nos. 4.5/6 T. Mobile Cranes
2. 4 Nos. 10 T. Grabbing Cranes
3. 28 Nos. 3 T. Fork Lift Trucks
4. 6 Nos. 4 5/6 T. Mobile Cranes
5. 6 Nos. Electric Fork Lift Trucks
6. 4 Nos. Lorries
7. 1 No. 200 T. Water Barge

Container Handling Equipment (Proposed to be acquired)

- | | | |
|--|---|---------|
| 1. Chassis for handling for 20' containers | : | 16 Nos. |
| 2. Chassis for handling 40' Containers | : | 4 Nos. |
| 3. Trucker heads for 20' containers | : | 10 Nos. |
| 4. Trucker heads for 40' Containers | : | 2 Nos. |
| 5. Fork Lift Trucks/side loaders for handling containers | : | 6 Nos. |
| 6. Tyre mounted Transfer Crane, (Transtainers) for handling containers | : | 2 Nos. |

MADRAS PORT DUES AND CHARGES

WHARFAGE

GENERAL

Scale of Rates of Wharfage on goods imported, exported or Transhipped or passing through the port.

Item Number (1)	Nomenclature (2)	Unit (3)	Rate (4)
			Rs. P.
1	Acid of all kinds : —		
	(a) In bags	1 tonne	35 64
	(b) In other containers	1 cubic metre	25 08
	(c) In bulk	1,000 litres	26 40
2	Adhesives, glue, lacs, lacquer, resins and other materials	1 tonne	17 16
3	Animals, birds and reptiles alive —	1 cubic Metre	11 88
	(a) Birds including poultry	Each	1 32
	(b) Animals, small such as dogs, monkeys, pigs, sheep, goats, etc. and reptiles	Each	3 96
	(c) Animals, large, such as horses, ponies, buffaloes, cows, elephants, tigers, etc	Each	33 00
4	Arms and ammunitions including explosives of all kinds	1 tonne	39 60
5-A	Asbestos (unmanufactured), cement, lime and lime stone	1 cubic metre	26 40
5-B	Asbestos (manufactured) and cement articles	1 tonne	11 88
6	Ash-in bulk or in bags	1 tonne	19 80
7	Asphalt, bitumen, creosote, pitch and tar	1 tonne	2 64
8	Asphalt, bitumen, creosote, pitch and tar	1 tonne	13 20
9	Baggage and personal effects not accompanying bonafide passengers and seamen	1 tonne	13 20
10	Ballast	1 cubic metre	3 96
11	Bark, wattle, etc	1 tonne	17 16
11	Beverages :-		
	(a) Ale and Beer	1 tonne	17 16
	(b) Alcoholic other than Ale and Beer	1 cubic metre	33 00
	(c) Non alcoholic	1 cubic metre	9 24
12	Boards of all sorts other than of timber	1 cubic metre	11 88
13	Bran, fodder or cattle feed including oil cakes	1 tonne	8 47
14	Bricks and tiles-Ordinary	100 or part thereof	2 64
15	Cereals and pulses of all kinds	1 tonne	11 88
16	Chemicals of all sorts including Carbon Black and gas of all kinds except medicines, colours, dyes, acids, chemical manures, common salt and D.D.T. Powder	1 tonne	23 76
		1 cubic metre	17 16
17	Clay	1 tonne	11 88

Item Number (1)	Nomenclature (2)	Unit (3)	Rate (4)
			Rs. P.
18	Clay materials including Chinaware, porcelainware, earthenware, fire clay or stoneware pipes	1 tonne	25 08
		1 cubic metre	17 16
19-A	Coal, coke, charcoal in bulk	1 tonne	3 96
19-B	Coal coke, charcoal not in bulk	1 tonne	13 20
20	Coffee-seeds powder and essence	1 tonne	19 80
21	Colours including zinc white powder and titanium oxide	1 tonne	15 84
		1 cubic metre	11 88
22	Common Salt	1 tonne	6 60
23	Condiments and spices including garlic	1 tonne	17 16
		1 cubic metre	11 88
24	Conveyance-Various types, parts and accessories :-		
1 (a)	Motor cycles/Scooters vehicles,	Each	33 00
	(b) Mopeds, cycles fitted with Motors and other powered two wheeled vehicles (from 10-5-78 to 9-5-79)		22 00
(2)	Auto Rickshaws and other three wheeled vehicles including their chassis on wheels	Each	110 00
(3)	Motor cars including their chassis on wheels	Each	275 00
(4)	Motor vehicles like tourist caravans on wheels	Each	330 00
(5)	Motor vehicles like buses, dumpers and lorries	Each	660 00
(6)	Chassis of vehicles in No. (5) above on wheels	Each	495 00
(7)	Railway coaches and wagons	Each	3300 00
(8)	Locomotives	Each	4400 00
(9)	Vehicles not specified above and parts and accessories of conveyances excluding rubber tyres and tubes	1 tonne	26 40
		1 cubic metre	19 80
25-A	Cork	1 cubic metre	2 64
25-B	Cork manufacturers	1 cubic metre	11 88
26-A	Cotton, Raw	1 cubic metre	13 20
26-B	Cotton Yarn	1 cubic metre	11 88
27	D. D. T. Powder	1 cubic metre	11 88
28	Drugs, Medicines and medical stores and appliances	1 tonne	19 80
		1 cubic metre	15 84
29	Dyes and dyeing Materials	1 tonne	19 80
		1 cubic metre	15 84
30	Electrical goods and accessories excluding wires and cables	1 tonne	19 80
		1 cubic metre	17 16
31	Emery of all kinds	1 cubic metre	15 84
32	Films and photographic goods other than chemicals	1 cubic metre	19 80

Item Number (1)	Nomenclature (2)	Unit (3)	Rate (4)
			Rs. P.
33	Fish, fresh-dried-salted-others, Fish maws, Shrimps and prawn-fresh-dried-salted-others, Frog legs and other similar items Fresh and processed	1 tonne 1 cubic metre	13 20 9 24
34	Flour of all kinds	1 tonne	19 80
35	Food, not otherwise specified in bags	1 tonne	22 44
36	Food, not otherwise specified-other than in bags	1 cubic metre	15 84
37	Footwear	1 cubic metre	19 80
38	Fruits and vegetables including coconuts and onions	1 tonne 1 cubic metre	11 88 9 24

SCALE B - SPECIFIED CASES

1	On Cargo abandoned	Wharfage per Scale A of this Chapter
2	On cargo excess landed or overlanded	Do.
3	On cargo confiscated by Customs	Do.
4	On cargo unclaimed or not cleared	Do.
5	On cargo condemned by Port Health Authority and destroyed ultimately by the Trust	Do.
6	On cargo salvaged	Do.
7	On unserviceable empty drums, empty bottles and other ship stores disposed off by vessels in the Port including unmanifested dunnage	Do.
8	On the manifested description of package whether they are landed empty or partly empty or in damaged condition	Do.
9	On sweepings collected on board a vessel and landed at this Port	Do.
10	On all cargo admitted to the Board's transit areas for shipment whether it is shipped or having been brought in, is taken out without being shipped	Do.
11	On cargo entering the Board's premises by rail or road and not stored in and space, open or covered, let out on monthly or annual basis, whether shipped or not	Do.
12	Cargo intended for shipment, but stored in any space open or covered, let out on monthly or annual basis	Wharfage as per Scale A of this Chapter at the time of shipment only
13	Cargo intended for shipment but left in the Trust's Transit area	Wharfage as per Scale A of this Chapter on entering the Harbour

14	Coal or oil fuel which has paid Wharfage on Landing, if manifested and shipped as cargo	Wharfage as per Scale A of this Chapter
15	Oil fuel shipped for bunkers	Wharfage at 66 per cent of the Wharfage as per Scale A of this Chapter on entering the Harbour
16	Coal which has paid wharfage on landing, reshipped for bunkers	Wharfage at a fixed rate of Rs 2/64 per tonne
17	Regimental and mess stores and Officers' charges	Wharfage as per Scale A of this Chapter
18	Package containing more than one variety of articles carrying different rates of wharfage	Wharfage as per Scale A of this Chapter at the rate applicable for the article carrying the highest rate of Wharfage

SCALE C - GOODS FROM VESSELS IN DISTRESS

1	Cargo of other ports landed from vessels in distress	Wharfage as per Scale A of this Chapter on landing
2	Cargo that has paid export wharfage at the Madras Port but has not been carried to destination	No Wharfage at the time of landing or at the time of reshipment or it removed out of the Board's premises
3	Cargo of other ports reshipped without having left the Board's premises	No Wharfage at the time of shipment

SCALE D TRANSHIP GOODS

1	Cargo of other ports landed and reshipped	Rs. 33/- per tonne on the weight equivalent to the manifested tonnage of the cargo transhipped
---	---	--

NOTE :- (1) It is the responsibility of the Steamer Agents to shift transhipment cargo for shipment when the on carrier vessel is berthed at a berth different from the one where the transhipment cargo is landed and lying.

(2) Removal of transhipment cargo from one quay berth to another within the Harbour premises will be undertaken by the trust by special arrangement with the Traffic Manager at rates fixed by him.

(3) In respect of cargoes shifted from one hatch to another of the same vessel via the quay, only handling charges shall be recovered as provided in various chapters of the Scale of Rates.

2	Cargo other than mineral oil in bulk of other ports transhipped direct from ship to ship	Rs 17/16 per tonne on the weight equivalent to the manifested tonnage of the cargo transhipped
---	--	--

NOTE: Wharfage shall be recovered at Rs 2/64 per tonne on quantities of foodgrains transhipped into a smaller vessel from a tanker/bulk carrier at this port. However, in respect of the goods transhipped to the smaller vessels discharging for ports outside India, wharf shall be levied as per Item No 2 Under this scale

Exception : The levy of Rs. 2/64 per tonne covered by this 'note' shall be exempted in the following cases of transshipments

- (i) The quantity which was originally transhipped from the tanker/bulk carrier to the smaller vessel and subsequently landed and cleared at this port after paying the wharfage as per Scale A of this chapter
 - (ii) The quantity transhipped for the second time from the first smaller vessel to the second smaller vessel which was originally transhipped from the tanker/bulk carrier to the first smaller vessel and paid wharfage at Rs. 2/64 per tonne under this note of the scale for the first transhipment.
- | | | |
|---|--|--|
| 3 | Cargo manifested for local and subsequently amended at Madras for transhipment | Wharfage as per Scale A of this Chapter both on landing and on shipment |
| 4 | Oil, mineral in bulk, transhipped direct from ship to ship | 50% of the rate of Wharfage as per Scale A of this Chapter on the transhipped units. |
| 5 | Railed goods booked to the Harbour and subsequently rebooked out of the harbour by transhipment from broad gauge to metre gauge or vice versa inside the harbour | Wharfage as per Scale, A of this Chapter once on the incoming railway invoice weight only. |

Note : (a) Transhipment shall only be permitted by the Traffic Manager if he considers that railway shipment traffic will not be delayed

(b) Through booking from broad gauge to metre gauge or vice versa (via) the harbour shall not be permitted.

SCALE E - GOODS FREE OF WHARFAGE

- 1 Goods imported by rail and sent out by rail or road which have been stored in any space, open or covered, let out on monthly or annual basis.
- 2 Goods consigned to or by the Board and goods consigned in the name of Government of India on Madras Port Trust account.
- 3 Fodder accompanying livestock and not manifested as cargo.
- 4 Manifested coal retained on board for bunkers.
- 5 Sweepings collected from the Board's premises.
- 6 Survey rejections
- 7 Goods belonging to the oil installations passing through the Board's premises in railway wagons without being unloaded.
- 8 Rail-Borne goods missent to the harbour or rejected by the consignee.
- 9 Cargo not manifested for transhipment but merely transferred from one hatch to another of the same vessel without being landed on the quay or on the barge/lighter.
- 10 Bona-fide ships' fittings, ships' stores, unmanifested dunnage and provisions for the use of ships using or frequenting the port other than (1) Oil fuel shipped for bunkers and (2) coal which has paid wharfage on landing, reshipped for bunkers
- 11 Bona-fide passengers' and seamen's baggage and personal effects accompanying them.
- 12 Railway-owned coal transhipped in the harbour.
- 13 Goods cleared from bond and despatched by rail from the Board's premises
- 14 Mail, in bags or packets, manifested or unmanifested
- 15 Personal baggage, horses and carriages accompanying the Defence Personnel, other than Civil Staff moving on duty embarking or disembarking and animals meant for providing food.

SCALE F - WHARFAGE ON GOODS HANDLED MECHANICALLY AT THE MECHANISED BERTHS

Description (1)	Unit (2)	Rate (3)
		Rs P
(1) Iron Ore	One tonne	17 16

NOTE : (1) If during the period of 12 months commencing from the 1st April in a year the quantity of iron ore (other than ore shipped through Jawahar Dock Berth II) exported by the Minerals and Metals Trading Corporation through the Port of Madras is not below 1.5 million tonnes during the aforesaid period and provided further that out of the above quantity, the quantity mechanically Handled at South Quay III is not less than 5 lakhs tonnes, a rebate of Rs. 1.50 per tonne on the quantity of ore exported through the Mechanised berth mechanically during the official year shall be allowed

(2) The above rate is inclusive of all operations from moving the stock from storage in specially provided rented plot to putting it into the holds of vessels but exclusive of (1) unloading of wagons at the specially provided plot, (2) rent for the occupation of plot and (3) trimming, if required

(3) For purposes of determining the quantity, ore taken in vessels during the period commencing intake from midnight of 31st March preceding to midnight of 31st March following will be taken

(2) Ore other than iron ore (if handled by the Trust)	one tonne	17 16
--	-----------	-------

NOTE : The above rate is inclusive of all operations from moving the stock from the rented plot to putting it into the holds or vessels but exclusive of (1) unloading of wagons at the plot, (2) rent for the occupation of the Plot and (3) trimming if required.

SCALE G - WHARFAGE ON FISH CATCHES

Craft length (1)	Rate per trip (2)
	Rs. P
Upto 10 metres	11 00
Above 10 metres and upto 15 metres	22 00
Above 15 metres and upto 20 metres	27 50
Above 20 metres and upto 25 metres	38 50
Above 25 metres	44 00

CHARGES ON VESSELS

(A) PORT DUES (Basis for calculation-per NRT)

If cargo throughout is less than	1,000 MT	Rs. 1 20
Do. over	1,000 MT	Rs. 1 80
If entering Bharathi Dock		3 00

(B) PILOTAGE (Basis for calculation-per NRT)

Charges for two way pilotage

If cargo throughout is less than 1,000 MT Rs. 0-92

Do. over 1,000 MT Rs. 1-20

If entering Bharathi Dock

Upto 60,000 DWT Rs. 2-40

over 60,000 DWT Rs. 3-60

Night navigation extra at 18 paise per NRT

Coasting vessels are allowed concession in port dues & Pilotage.

(C) Berth hire charges for commercial berths.

(Basis for calculation per NRT per day)

Up to 3,000 NRT

Rs. 840/-

3,001 to 7,000 NRT

Rs. 840 plus
24 paise per NRT
over 3,000.

7,001 to 12,000 NRT

Rs. 1,800 plus
30 paise per NRT
over 7,000

12,001 to 20,000 NRT

Rs. 3,300 plus 36 paise NRT over 12,000

20,001 to 25,000 NRT

Rs. 6,180 plus 54 paise per NRT over 20,000

Over 25,000 NRT

Rs. 8,880 plus 72 paise per NRT over 25,000

(D) TOWAGE CHARGES

(Basis for calculation-per NRT for two operations)

upto 3,000 NRT

Rs. 3,600/-

3,001 to 7,000 NRT

Rs. 3,600 plus 90 paise per NRT over 3,000

7,001 to 12,000 NRT

Rs. 7,200 plus 60 paise per NRT over 7,000

over 12,000 NRT

Rs. 10,200 plus 30 paise per NRT over 12,000

TOWAGE CHARGES AT BHARATHI DOCK

Upto 20,000 NRT

Rs. as above

Over 20,000 NRT

Rs. 18,000 plus 30 paise per NRT over 20,000

Maximum towage charges

Rs. 30,000 only

(E) HOLIDAY AND OVERTIME CHARGES :

(Basis for calculation per shift)

2nd and 3rd shifts during working days and
all the shifts during Sundays and ordinary
Holidays

Rs. 660 per shift for
general cargo

Rs. 330 per shift for
oil, coal & coke

Coastal vessels are allowed concession in rates.

(F) CRANAGE : (Basis for calculation-Per shift)

Upto 5 tonnes capacity

Rs. 192.50 per shift

5-10 tonnes capacity

Rs. 481.25 per shift

Over 10 tonnes capacity

Rs. 550.00 per shift

(G) HEAVY LIFTS HANDLED THROUGH 50 T. or 120 T. CRANES :

(Basis for calculation-per tonne)

Packages Upto 10 tonnes	Rs. 55 per tonne
Over 10 upto 15 tonnes	Rs. 61.88 per tonne
Over 15 upto 30 tonnes	Rs. 82.50 -do-
Over 30 upto 60 tonnes	Rs. 130.63 -do-
Over 60 tonnes	Rs. 260.25 -do-

{Minimum charges Rs. 550/-}

(H) FORK LIFT TRUCKS :

Upto 5 tonnes capacity	Rs. 412.50 per shift
------------------------	----------------------

II CHARGES ON IMPORT/EXPORT :

- (A) WHARFAGE Charged per MT or CBM or each as the case may be. Different rates are charged according to the classifications of 137 items in the Scale of rates. Items not classified per tonne Rs. 23.76.

CBM Rs. 18.48

Fish catches-according to length of the craft.

- (B) CRANAGE: Stacking-No charge upto 1 tonne package

Rs. 9.63 per tonne for 1-5 tonnes

Rs.17.88 per tonne for 5-10 tonnes

Rs. 26.13 per tonne for 10-15 tonnes

Other Services-Rs. 5.50 per tonne upto 1 tonne package.

For Package over 1 tonne, charges as above
for stacking will be recovered.

- (C) DEMURRAGE :

First 6 days after free days	50% of wharfage for every 2 days or part
Next 6 days	100% Do.
Thereafter	125% Do.

- (D) RENT: Open space - Undeveloped Rs.90 per 100 sq Mt.

Open space - developed Rs. 105 per 100 Sq Mt.

Covered space Rs. 90 per 10. Sq.mt.

Office accommodation Rs. 150 per 10 Sq. mt.

(Charged per calendar month or part)

- (E) OVERTIME :

For delivery and admission of cargo

6 A.M. — 9 A.M. Rs. 330/-

6 P.M. — 10 P.M. Rs. 330/-

10 P.M. — 6 A.M. Rs. 660/-

For delivery of cargo while the ship is working : Rs.55/- per shift or part

MORMUGAO PORT FACILITIES

General Information

Mormugao Port is situated on the West Coast of India in the latitude 15° 25' North and longitude 73° 47' East at the mouth of the river Zuari. The Port is approximately 370 Kilometres South of Bombay and 575 Kilometres North of Cochin.

Mormugao is an open type Harbour protected by a breakwater and a mole running parallel to the quay and built Eastward from the outer end of the breakwater. The harbour is also protected from the South West Monsoon as it has been constructed on the leeward side of Mormugao Headland. The navigational channel connecting the sea to the harbour is about 5 Kilometres in length, 250 m wide at the bottom and 13.7 m deep at LLWS with a turning basin of 480 m diameter, located east of the mole. The Port is served by two navigable rivers, Mandovi and Zuari, which are inter-connected by Cumbarjua Canal. A metre gauge rail link joins the Port to the national network at Londa on Poona-Bangalore line. There are good road connections linking the Port with the West Coast Highway stretching from Bombay to Cape Comorin, and the Balgaum-Goa National Highway.

Chart No. for Harbour Data

The Indian Naval hydrographic : 244, 2020 and 2022

Pilotage

Pilotage is compulsory for moving ships to and from the harbour area and between berths and moorings within the harbour. Pilotage services are provided by the Port administration during the daylight hours; there is no night pilotage at the port at present, though facilities for night pilotage are to be introduced.

Communications

The Port Signal Station is situated on the North West point of the Mormugao Headland and functions round the clock using the Morse and International Signal Codes, and is equipped V-HF telephone services having the call sign, 'Goa Port', calling channel 16 working channel 12. Ships desiring to contact Port on VHF should establish contact by means of

- (a) light signals
- (b) hoisting 'Z' flag
- (c) Blowing 'Z' on whistle or siren

Day time port VHF station is continuously open, and attracts attention on desired ships by hoisting 'Z8' flag or by light signalling. Ships at anchorages are advised to maintain continuous watch on channel 16. Port VHF services are restricted for port operations only. Messages relating to the safety of the ship person and port operation only are entertained and no third party communication is allowed.

Anchorage Points

At outer harbour west of breakwater and inner harbour east of breakwater.

Other Navigational Aids

Four tugs one of 9 ton bollard pull, one of 20 tons. Two of 30 tons bollard pull. Four launches, available for pilotage and mooring.

Safe entrance limits of vessels and permissible drafts :

Length : No limits

Draft : 8.23 mt at old facilities and 12.0 mt at the new facilities

Mooring and Anchorages

Mormugao is a magnificent natural harbour. To the North and West of the harbour there is a large roadstead, in which 50 or more ships can lie at anchor during the fair season September June. During South-West Moonsoon, however, sheltered anchorages for about 15 ships are available. There are three protected moorings in the shelter of the Breakwater, where drafts varying from 8m to 8·8m are available. During fair season, completion down to the load lines done West of Breakwater. The depth at the entrance channel is 13·7 m. Ore carriers of over 1 lakh dwt. size frequently visit the Port.

Berths

There are five deep water cargo berths at the Port, one lighterage berth for ore barges which together make up a quayside of 941m. Besides one deep drafted oil jetty and one specialised mechanical ore berth have also been constructed.

The particulars regarding depths, length etc. are :

Berth No.	Length (Metres)	Depth at LLWS * (Metres)	Remarks
1 & 2 (Treated as one std. berth)	185	4·3 – 5·5	—
3	134	7·0	—
4	139	8·2	—
5	160	8·2	—
6	223	8·2	—
7	100	3·7	Barge Berth
8	116	13·1	Oil jetty with mooring dolphins 298 m apart
9	222	13·1	Ore Berth with mooring dolphins 357·5 m apart.

* (Deeper depths available and utilised, depending on tide position)

All the general cargo berths are served by railway sidings. Berth No. 6 is equipped with a Mechanical Ore Loading Plant (owned by a private company) with the rated capacity of 1,000 tonnes per hour and stackyard of about 19,000 sq. metres for storage of ore, whereas berth No. 9 with Mechanical Ore Handling Plant with rated capacity of 8000 TPH and stackyard of 80,000 sq. metres for stacking one million tonnes ore.

Acceptable design size of vessel at Berth No. 9

	Max.	Min.
LOA (Metres)	260	180
BEAM "	44	23
DRAFT, "	12	10
DWT approx.	100,000	20,000

Cargo Handling Equipment

13 Electric cranes of 3 tonnes capacity each and 2 electric cranes of 6 tonnes capacity each are available at Berths Nos. 1 to 5. There are three mobile cranes each of 6, 12 and 30 tonnes capacity and six-forklifts trucks of 2 tonnes and 3 tonnes capacity.

Storage

The covered transit shed facility of 7,538 sq. metres spread over from berth No. 1 to 3 and 5; and open space of about 864 sq. m. at berth No. 4. are available. Besides, there are seven warehouses of 12,734 sq. m. and open storage plots admeasuring approximately 50,000 sq. m. at Mormugao Harbour and 40,000 sq. m. at Vascodagama marshalling yard and two storage tanks for bulk liquids of 4200 cu metres capacity (owned by a private party), with a pipe line to berth No. 4. The sheds, warehouses and storage plots are also served by rail sidings.

Port Railway

The Port has its own metre gauge Railway system with marshalling yard, and functions as terminal agent of South Central Railway having facilities of direct-receipts despatch of goods from and to any place in the country. It has a fleet of about 168 metres gauge wagons of different types and 1 steam and 5 diesel locomotives

Dry Docks and Repair Facilities

There is no dry-docking facility at this Port. However repair facilities are available through the Goa Shipyard, a Government of India undertaking situated at Vasco da Gama. Facilities for repairs as well as for Chipping, painting and tank cleaning are also available through specialised private firms.

Water Supply

Water for drinking and boiler purposes is available from hydrants at the wharf; and at moorings and instream from a 180 tonne dumb water barge as per requirements. However when main supply is restricted, the water supply is limited to 50 tonnes maximum per ship.

Bunkering

Facilities are available for supply of furnace fuel oil, L.D.O. and high speed diesel oil to vessels visiting the Port at the wharf with prior arrangements with oil installations.

Provisions

Both fresh and frozen provisions are available.

Medical Aid

Medical facilities are available at Mormugao Port.

Port Health

Port Health Officer is available to issue the necessary certificates or pratique of vessels as per regulations and practices.

Immigration

Immigration rules of the country as applicable from time to time are in force. The Immigration Officer is situated in the Port area.

Surveying

There are number of well known surveying companies representatives at the Port.

Lighterage

Lighters are available on hire by companies and individuals at the Harbour for overside or stream loading and unloading of cargo.

Port Working hours :

- 1st Shift : 07.30 to 12.30 hrs & 13.00 to 16.00 hrs.
2nd Shift : 15.30 to 20.30 hrs & 21.00 to 24.00 hrs.
3rd Shift : 23.30 to 03.30 hrs & 04.00 to 08.00 hrs.

Port Charges

Information regarding port dues, pilotage charges, wharf dues, crange charges etc.. is available with the Financial Adviser & Chief Accounts Officer, Mormugao Port Trust.

Principal Imports

Fertilizer, Fertilizer raw materials, foodgrains, general goods, bulk petroleum, iron and steel, machinery, bulk liquid chemicals etc.

Principal Exports

Iron Ore, Pellets, manganese ore, oilcakes, sugar, alumina etc.

New Ore Handling Facilities :

The ore berth complex commissioned on October 1st 1979 is provided with a mechanical loading plant of a loading capacity of 8,000 tonnes per hr. This berth also has as its adjunct, an ore stacking area for about one million tonnes of ore at a time, four barge jetties with eight grab unloaders of 300 t.p.h. each for unloading barge borne ore, and a wagon tippler of 1000 t.p.h. for receiving railborne ore. The system is provided with three stackers of 2500 t.p.h. two reclaimers of 4000 t.p.h. each and two ship loaders of 4000 t.p.h. each. The ore handling facilities are provided with necessary surge bins, transfer houses, automatic sampling plants, belt weighters, and all other accessories.

The facilities presently capable of fully loading 60,000 dwt vessels, are designed to cater to 100,000 dwt. vessels after further dredging of the entrance channel, turning circle and berth. The Channel is presently dredged to—13.7 m and the berthing basin to—13.1 m.

NAVIGATIONAL AIDS :

One signal Station working around the clock and keeping continuous watch on VHF channel No 16, one fair way and six channel marking Buoys, two leading light towers, making the central line of channel have been provided at present Night navigation facilities will be provided under Kudremukh Iron Ore Project facilities.

STORAGE FACILITIES :

- i) One Transit shed at No 1 berth for general cargo with a floor of 5475 Sq M and capacity of 10,000 tonnes is available.
- ii) One transit shed at No 3 berth with a floor area of 2190 sq M and a capacity of 4000 tonnes is also available.
- iii) One more transit shed at No.3 berth with a floor area of 2190 sq M. and with a capacity of 4000 tonnes has been made available to the trade.
- iv) Two warehouse of 4,000 tonnes capacity each have already been completed and available for lease for the shippers.
- v) One stacking yard with concrete pavement 6633 sq M. has been constructed in front of Iron and Manganese ore berth.
- vi) Oil farm for naphtha, petroleum products etc. has been installed by I.O.C. near the Oil Jetty with a total storage capacity of 60,000 tonnes.
- vii) Ample open storage area is available near the berths.
- viii) 2 More over-flow sheds of 4380 sq M and 30 Nos of warehouses have also been proposed. The work order for the construction will be issued very shortly
- ix) Paved uncovered stacking yard is available. Some more area exclusively for the storage of export bound granite blocks has been proposed for construction with hard surface.

REPAIR YARDS :

A well equipped workshop for minor repairs of vessels available.

WATER, BUNKERING AND FUEL :

Water supply arrangement is available both alongside wharf by pipelines and at anchorages by barge of 120 tonnes capacity. Bunkering and fuel arrangements are also available in limited quantities.

RAIL, ROAD AND MOTOR TRANSPORT :

Port is connected by broad-gauge railway line to Madras via Calicut through Southern Railway system. The Port is well connected by a network of roads to the hinterland. N.H. 17 also passes by the side of the Port. Panambur has been declared a serving station by Southern Railway with effect from 1st September 1976. With the commissioning of Mangalore-Hassan railway line the Port is being connected with metre-gauge railway line also.

COMMUNICATION :

Direct telephone connections have been provided on board ships berthed alongside wharves with the result the ship's staff could be connected directly over telephone from any place in India.

FUTURE DEVELOPMENT PLANS :

(1) Under progress :

Consequent upon the signing of the agreement between the Government of India and the Government of Iran for exporting annually about 7.5 million tonnes of iron ore for a period of 20 years, the following developmental works of this Port to cater to the needs of bulk carriers of 60,000 DWT and for exporting 7.5 million tonnes of iron ore concentrates per annum have been taken up for execution on top priority basis and on a time bound schedule.

- (a) Construction of an iron ore berth.
- (b) Deepening the lagoon, inner and outer approach channels to (-) 13.50 M.C.D.
- (c) Extension of breakwaters from -3.66 M.C.D. contour to -5.00 M.C.D. contour.
- (d) Additional navigational aids including aids for night navigation.
- (e) Additional harbour crafts for berthing and unberthing of bulk ore carriers as below :
 - (i) 22.50 tonnes bollard pull tug 1 No.
 - (ii) Mooring Launch 1 No.
 - (iii) Pilot launch 1 No.
- (f) Bunkering facilities for ore carriers etc. etc.,

(2) FUTURE DEVELOPMENT WORK :

The following developmental works have been proposed under the plan period 1978-1983.

- (a) Construction of Additional berth for general cargo at an estimated cost of Rs. 7.00 Crores with necessary back-up facilities.
- (b) A Repair complex comprising of a 800 tonnes capacity slipway to undertake the repair of the Ports floating crafts.
- (c) Construction of 2 Nos. of Multistoreyed blocks in the commercial area lease out to the shipping interests on rental basis.
- (d) Various handling equipments like 16 tonnes and 7.5 tonnes capacity forklifts 15 tonnes capacity forklift with grappler arrangements etc.

TUTICORIN PORT — THE KEY PORT ON INDIA'S MARITIME MAP

Tuticorin is the growth Port—

- Now the container transshipment centre
- Either in alongside berths or in midstream, speedy turnaround

- Disciplined and peace-loving labour force
- A variety of sophisticated cargo handling equipments
- Cargo traffic in 1979-80 up by 42% over the previous year (24.10 lakh tonnes)
- Soon a new modern oil jetty
- A mighty coal jetty very shortly
- More high-powered tugs and locos being procured
- Additional alongside berths and warehouses already planned
- Passenger service between Tuticorin and Colombo by early 1981

TUTICORIN PORT FACILITIES

Introduction :

Port of Tuticorin has been in existence as a glorious Port dating back from the 15th century. Though small ships of the olden times were plying from Tuticorin to Madras, Colombo and China, the port was first surveyed only in 1842, again in 1879 and 1912. It was in the year 1866, the first primitive wooden jetty on 30 m long was constructed. In 1895, a pucca pier was constructed and in 1899 the main line of the South Indian Railway was extended to the quay. As a result of the various development schemes undertaken by the authorities, the old port registered a steady growth and became the largest intermediate port in India, handling over one million tonnes per annum.

History of the Port :

The facilities available at the Minor Port were limited and inadequate to cope with the increasing maritime trade at Tuticorin. The need for the development of the Minor Port to a Major Port with modern facilities was engaging the attention of all concerned. As a result of the concerted efforts taken by the various interest, the Intermediate Ports Development Committee constituted by the Government of India visited Tuticorin in 1958. The Committee recommended the development of a Major Port at Tuticorin during the year 1960. The recommendations of the Committee was accepted by the Government and allotment of Rs. 5 crores was made in the Third Five Year Plan. The Government accorded expenditure sanction for Rs. 21.76 crores during July 1969 for the construction of four alongside berths for salt, coal, cement and general cargo to accommodate vessels with 9.14 m draft in the first stage of development with provision to deepen the end two berths to 10.70 m draft at a later date.

As there was an all-round escalation in the cost of materials and labour since 1969, a detailed Revised Project Estimate for Rs 53.06 crores, including New Schemes was submitted to the Ministry for sanction in 1975. The revised Project Estimate was sanctioned for Rs. 46.95 crores in December, 1978 excluding New Schemes.

General :

The Major Port was declared open for traffic with the commissioning of oil mooring berth at NBW on 11th July 1974. Thus Tuticorin became the 10th Major Port in India. The alongside berths in the SBW were commissioned with berthing of the first vessel M.V Chennai Ookkam on 20-9-75 for discharging 18,200 T. of wheat.

The Port is backed up by the hinterlands of the Southern parts of Tamil Nadu. The Port has been connected to the trunk railway lines of the country by metre gauge lines by a railway siding taking route from Milavittan Railway Station at a distance of about 16 kms. Different parts of the country are also connected to the Port by a good net work of roads.

On the decision of both the Central Government and the Government of Tamil Nadu, the New Port and the old Minor port were amalgamated and the "Tuticorin Port Trust" was formed with effect from 1-4-1979 bringing the two ports under a single administrative set up.

The principal users of this port are M/s. Southern Petrochemicals Industries Corporation Limited, the biggest fertiliser complex in Asia, M/s. Tuticorin Thermal Power Project the largest Thermal Station in the South, local cement factories situated in the districts of Tirunelveli, Ramnad and Trichy districts and other industries like M/s. Dharangadhara Chemicals, Sahupuram.

The main commodities that are exported through this Port are salt, sugar, cement, foodgrains and other varieties of general cargoes.

The Import consists of P.O.L. Products, fertiliser, raw materials, finished fertilisers, newsprint, timber logs and a variety of other general cargoes. The imported cargoes move to distant places such as Gujarat, U.P. Bihar, etc. and other interior places in the north and Southern parts of Kerala.

Location and salient features :

It is an artificial deep-sea harbour with rubble mound type parallel breakwaters, north and south each of length 4103 m. and 3888 m. respectively, projecting into the sea 1275 m. apart, with an entrance of 152 m. width providing a tranquil sea basin of 960 acres. The main wharf is 877 m. long and it can accommodate four ships, two of 168 m. in length and the remaining two of 192 m. The berths are located in the natural deeper waters about 3000 m. from the shore. The link between the wharf and the shore is by means of road and railway systems laid over the reclaimed approach arm of 61 m. width adjoining South Breakwater. The harbour is served by a dredged approach channel for 14,000 m. long and 183 m. wide.

The Port of Tuticorin is an all weather and the gateway to South India in maritime trade. The Port of Tuticorin unlike other Major Ports in India has got a speciality in having two operational wings, viz, New Port (Zone A) with alongside berths, oil jetty and the Old Port (an anchorage Port) now being styled as extension Port (Zone B).

With the merger of both the New and Old Ports, Tuticorin Port is in a position to accommodate ships of any size and any draught and render efficient service to the shipping industry. With the emergence of a Major Port in Tuticorin the dreams and aspirations of the people of Tuticorin for a rapid industrialisation in the hinter-land have also come true.

Tuticorin Port keeps abreast of modern techniques like palletisation and containerisation in the field of cargo handling. The Port though commissioned recently is well equipped and ready to handle lash vessels a modern concept in the shipping world.

The Port of Tuticorin is noted for its fine labour productivity among Major Ports in India. The Highest degree of Management-Labour relationship at different levels of Port Management, one of the cardinal factors for the excellent Port working is always being maintained.

Existing Port facilities :

Zone - A Major Port

(a) Berths

- i) Four alongside berths for salt, coal, general cargo and cement are available at present. All the four berths are under operation now.
- ii) One permanent Oil jetty is available at North Breakwater for handling P.O.L. Products.

Draft :

No. 1 & 2 berths : Designed to accommodate vessels of 30 ft. draft.

No. 3 & 4 berths : Designed to accommodate vessels of 33 ft. draft.

Tanker berth : Designed for 35 ft. draft.

Tanker berth can accommodate tankers of DWT 40,000 with displacement tonnage of 53,000 with an approach velocity of 15 cm. per second berthing at 10 degree angle.

Though there is adequate water depth to accommodate vessels of draft indicated above, the channel is not deep enough to bring vessels over 27 ft. at all times and 28 ft. at high water (spring) time. Dredging is in progress in the main channel.

(b) Storage facilities :

(i) Transit sheds	: 2 nos.	: size 150 m. x 36 m.
(ii) Warehouse	: 1 no.	: size 150 m. x 36 m

(v) Steel Sheet Pile Wharf between concrete and coal jetties	99.96	..
(vi) Steel Sheet Pile Wharf south of Screw Pile jetty	155.43	..
(vii) R. C. wharf-south wharf extension	188.10	..
(viii) R. C. Wharf-Coal Wharf in the north reclamation	219.43	..

(b) Dry Dock

A dry dock of size 45.70 metres long, 15.20 metres wide with 2 metres of water above sill, workshop facility.

(c) Storage Facilities :

- | | |
|--|--|
| (i) Covered Transit sheds, including combustible Cargo shed and dutiable cargo shed. | 13 nos. with a storage capacity of 14,460 T. |
| (ii) Open Platform for storage of cargo | 61,500 T. Capacity. |

(d) Cargo Handling Facilities :

- | | | |
|--|----------|---|
| (i) Tugs | : 2 nos. | (One of 436 HP and another of 264 HP for towing lighters) |
| (ii) Launch | : 1 No. | (For general service purpose) |
| (iii) Hopper Bucket Dredger | : 1 No. | (773.23 C.R.T. and Hopper capacity for 500 T) |
| (iv) 100 tons Mud Punts (Nonpropelled) | : 2 Nos. | |
| (v) 300 - tons Dumb Barges | : 3 Nos. | |
| (vi) Water barges (Non-propelled) | : 2 Nos. | |
| (vii) Reclamation Plant | : 1 No. | |

Other Facilities :

A coal jetty with a draft of 10.70 metres at a cost of Rs. 297 lakhs is under execution to receive colliers of 25,000 DWT to 50,000 DWT bringing coal for the consumption of Tuticorin Thermal Power Project. The coal will be fed to the Thermal Station by conveyor belt system.

Proposals are also on hand for construction of two additional alongside berths, 2 nos. transit sheds, 2 nos. warehouses with the same size and capacity of the existing ones and one bonded warehouse of size 25 m x 10m to meet the rising trade requirements.

NEW TUTICORIN

SYNOPSIS OF PORT DUES AND CHARGES :

Item of Charges

1. Port dues
2. Pilotage

3. Berth Hire Charges

4. Water supply

Water supply by water barge Rs.30/- per 1000 litres or part thereof.

Foreign vessel

Rs. 1.50 per NRT
Rs. 0.50 Per NRT
(per each operation)

Rs. .0.20 per NRT per day
(Minimum Rs.500 -)
Rs. 15.00 per 1000 lit.
(Minimum Rs.300/-)

Coastal vessel

Rs. 1.00 per NRT
Rs. 0.32 per NRT
Rs. 0.15 per NRT per day
(Minimum Rs. 350/-)
Rs. 12.50 per 1000 lit.
(Minimum Rs.200/-)

5. Crane hire charges :

- i) 5 tonnes capacity or under

- ii) Over 5 tonnes capacity

- iii) Over 10 tonnes capacity

- iv) 10 T Grab wharf crane

- v) Fork Lift truck

Rs. 150/- per shift with a minimum of Rs.75/- per half of a shift or part thereof

Rs. 400/- per shift with a minimum of Rs.200/- per half of a shift or part thereof

Rs. 500/- per shift with a minimum of Rs. 250/- per half of a shift or part thereof

Rs.125/- per hour

Rs.50/- per hour

Rs. 100/- per shift with a minimum of Rs. 50/- per half of a shift or part thereof.

Rs. 250/- per shift with a minimum of Rs.125/- per half of a shift or part thereof.

Rs. 312.50 per shift with a minimum of Rs. 156.25 per half of a shift or part thereof.

Rs. 100/- per hour

Rs. 30/- per hour

Night and Holiday charges :

Rs. 375/- per shift minimum Rs. 187.50 for half a shift.

Rs. 250/- per shift minimum Rs. 125/- for half a shift.

(Half the rate for coal, coke, salt other bulk cargo and Tankers pumping oil)

Rental charges :

Particulars	Unit
(Land and shed or other property)	
1. Covered space	10 sq.m.
2. Open space for storage of cargo. (Rental charge for storage of containers) Length of container	10 sq. m
3. Upto and including 20 feet length	
4. From 21 feet upto and including 40 feet length.	

Rent Zone A	Rent Zone B
Rs.100/- per calendar month or part thereof	Rs. 20- per calendar month or part thereof
Rs. 10/- per calendar month or part thereof	Rs. 10/- per calendar month or part thereof
Storage charge	
Rs. 2/- per container per day or part thereof.	
Rs. 3/- per container per day or part thereof.	

Demurrage Charges

Import

(a) Free days : Three working days (excluding Sundays and Port Holidays)

Zone - A		Zone - B	
		Open space	Covered space
1. For the first six days of part thereof	25% of the wharfage.	Re. 0.30 per unit	Re. 0.50 per unit
2. For the next six days of part thereof.	40% of the wharfage.	Re. 0.40 per unit	Re. 0.60 per unit
3. Thereafter for every subsequent six days or part thereof	100% of the wharfage	Re. 0.50 per unit	Re. 1.00 per unit

Export

(b) Free days : 30 days for wheat (including Sundays and Port Holidays) and 6 days for all other cargo (excluding Sundays and Port Holidays).

VISAKHAPATNAM PORT- FACILITIES

Visakhapatnam Port on India's east coast is one of ten major ports of the country and is located in the State of Andhra Pradesh (Latitude-17°-41' N and longitude -83°-18' E). It ranks first among the major ports on the east coast and second among all the major ports in terms of volume of cargo handled during 1978-79. It is a natural harbour (on account of the protection afforded by a hill, popularly known as ('Dolphin's Nose') with a low tidal range of 1.8 metres at maximum and offers safe anchorage to ships even during severe cyclones which are a common phenomena on the east coast.

The port has had a long tradition of maritime trade with Europe and Middle East. But its modern history begins from 1933 when the first passenger vessel s.s. "Jala Durga" entered the port in 7th October 1933. The Port was constructed and administered for some years by the Railways. Subsequently, the administration changed hands in quick succession and finally came to rest with the Visakhapatnam Port Trust (under the Union Ministry of Shipping & Transport) from 1964

In the first year of its operation (1933-34), the Visakhapatnam Port handled a mere 0.13 million tonnes of cargo, and in 1979-80 it handled 11.7 million tonnes. The Statement on the left presents the growth of traffic during this period.

The principal cargoes which constituted the 11.7 million tonnes in 1979-80 are : iron ore, manganese ore, steel materials like angles, channels, billets, coils, etc, sugar, alumina and shrimps on the export side, and finished fertilisers, fertiliser raw materials like rock phosphate and sulphur, petroleum and petroleum products, cement, coking coal and other general cargo like machinery, steel products etc., on the import side.

The Port, in consonance with the ever-increasing and changing pattern of cargo routed through it, has developed and expanded its infrastructure, and today offers the following facilities :

BERTHING FACILITIES

The port has two harbours, known as the Inner harbour and the Outer harbour. The Inner harbour, with about 100 hectares of navigable waterways, consists of an entrance channel of about 1.6 kms a turning basin (diameter - 365 m) and three arms. These arms are called as the Northern Arm - the main commercial channel of the port, the North Western Arm and the Western Arm. The Outer harbour a tranquil water-basin of about 200 hectares formed by the erection of three break waters-in the open sea - is a recent construction and has been commissioned in December, 1976.

There are 11 Quay berths (quay length 2500 metres), three Jetty berths and one Mooring berth in the Inner harbour with a water-basin of 100 hectares. The maximum size of a ship which can be berthed at these berths is 36,000 dwt. Navigation to vessels is provided round the clock and throughout the year. The recent addition to these berthing facilities is the construction of a finger-type jetty in the Outer harbour, to accommodate 100,000 dwt. vessels to load iron ore at a rate of 8,000 tonnes/hr. It is the deepest harbour of the country backed up by a very sophisticated automatic loading system consisting of a 5 km. long conveyor, longest in Asia, and a mechanical ship loader with a rated capacity of 8,000 tonnes per hour.

Further, an oil mooring facility for lightering of tankers of 100,000 dwt. and more is provided in the Outer harbour. The Statement above gives the Berthing facilities.

CARGO HANDLING FACILITIES

For the purpose of loading/unloading of cargo, shifting and Stacking of this cargo and to load and unload the cargo into wagons/lorries etc., the port has a fleet of versatile equipment. This consists of 31 electric wharf cranes (cap. ranging from 3 tonnes to 30 T), 10 mobile cranes (capacity ranging from 10 T. to 45 T), 53 forklift trucks (capacity ranging from 3 T to 8 T.), 10 Tractor-trailers (capacity ranging from 20 T. to 30 T.). The overside unloading/loading of cargo is carried out with the help of a self-propelled floating crane "Bheema" (cap. 150 tonnes-the only one of its size in the country) and 28 lighters/

barges/pontoons. By a judicious blend of these cargo handling equipment, the port is able to handle all types of cargo including heavy lifts. Unusual cargo items of oversize and over-weight have also been handled at this harbour, such as :

* The import of 106 ft long and 120 tonnes heavy 'Purification Exchange Columns' for the Talcher Heavy Water Plant

* Unloading of heavy Housing-platemill stands two of them horizontal and weighing 267 tonnes each and one vertical weighing 136 tonnes, for Bhilai Steel Plant

STORAGE FACILITIES

The Port has five transit sheds abutting the quay wall with a total area of about 30,203 sq. metres which can accommodate about 48,100 tonnes of cargo. In addition to these transit sheds, there are two storage sheds and two warehouses with a total area of 24,700 sq metres and a capacity of 44,000 tonnes. Besides this, abundant open storage space of about 5.09 lakhs square metres with a capacity of 16.88 lakh tonnes is also available.

TRANSPORT NETWORK

For quick movement of export-cargo from the hinterland and of imported cargo into the hinterland, the port is well-connected with the hinterland by means of road and rail facilities. The port owns a railway system with a track length of 155 km and 20 railway sidings. The entire railway system operated by the port with the help of its 21 B. G. locomotives. This system is inter-connected with the national trunk-rail system at the Waltair railyard. The cargo moved by the port railways in 1979-80 was 8.44 million tonnes. Besides these transportation facilities, the port is connected by a pipeline to the local Refinery for transportation of petroleum and petroleum products

OTHER FACILITIES

In addition to the facilities required for the cargo handling purposes, the port provides other auxiliary facilities like port craft for the purpose of movement of ships, fire fighting equipment, both on sea and shore, water and oil barges for supply of water and bunker to the ships, dry-dock for repairing the Port crafts, etc. Repairing facilities for ships upto a size of 85,000 dwt. exists in the nearby dry-dock (800' x 125' x 38' - 7"), owned and maintained by the Hindustan Shipyard Ltd.

MANPOWER AND PRODUCTIVITY

The Port, along with its sister organisation, the Dock Labour Board, has on its rolls about 15,545 skilled and professional men. The Port is known for its tradition of disciplined output by its men who are at once dependable and adaptable. The cordial work atmosphere has helped this port to grow in its traditional areas of cargo and also to take on new items of cargo such as finished iron and steel products, coking coal, cement, paper, newsprint, tea, etc.

The effective performance of the port's varied equipment and trained man-power can be gauged from the following few indicators :

- * 24 hours turn-round time for 100,000 dwt. iron ore carrier.
- * 1.5 days turn-round time for a 33,000 dwt. oil tanker
- * Rate of loading of manganese ore about 2,000 tonnes a day
- * Discharge rate of bulk fertilisers—about 1,500 tonnes a day
- * Loading/Unloading rate of general cargo about 750 tonnes a day

Over the past decade, Visakhapatnam has come to be accepted as a convenient port by Steel authorities for import of machinery and export of finished products by the different steel plants.

PORT TARIFF

The port not only endeavours to provide the trade facilities such as man-power, equipment, berthing facilities, storage space, transport links, etc., but is also conscious of its obligation to provide a cost-effective service to the trade. This keenness is reflected in the port's tariff which is kept to the minimum, even in these days of spiralling inflation.

The Port's tariff consists of three distinct charges, approved by the Govt. of India, such as the vessel charges, wharfage charges and the handling charges. The charges vary according to the size of the ships and the type of cargo, and can be obtained from the "Scale of Rates" published by the port.

FUTURE PLANS

The Port of Visakhapatnam has acted as a catalyst in the process of the speedy industrialisation of its primary hinterland around the Port. It was the port that prompted the pioneers of ship-building in India to start the country's first shipyard at Visakhapatnam in 1941. Many other major industries like the Hindustan Petroleum Corporation's Refinery, Hindustan Zinc Ltd., Bharat Heavy Plate & Vessels Ltd., Coromandel Fertilisers Ltd., and several other intermediary industries have been attracted to Visakhapatnam primarily because of the port and the facilities it offers.

The latest addition to the list of these industries is the announcement in 1979 regarding the setting up of a Rs. 2,500 crore-steel plant with an estimated capacity of 4 million tonnes per year. This will be the first port based steel plant in the country. Visakhapatnam port is planning to handle the import of the entire machinery as also the export of finished products of the steel mill at a future date, just as it had done in the case of the Bhilai and Bokaro Steel Plants.

The port is also planning for a rapid expansion of facilities to handle different items of cargo as below :

- * Creation of mechanised handling facilities for the import of coking coal;
- * Installation of a fully mechanised handling system for unloading finished fertilisers;
- * Installation of mechanical handling facilities for export of alumina and bauxite; and
- * Construction of an oil berth in the Outer harbour to discharge crude oil from bulk oil tankers of 100,000 tonnes and above.

Over the four and half decades of its existence, the port and the industries in its hinterland have interacted with each other resulting in prosperity to the entire region and this will continue to be so in the years to come.

PORT DUES

The Port dues are collected at the following rates

	Foreign Trade	(in Rupees) Coastal trade
(a) Vessels handling 1500 tonnes or less	2.10	1.40
(b) Vessels handling above 1500 tonnes	3.20	2.10

PORT CHARGES

(a) Berth charges for handling iron ore (at outer harbour) per day or part thereof.	Rs. 10,000	—
Special quay dues per tonne of iron ore	0.50	—
(b) Quay berth charges (at inner Harbour) per day.	Rs. 2,127.50	1,595.60
Jetty/Mooring (at inner Harbour)	Rs. 1,063.80	797.90

PILOTAGE CHARGES

Vessels handling cargo of 1500 tonnes or less per 100 NRT.	Rs. 323.80	249.80
Vessels handling cargo above 1500 tonnes per 100 NRT.	Rs. 388.50	296.00

WHARFAGE CHARGES

The wharfage charges for principal cargoes handled at this port are given as under :

EXPORTS :

Iron ore per tonne	27.00
Manganese ore per tonne	5.80
Chrome ore per tonne	7.00
Iron & Steel per tonne	12.40
Pig Iron per tonne	10.80
Diesel oils per 100 ltrs	6.70

SITUATION

The premier natural Port is situated on the west Coast of India at the head of the Gulf of Cambay, about 320 Km. North of Eombay.

LOCATION

Latitude 21° 46' N.

Longitude 72° 14' E.

PILOTAGE

Pilotage is compulsory under Section 31 of the Indian Ports Act, 1908. It is advisable for steamers to arrive two hours before high tides at the Pilot Station, 8 Km. North-East of Piram-Light House at Lat. 21° 48' 45" N. Long 72° 21' 06" E. Qualified nautical officers are appointed as Pilots

TUG ASSISTANCE

The Port tugs are available for assisting the vessels entering or leaving the Bhavnagar Dock. At the time of entering the Dock, the tug is available at the pilotage station and accompanies the ship for assistance till berthing is completed. Similar assistance is rendered for unberthing of vessels

ACCOMMODATION

I. CONCRETE JETTY

This 268.8 metres long Jetty is constructed in the year 1937 with a view to providing quay accommodation for oceangoing steamers. The structure is of R.C.C. Piles with R.C.C. Slab Decking. The Jetty is designed to accommodate two 'Liberty' sized vessels simultaneously. The Ships remain afloat in all stages of tides and work without any effect of swell or current. The Railway siding is laid on the Jetty. Fresh water pipe line is also laid on the Jetty for supplying fresh water to ships. The Deep water Anchorage is 7 km away from the Jetty. The Jetty is well equipped with Cranes, Transit Sheds, Storage godowns etc for handling cargo.

II. NORTH QUAY

In the wet Dock, an R.C.C. Jetty is provided opposite to the Concrete Jetty. It is 141.4 metre long and can accommodate a ship of about 135 metre in length at present. Improvements works are planned to accommodate large vessels on this Jetty. Cranes are provided on this Jetty also.

STEEL JETTY

The Jetty 55.75 metre long situated at old port was constructed in the year 1927. The structure is of steel screw piles with concrete bracing. The Jetty is 11 km away from the new concrete Jetty, further up the creek and has extensive facilities for sailing vessels. Ample covered accommodation for storage of cargo is also provided.

AKWADA WHARF

The 126.8 m. long wharf on Akwada Creek is mostly used for port lighters, tugs, launches etc. for steamer cargo. A Railway line is laid on this wharf also. It is equipped with cranes and transit sheds nearby.

COMMUNICATIONS

A Wireless Station of 100 Watt is operated by the Port. The Call sign is VUJ-9. Post and Telegraph Offices are in the City. One Sub-Post Office has also been opened at the New Port.

FUMIGATION

Facilities of fumigation of Foreign Cotton through this port are provided. Two godowns of 743 sq. m. floor area are available for fumigation. Such facilities are available only at Bhavnagar port in Gujarat State which has been a great boon to the textile industry in the State.

BONDED WAREHOUSES

The Customs Department have extended the facility of providing bonded warehouse accommodation of 2756 sq.m. in the approved Port Godowns.

DRY DOCK

A small dry dock of 1230 sq. m. with 3.7 m. clear entrance also exists at the port for repairs to port fleet.

WORKSHOP

The Port maintains a well equipped workshop for repairs to port fleet.

WATER SUPPLY

The Municipality supplies water to the port through pipe line. The water supply to ships in stream is effected by water barge and to ships alongside the jetty by hydrants.

Cargo handling Facilities :

- (i) Tugs 9
- (ii) Launches 3
- (iii) Barges : —
18 of 100 tonnes capacity
5 Self propelled - 150 T. capacity.

FACILITIES AT THE PORT OF MACHILIPATNAM

BERTHING FACILITIES :

The Port of Machilipatnam is an open roadstead Port and the vessels anchor at the open anchorage. No separate berthing facilities are provided.

NAVIGATION :

One flashing Aga Light is exhibited about 1 1/2 miles East North Eastward of the port at an elevation of 43' from a white and black banded masonry tower.

POSITION

Latitude : 16° 09' 10" N.
Longitude : 81° 10' 50" E.

The characteristic of the light is 60 flashes per minute, white coloured, intensity of light 235 C.P. Range : 12 miles in clear weather.

The position of the bar (entrance channel) is indicated by exhibiting two bar lights, one red and the other white for the safe entry of harbour crafts into the canal.

There is a Morse Signalling station situated at the New Port Area. V.H.F. Radio has also been provided with International frequencies 12 and 16 to have direct communication with the ships at the Port.

A beacon is situated at a height of 45 feet which lies about 2 miles northwards of Machilipatnam port Light for taking bearings by the Masters of the ships calling at Machilipatnam Port.

The port Flag Staff is situated at the New Wharf for hoisting storm warning signals etc., for the guidance of the harbour crafts.

LANDING PLACES :

There is one long wharf at old port area. There are 4 RCC jetties at the New Port site to provide alongside facilities to Harbour Crafts.

COMMUNICATION

There is a regular sea communication with other Indian Ports. The Machilipatnam Town is connected to the General Railway system. The nearest Railway station being Machilipatnam Town and there is a Railway line running between the old Port and the Town for goods traffic only. Air service is available from Vijayawada which is at a distance of 42 miles from Machilipatnam.

WATER

Water can be supplied in barrels but not supplied to the vessels owing to difficulties in transportation. Water for the Port is obtained from the local Municipality.

ANCHORAGE

The anchorage for steamers calling at Machilipatnam Port is with the lighthouse bearing 270° from January to September and 288° from October to December, the exact location being according to depths. The roadstead provides good holding ground consisting of fine sand and mud. During the north-east monsoon, however, with a ground swell, communication with the shore is tedious and uncertain. The anchorage was surveyed by the Naval Hydrographic Department during 1958, and the chart published during 1962.

FLOATING CRAFTS

25 cargo boats with capacity of 40 tons each for transportation of cargo, one tug of 160 H. P. and two pablos of 30 H.P. each are available for towing work. There is a small workshop owned by the Port Department to carryout repairs to floating crafts.

MALPE (Karnataka State)

POSITION

Latitude 13° 21' N

Longitude : 74° 41' E

On West coast, 30 miles north of Mangalore in South Kanara district.

IMPORTS

Salt, grains and pulses.

EXPORTS

Fish and fish products, grains, coir and its products, tiles, timber, etc.,

ACCOMMODATION

Approaches to the port are generally rocky to the northward of the entrance and necessary precautions have to be taken. Southward of the entrance is a conspicuous line of islands, the most conspicuous of which has a white lighthouse, 59' high. Good anchorage is obtained by shallow drafted vessels 1 3/4 miles from the shore in a depth of 22 ft. on a transit bearing provided by a red and a green light near the port office. Deep drafted vessels obtain good anchorage in 33 ft. just south of this line with the lighthouse bearing 112° (T), distant 1 1/2 miles. Ships' motor boats must exercise care crossing the bar when making for the landing jetty.

EQUIPMENT

Loading/discharging by ship's gear through lighters. No bunkers or fresh water. Meat, vegetables and provisions available in small quantities.

MANDVI (Kutch)

ACCOMMODATION :

Location :

Anchorage working

Latitude : 22° 49' N

Longitude : 69° 21' E

FACILITIES AVAILABLE

(i) Berthing Facilities :

(i) Steamers can be worked at anchorage by lighters without draft, beam & length restrictions.

(ii) For sailing vessels working there are two wharves.

(ii) Cargo Handling Equipments :

(1) Tugs - 3 (2) Launches : 1.

(3) Cranes - One crane Mobile five tonnes.

(4) Barges - 10 Dumb barge.

(iii) Storage Facilities :

Enough covered storage, one transit and open plots available.

Cargo Handled :

	Import	Export	Total	Commodities under Import/ Export trade.
(i) 1977-78	2,730	4,843	7,573	Lignite, Bentonite,

SITUATION :

Okha is situated at the mouth of the Gulf of Kutch at the north west corner of the Saurashtra peninsula, about 323 sea miles from Bombay. It is a port endowed with a natural harbour providing shelter throughout the year.

LOCATION :

Latitude 22° 28' N and Longitude 69° 05' E

PILOTAGE

Pilotage is compulsory under section 31 of the Indian Ports Act 1908. Pilots board the vessels outside the harbour about 2 km north north west ward of Samiani Light tower. Vessels should make for position approximately Lat 22° 30'-33' N Long 69° 04'-36' E with Samiani Lighthouse bearing 159 distance 2.17 km to pick up the pilot or wait in the vicinity of this position.

PILOT LAUNCH :

This is a motor launch white in colour. A large flag horizontally divided white and red is hoisted at the mast while approaching vessel for embarking pilot.

TUG ASSISTANCE :

Port tug is kept ready for assisting the vessels entering or leaving the harbour. At the time of entering the harbour the tug remains ready at Samiani and accompanies the ship for assistance till berthing is completed. Same way the assistance is rendered for unberthing of vessels.

ACCOMMODATION .

SHIPS :

Okha is an all weather working port favourably situated for ships. Being situated on direct sea routes, ships can call at the port by diverting their course a few miles, without much loss of time or extra expenses. Steamer cargo of the port can be handled at

- (i) Roadstead closer to anchorage.
- (ii) Sayaji Pier,
- (iii) New Dry Cargo Berth, &
- (iv) Mooring buoy No 1 and 2 (presently M B No 2 is inoperative)

(i) ROADSTEAD CLOSER TO ANCHORAGE :

Vessels of deep draughts are anchored at "roadstead closer to anchorage" for working by lighters in fair-season. The working is easy. The distance from shore to Roadstead closer to anchorage is only 3.22 km. There is no particular draught restriction for working at Roadstead.

(ii) SAYAJI PIER :

The Sayaji Pier is reinforced concrete construction built in 1925. The pier has a 121.92 metre long frontage, projecting into the sea, connected by a 152.4 metres long approach joining the main land. The pier width is 12.5 metres but it is designed for berthing two vessels one on the eastern side and other on the western side. On eastern side 7.93 metres of water at low water ordinary spring tide is maintained and ships upto 164.59 metres in length (160.02 metres for the period from 15th September to 14th May) and suitable draught are berthed. On western side ships upto 92.96 metres in length are accommodated, depth of 6.1 metres at L.W.O.S.T. is at present maintained here. Berthing at Western side of the pier is done only under favourable weather condition.

The ships are berthed heading up the harbour in south west monsoon and heading down the harbour in north east monsoon. The vessels are turned round in the vicinity off the pier with the assistance of the port tug with starboard anchor.

The pier is served by two metre gauge rail tracks. Black oil and white oil pipe lines and fresh water pipe lines are also laid on the pier. Tankers discharge oil cargo directly into shore tanks of oil installation through pipe lines. Each span of pier is not to take any load more than 20.32 M.T. ; the span of pier is 6.1 metres. For lifting exceptionally heavy packages, previous application should be made to the Port Officer, Okha. The consignees have to arrange in time with the Railway for procurement of suitable railway wagons for direct discharge of cargo. A copy of load restriction on pier can be available from Port Officer, Okha on a reference.

(iii) NEW DRY CARGO BERTH :

The Berth is an R. C. C. structure with a frontage of 144.78 metres projecting into the sea and connected to the main land with a 236.22 metre long curved approach. The width of the pier is 13.72 metres. The pier is designed for berthing one vessel in the eastern side, where 9.14 metre depth at spring low water is expected to be made available. The first phase of dredging is over and the pier is now opened for small vessels up to 7.01 metres draught and 118.87 metres length. After the remaining dredging work ships of higher draught and longer length will be taken.

The pier is served by metre gauge rail track. The pier is also provided with 2 Nos. each of 2 Tons lifting capacity electric cranes. Fresh water pipe line is also laid on the pier. The feasibility of providing oil pipe line is also being considered.

Movement by motor trucks is also permitted at the new pier. Vehicles with total load of 15.24 M.T. are allowed at the pier. The designed load restriction of the pier are

- (a) Metre gauge railway loading, confirming to 1929 Main line loading with an impact factor of 33 p.c.
- (b) Class 'B' loading for 15.24 M.T. trucks.
- (c) A distributed load of 3.29 tonnes per Sq. M.

(iv) MOORING BUOY :

Two mooring buoys berths are provided for mooring ships in harbour stream. A ship upto 152.4 metres in length with draught not exceeding 5.18 metre is moored at Buoy No. 1. Mooring Buoy No. 2 is inoperative at present. Ships at mooring buoys can work during day and night with lighters. The mooring buoys berths are hardly 365.76 metres away from shore and hence working of ships is expeditious and easy. After the present dredging programme is completed, both the mooring berths will be operative for longer vessels and deeper draught.

BARGES :

For serving steamers at outer anchorage and mooring buoys, the Port has in all 10 steel dumb barges with total carrying capacity of 960 tonnes-nine of 100 tonnes capacity and one of 60 tonnes capacity.

CARGO-CUM-WATER BARGE :

There is one self propelled cargo cum water barge 'Varuna' having a capacity of 50 tonnes fresh water in tank and 40 tonnes of cargo in hatch. This is also used occasionally as launch and for towing dumb cargo barges.

TUGS :

The Port has 4 tugs from 220 to 350 B. H. P.

LAUNCHES :

There are two pilot launches and two general purpose launches.

CRANES :

3 Wharf cranes of 1 ton capacity each, one heavy lift broad gauge crane of 6.6 Tons capacity and one metre gauge heavy lift steam crane of 3.6 tons capacity and one hand operated crane of 1 ton capacity are also available. The new pier is equipped with 3 electric cranes of each 2 Tons capacity. Two mobile cranes of 6 ton capacity (12 T. blocked) are also available for yard handling.

ENGINES AND WAGONS

The port possesses 143 metre gauge wagons and three diesel shunting engines for cargo movement from storage to jetty.

STORAGE

There are 17 (Seventeen) godowns in the Port with 26620 Sq. Metres of storage area. The godowns are served by meter gauge rail lines.

MISCELLANEOUS

Port is served with telephonic and telegraphic communications. Fresh water pipe line is laid on pier and fresh water can be supplied directly on pier. Fresh water can also be supplied to the ships at mooring buoys and anchorage by self propelled barge which can supply 50 tonnes in a trip.

Bunker oil can be available by previous arrangements with I. O. C

There is a small workshop run by the Port which can undertake small repairs. The State Bank of India has its Branch at Okha. The Port is supplied with A. C. Electric power by the G. E. B. The pier, jetty and all port warehouses and yard are suitably electrified. The Gujarat Electricity Board supplies power at Okha.

Scindia Steam Navigation Co Ltd. Near Harish Talkies PORBANDAR			

SITUATION :

The port is situated on the South West sea coast of Saurashtra. Peninsula, facing Arabian Sea about 250 nautical miles North of Bombay.

LOCATION :

Latitude : 21° 38' N

Longitude : 69° 37' E

NATURE AND CLASSIFICATION :

So far the Port was a seasonal rodastead. However, recently, a project of development of Porbandar as an all weather direct berthing port has been completed at a cost of about Rs 13.5 crores so that now the Port is providing year-round direct berthing facilities. In addition it has also anchorage working facilities where cargo can be worked by means of port owned lighters. It is one of the four intermediate ports in India where ocean-going ship can work alongside

PILOTAGE :

Pilotage is compulsory under Section 31 of the Indian Ports Act, 1908. A vessel awaiting pilot should anchor, south of the breakwater end, about 1/2 km away where ample waters and good holding ground are available. Pilot boards the vessel in this area. Vessel coming on mooring buoy should keep one of the anchors chain ready before the Pilot boards.

PERMISSIBLE DRAUGHT :

The approach channel for navigation provides over 12.80 m. depth of water at Spring Low Waters. Depth available alongside the jetty is 9.75 m. at Spring Low water so that ships of upto 9.0 m. draught can be taken along the jetty and ships of upto 7 m. draught, at mooring buoy. Vessels can enter or leave the Port at any stage of tide. For ships at the jetty or mooring buoy there is no restriction about the length or beam.

During fair weather, ships can also anchor outside the breakwater area where there is no restriction or draught, length or beam of vessels.

ACCOMMODATION

STEAMER BERTH :

For providing a sheltered harbour, a breakwater has been constructed, which has a 13.4 m. wide roadway on top. On the lee side of the breakwater a 235 m long cement concrete wharf is provided for berthing of ships. Depth available is 9.75 m at Spring Low Waters. A platform of 235 m X 100 m is available behind the wharf.

MOORING BUOY :

A mooring buoy, where ships of upto 7.0 m draught can work cargo by lighters, is available.

FAIR WEATHER ANCHORAGE AREA :

Outside the break water end, there is ample deep water area where ships can anchor and cargo can be worked with lighters, during fair weather. There is no restriction in draught at the anchorage.

LIGHTERAGE WHARVES :

(i) On opposite shore of the Creek a 550 m length wharf is available where depth of 3.0 m is available at Spring Low Water.

(ii) Along the Old Port, lighterage wharf of 1220 m length is available where depth of 1.8 m is available at Low water.

EQUIPMENT :

The Port is well-equipped to handle cargo efficiently. Following equipment are available at the Port.

BARGES :

For working cargo with lighters, there are 19 steel dumb barges of 100 tonne capacity each.

TUGS AND LAUNCHES :

Following tugs are available :

1250 BHP tugs with 127 Bollard Pull	1 No.
350 BHP tugs	3 Nos.
240 BHP tug	1 No.
190 BHP tug	1 No.
120 BHP tug	1 No.
80 BHP tug	1 No.
Pilot Launch	1 No.

Following crafts are on order :

- 1250 BHP tug with 12 T Bollard Pull livered
- Pilot Launch

WATER BARGE :

One water barge of 45 tonne capacity is available for supplying fresh water to ships at the anchorage.

SHORE CRANES :

(i) Crawler mounted Tata P & H crane 955 ALC—1 No. — Capacity 25 t. at 30' radius and 2.5 t. at 100' radius.

(ii) Crawler mounted Tata P & H crane mounted on Pontoon—2 nos. (capacity 12 t. at 15' radius).
Priestman Cranes—2 Nos.
Capacity 6.5 t. at 25' radius.

WHARF CRANES :

3 Nos. Capacity 3 to 5 tonnes.

DREDGER :

Rock breaking dipper dredger 'Pashanbhed'. Capacity --100 tonnes per hour

HOPPER BARGES (DUMB)

100 tonne capacity 1 No

200 tonne capacity - 2 Nos

STORAGE & TRANSIT GODOWN

20.080 sq m

OPEN PLOTS FOR CARGO STACKING .

Ample area for storage of bulk cargo is available in the Port.

REPAIR FACILITIES .

Repair facilities for undertaking repairs to crafts owned by the Department are available at the Port. For this purpose a Dry Dock of 150 X 55 with 32 clear entrance and the sill level of () 2.5 ft is available. A good workshop for carrying out repairs to machinery and equipment is available at the Port in the town. there are several workshops which can undertake repairs to machinery, equipment etc.

WATER SUPPLY

Ample water supply is available at the steamer berth as well as at the lighterage wharves. For ships at the anchorage, water is supplied by means of a water barge.

CARGO HANDLED .

KSZ-C/CL Long-Stroke Diesel Engines

KSZ-C/CL is the type designation of our long-stroke engine series. Very economical fuel consumption rates and low propulsive speeds, accomplished by increasing the piston stroke, are the outstanding

ing features of these engines. The structural arrangement of the three types KSZ 52/105 C/CL, KSZ 70/150 C/CL and KSZ 90/190 C/CL is in line with the box-girder construction of the B/BL series.

The designation KSZ-C/CL stands for proven features with advanced engineering and guarantees the simplicity, operational reliability and economy of this engine concept.

M·A·N

M.A.N. Diesel Engines, D-8900 Augsburg 1, Postfach, W. Germany, Tel. 0821/3221, Telex 05-3751

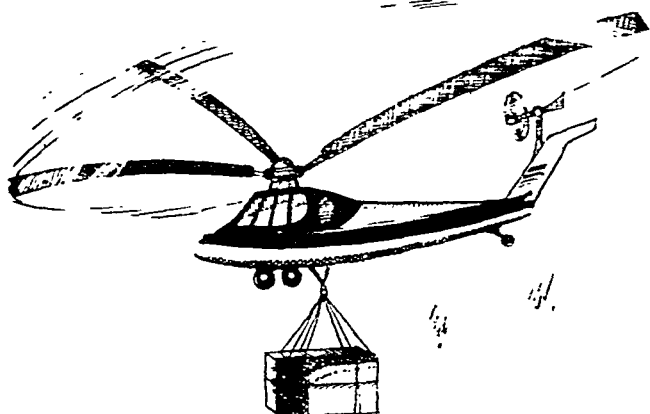

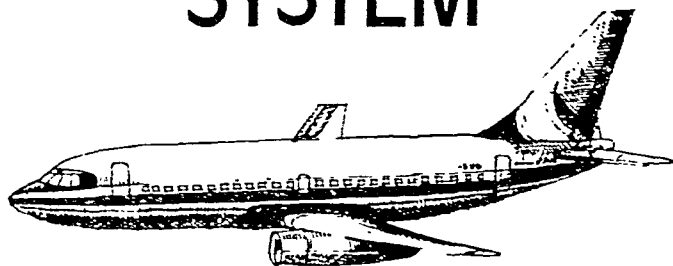

LIST OF INDIGENOUS MANUFACTURERS OF MARINE EQUIPMENT

Description of Item	Name of Manufacturer	Range of production
HULL EQUIPMENTS/ FITTINGS ETC.,		
Aluminium Sheets, Sections, Rivets	Indian Aluminium Co., Bangalore Lotus Trading Co., Calcutta Akan Asia Ltd., Calcutta. Aluminium Corporation of India Ltd., Calcutta. Indian Aluminium Products, Calcutta.	Standard sizes to I. S. specification.
Aluminium Ballustrades	E. C. I. E. Pvt. Ltd., Visakhapatnam. Almetal, EW Pvt. Ltd., Calcutta. Alduct India Pvt. Ltd., Secunderabad.	To customer's drawings/design
Anchors	Burn & Co., Calcutta	Max. size 5250 kg. Type: Stockless ISI: 32 67-65 & 32 68-65. Upto 5000 kgs.
Anchor Chain Cables	Bharati Electric Steel Co. Ltd., Calcutta. Mukand Iron & Steel Ltd., Bombay Indian Chain Manufacturing Co., Calcutta.	All within ISI Range. Capacity exists upto 58 mm and over not produced due to lack of raw material.
Cathodic Protection (Impressed)	Electro Corp Damp.	Impressed current system to suit shipowners requirements.
Cathodic Protection (Sacrificial)	Techno Lab Instruments, Madras Arim Metal Industries Ltd., Calcutta Indian Cathodic Protection Co. Ltd., The Aluminium Mfg. Co., Calcutta Allied Industries, Visakhapatnam.	Sacrificial. All sizes likely to be encountered for ship-build use.
Deck Machinery:		
Electro Hydraulic Deck Cranes	Jessop & Co., Calcutta.	Capacities and out-reaches are in the process of standardisation.
Electrical Winch	Mechanical Movements, New Delhi. GRSE, Calcutta.	Elec. driven 450 kgs. Static pull 1500 kgs. — do —
Anchor Windlass & Mooring Winch	GRSE, Calcutta.	To suit 58 ϕ stud link chain cable 2.5 to 3.0 tons dynamic pull: 8 tons static for lapping. Upto 42 mm ϕ stud with chain. Upto 15 tons.
Capstan	Geeta Engineering, Bombay Chitram & Co., Madras.	8-ton 3/5 ton & 12 ton capacity cargo winches. 1.5 tons dynamic pull. 8 tons static pull for lapping. — do —
Cargo & Topping	GRSE, Calcutta	Mechanical parts only for above ratings. 1 ton capacity.
Lifting cranes in accommodation spaces	Siemens India Ltd., Chitram & Co. Madras. K. C. P., Madras. Mantons, Bangalore.

Soup Boiler (Electric-cum-steam)	Kanthilal Chunilal, Bombay.	80 litre cap. 300" dia X 52" height.
Tea Urns (Electric)	Associated Products and Exports India, Bombay.	Upto 5 gallons capacity.
	Kanthilal Chunilal, Bombay.	

WORLD'S NEWEST NAVIGATION SYSTEM, MARK 2 from NCS

Third generation SatNav, MARK 2 incorporates all the best of its predecessors and adds the very latest state-of-the-art technology. The result. The finest in ultra-sophisticated navigation gear. Easier to use, more complete than any other system, MARK 2 is near-term upgradeable by the addition of internal OMEGA, Dual Channel SatNav, and external interface with LORAN C.

MARK2—what the others hope to become.

Description of item	Name of Manufacturer	Range of production
MACHINERY:		
Main Propulsion:		
Diesel Engines	Ashok Leyland Ltd., Madras.	82 BHP continuous rating. 106 BHP (1 Hr. Rating) at 2000 RPM.
	Garden Reach shipbuilders & Engineers Ltd.	5 to 9 cylinders, 225/1200 BHP. 375/1500 RPM K6Z 78/155 to 10500 BHP at 122 RPM - (The firm has collaboration arrangement with M/s. M. A. N. for powers upto 24,000 BHP).
	Kirloskar Cummins	130 to 250 BHP. 1500/1800/1900 2000/2100 RPM.
	Kirloskar Oil Engines Ltd., Poona	1,2,3,4. & 6 Cylinder engines 5 BHP to 495 BHP. 1200/1500/2000 RPM.
	Ruston & Hornsby (India) Ltd., Poona.	1,2,3,4. and 6 Cylinder engines 8.82 to 109 BHP. 1500/1800/2000 BHP.
Components for Diesel Engines:		
Axle shaft and angle support.	GRSE, Calcutta.	
3-way starting valve	Molins of India Ltd., Calcutta. Gebrudder Mitter.	
Cams, Bush & Nut for Camshaft.	Republic Forge, Hyderabad.	
Camshaft	GRSE, Calcutta.	
Charge Air Pipe, Bends, Air Cooler, Brackets, Console etc.,	"	
Connecting rod with cover.	Heavy Engg. Corporation, Ranchi.	
Cylinder Head	GRSE, Calcutta.	
Cylinder Liner	GRSE, Calcutta. Hindustan Machinery Traders, Rajkot.	
Ermeto connections and solder sockets.	Kwality Industries, Gebrudder Mitter Enterprises.	
Flywheel	GRSE, Calcutta.	
Flywheel Shaft	Heavy Engg. Corporation, Ranchi.	
Frames for 5 Cylinder	Jessop & Co., Durgapur Cooper Engg., Satara.	
Fuel Injection Pump	MICO, Bangalore. K. S. Diesels.	
Fuel Needle Valve	MICO Bangalore	
Fuel Supply Pump	GRSE, Calcutta.	
Fuel Tappet Guides & Valve tappet guide, roller tappets, push rod, ball heads.	GRSE, Calcutta.	

Description of item	Name of Manufacturer	Range of production
Gear Box	GRSE, Calcutta Kirloskar Pneumatic Co., Hadapsar, Pune.	
Gear Wheel, split gears camshaft gears	Metal Forge, New Delhi.	
Hand priming pump	Gebrüder Mitter, Calcutta.	
Inlet & Outlet valve.	Hindustan Aeronautics Ltd., Koraput. Hindustan Machine Traders, Rajkot	
Oil Coolers	Reliance Heat Transfer Co. Pvt. Ltd., Bombay. Garden Reach Shipbuilders & Engineers Ltd., Calcutta Mirex Heat Transfer.	
Oil Pressure, Control switch, limit switch Temp. Switch, Locking Solenoid & Alarm Plant.	Transpogear.	
Piston Pin, Cover and Clamping piece.	Associated Industries, Calcutta	
Piston Pin bush	Glietlager, Bombay.	
Piston ring	Hindustan Machinery Traders, Rajkot	
Frame for 6 cylinder	Heavy Engg. Corporation, Ranchi	
Safety Valve	Agro Engg. Works, Lucknow	
Sheating long and sheating short.	GRSE, Calcutta.	
Sinter Bronze bush	Mahindra Sinter Products	
Springs of all types	Jyoti Industries, Baroda.	
Terminal Boxes.	Gebrüder Mitter, Calcutta.	
Thermometers	Gebrüder Mitter, Calcutta	
Trimetal bushes for rocker arm (control lever outlet and inlet and drive lever)	Glietlager, Bombay	
Valve guide	National Iron Foundry, Agra.	
Valve guards	GRSE, Calcutta.	
Vibration damper for for crankshaft and camshaft	Bathboi, Udhna. Molins of India, Calcutta.	
Vibration Damper Casing.	GRSE, Calcutta.	
Pressure gauge panel	Bestobell. Gebrüder Mitter Enterprises.	
Services for manufacture of Components:		
Cam Profile testing.	Carriage Loco Works, Chittaranjan.	
Machining, gear cutting etc.	Heavy Machine Tool Plant, Ranchi. GRSE, Calcutta. Molins India N. C. D., Korba Heavy Engg. Corpn., Ranchi Small Tools & Allied Mfg. Co., Ranchi. Admiral Engg. Works, Rajkot.	for cylinder frames; cutting of gear teeth. Machining connecting rods. Gear teeth cutting. Gear cutting & machining of gears Gear cutting and drilling for machining of cams, bushes, nuts for camshafts etc.
Nitriding	Hindustan Aeronautics Ltd., Koraput. GRSE, Calcutta.	

Description of item	Name of Manufacturer	Range of production
Gear Boxes	GRSE, Calcutta.	Upto 1200 bhp.
	Ghatge Patil Industries, Kolhapur.	Upto 12 hp 2:1 - 1800 rpm.
	New Allenberry, Calcutta.	In collaboration with Renk, West Germany for coaxial & vertically off-set; ratios 1:1 :: 5:1.
	Kirloskar Oil Engines Ltd., Poona.	85 HP to 2000 HP.
	David Brown Greaves Ltd.	for engines upto 109 HP and ratios 1:1 to 4:1.
	Kirloskar Pneumatic Co. Ltd.	Mechanically and Hydraulic. Ratios 2:1 - 3:1 - 3.5:1 - 4.14:1 1.97:1 - 2.5:1 - 85 bhp - 530 bhp 1000 to 2000 rpm.
Propellers	Bengal Ingot Co., Calcutta.	Special cast bronze propellers upto 2.5 tons.
	Bharati Engg. Co., Bombay Geetha Engg., Bombay.	Ranging up to 2m. Manganese bronze: Upto 2000 mm., max. wt. 550 kg. Proposes to manufacture C. P. Propellers in collaboration with M/s. Ulsten Propellers A/S, Norway.
Propeller shafting	S. C. Paul & Co., Calcutta.	Upto 0.75 ton.
	Bharati Engg. Co., Bombay.	For HP below 500 and diameter Upto 150 mm.
Intermediate shafting	Geetha Engg., Bombay.	Stern gear for horse powers below 500.
	Heavy Engg. Corporation, Ranchi.	Maximum dimension 546 mm dia. 11 M long and wt. 21.0 tonnes.
	Ruston & Hornsby (India) Ltd., Poona.	Stern gear for HP below 500.
AUXILIARY SERVICES FOR PROPULSION MACHINERY:		
Air Receivers	Bharat Heavy Plate & Vessels Ltd., Visakhapatnam.	Upto 2,500 litres cap. 30 kg./cm ² .
	GRSE, Calcutta.	Upto 500 litres cap. Upto 32 mm the C. S
	Kavery Structural, Madras.	Upto 500 litres cap. 30 kg/cm ² pressure.
Air Compressors	Walchandnagar Industries Ltd.,	380 mm ID X 10 mm X 1203 long.
	Kirloskar Pneumatic Co. Ltd.,	Two stage at 620 rpm. discharge pressure 450 psi 2.2/4.5 m ³ 30/50 kg/cm ²
	K. G. Khosla, New Delhi.	5.95 to 8.5 ³ /hr. discharge pressure 30 kg/cm ² .
Heat Exchangers	Anup Engg. Ltd., Ahmedabad.	32 mm thick carbon steel/25mm s.s.
	Bharat Heavy Plate & Vessels Ltd., Visakhapatnam.	2000,000 K. Cal/hr under development.
	Reliance Heat Transfer Pvt. Ltd., Bombay.	Sizes likely to be encountered for ship load use upto 32 mm thickness carbon steel.
	GRSE, Calcutta.	Sizes likely to be encountered for ship load use upto 32 mm thickness
	Gujarat Machinery Manufacturers Ltd., Karamsad.	22 mm thickness carbon steel/25 mm ss.
	Sarabhai Machinery, Baroda.	22 mm thick carbon steel/25 mm ss.
	Testeels Ltd., Ahmedabad.	32 mm thick carbon steel/25mm s.s.

Description of item	Name of Manufacturer	Range of production
Lub Oil & Fuel Oil Purifiers.	Pennwalt India Ltd., Bombay. Vulcan Laval, Bombay.	Upto 3400 litres/hr 15,000/18,000 rpm bowls Upto 3400 litres/hr 15,000/18,000 rpm bowls

ASEA with its 100 year old experience now has remote control system of high degree of reliability and economy. The system can be used with all types of diesel propulsion machinery on ships. It has the advantages of:

- The right processing system for the job
- Simplified installation
- Standardised system design
- Engine speed control
- Start, stop and reversing

AUTOMATIC REMOTE CONTROL

for marine propulsion

ASEA's resources ensure the availability of spares and servicing of equipment components all over the world.

ACCOMMODATION, BERTHS, LENGTH & DEPTH

Karachi Port has (24) Berths on East & West sides of the Channel for dry Cargo and Passengers vessels, varying in Length between 484 ft to 550 ft. Another (4) Berths varying in Length between 400 ft to 1000 ft with a Draft of 32 ft. for oil Tankers are working. In addition to Oil Pier, Berth No. 20 at West Wharf is also used for discharging Mineral and Vegetable Oils. However Petroleum Products are discharged only at Oil Piers. Also there are Two Ship Repairing Berths at West Wharf of 202 Meter Long for 600 ft. and Depth of 24 ft can easily accommodate small/Medium Coasters. The Port Authorities are constructing another Jetty of about 2000 ft long at Juna Bunder (South side of the Channel) for Barges and Small Coasters with covered Transit Sheds and Open Cemented Plinths.

Sanctioned Depth at L.W O.S.T. of the entrance channel is 29ft General Cargo vessels drawing 27 ft. can enter or leave the port, but the Deputy Conservator may allow vessels of deeper draft depending upon Tide and Depth available at Berth. Oil Tankers and Bulk Carriers carrying Wheat drawing upto 32 ft. are permitted to enter subject to availability of Tide and Depth at the allocated Berth.

Large Transit Sheds Fully covered varying in Length between 500 ft to 590 ft long for Dry Cargo and (4) covered Sheds for Afghan Transit Cargo are located on both the Wharves. (4) Open Car Sheds, One Umbrella Shed and (13) Cemented Concrete Open Plinth are used for storing General Cargo. (Such as Machinery, Heavy Lifts Cars and Scarps of all kinds etc.)

A Large covered Transit Shed is available at another Jetty known as GHASS BUNDER (N.M.B Wharf) for Afghan Transit Cargo and Personal Baggage and Partly Cemented and Partly Wooden Built Wharf for Small Sea Going Vessels and Country Crafts. Launches with complete Facilities from the Port Authorities for Working Day and Night for Import and Export Cargo are available here

BARGES FACILITIES

A Fleet of (500) Barges of various Private Companies are available in this Port. Barge are Capable of Loading from 250 Tons to 700 Tons of Cargo. Barges are getting quick Turn for discharging at Lighterage Berth and even getting space between Two vessels.

EQUIPMENT (CRANE FLOATING ETC)

Karachi Port Authority provides shore Electric Cranes (110) in Numbers of 3 Tons each on every Berth as and when required and also has a Fleet of (80) Mobile Cranes from 5 Tons to 25 Tons of Loading Capacity. Port Trust has also Floating Heavy Cranes upto (150) Tons of Capacity.

DRY DOCKING FACILITY

Dry Docking Facilities are also available in Karachi. The Concern are known as Karachi Shipyard & Engineering Works Ltd..

CONTAINER HANDLING FACILITIES

Karachi Port has a very Large Container Yards on both the Wharves-Most of the Principals has their Own Equipments to handle the Container. Such as American President Lines and Hanza Line, French Line has their Own Equipments, Fork Lifts, Trailors and Cranes etc. Those who had no Equipments they hire from Local Transporters and Crane Hiring Companies.

STORAGE

Karachi Port Authorities providing good facility in Storing the Cargo in their Transit Sheds as soon as the cargo discharge from the vessel to Protect from any loss or damage. The port authority are constructing very large covered Transit Sheds and open Plinths for Storing the Cargo on M.I.Yards and Juna Bunder Area.

* minor repairs are available. There are two lighterage berths each having a length of

PRE-WAREHOUSING

The Sri Lanka Ports Authority provides facilities for pre-warehousing of export cargoes. These facilities serve to ease congestion in shippers stores and ensure quick despatch to loading vessels. Opening dates are given in advance to Shippers to pre-warehouse their cargoes, seven days storage prior to arrival of loading vessels being provided free. These facilities are now available at Queen Elizabeth Quay, Bandaranaike Quay and the Export Unit at the lighter loading point at Baghdad.

SHIP REPAIRS

The Port of Colombo provides excellent dry-docking facilities for the repairing and re-conditioning of all types of vessels. The Colombo Dockyard Ltd., a limited liability Company, are the leading Ship Repairs in Sri Lanka. The Company owns and operates three Graving Docks in the Port of Colombo, the largest of which could accommodate vessels up to 30,000 D.W.T.

With a highly skilled Work-force supervised by qualified and experienced Engineers in this field, they provide in round-the-clock service and undertake all Dry Dock repairs including all types of tail shaft, stern tube and rudder repairs. They also execute any type of afloat repairs, steel renewals, rope repairs overhaul of cargo lifting gear, repairs to hatches, re-winding of motors, carpentry of canvas work, engine overhauls, cleaning of tanks, boiler work, refrigeration and air-conditioning repairs.

Drivers' services are also available for underwater cleaning, inspection and repairs.

COLOMBO - BUNKER SERVICES

The corporation operates 5 Bunkering Barges with capacities ranging from 450 tons to 1000 tons D.W.T. and discharge capacity between 50 to 300 tons per hour. Bunker supplies are made available by Barges at all piers, mid-stream berths and also at anchorage outside the Harbour, provided weather conditions permit. Marine Fuel Oil 180 Cst, Marine Fuel Oil 120 Cst, Marine Diesel Oil and Marine Gas Oil available and intermediate grades of Fuel Oil could be supplied by arrangement. A full line of Marine Lubricants and Greases. (Shell, Esso, Caltex, B.P. and Castrol) are available in drums and prompt delivery could be arranged with prior notice.

TRINCOMALEE - BUNKER SERVICES

Marine Fuel Oil 120 Cst. and Marine Gas Oil can be supplied directly at the Ceylon Petroleum Corporation's No.1 Jetty at China Bay at a maximum draught of 9.5 metres. This facility is also available to all grain carriers at the Prima Jetty at a draught of 12 metres. Marine Lubricants can be supplied by prior arrangement.

STORAGE FACILITIES

The Ceylon Petroleum Corporation offers excellent storage facilities at their China Bay Installations which consist of 98 vertical cylindrical fixed roof storage tanks with a capacity of 1,000 tons each and located between elevations of +6 metres and +27 metres above sea level. Three 12" diameter pipelines ex No. 11 Jetty are available for loading and discharge facilities. Further particulars in regard to leasing arrangements, could be obtained on request.

FRESH WATER SUPPLY

A well-maintained fleet of eighteen water Barges, works round-the-clock to supply fresh water to ships. The water is supplied from a protected source and is periodically tested for purity.

Ships in the stream are supplied with water from water Boats, while ships berthed alongside the three major quays - the Queen Elizabeth Quay, Bandaranaike Quay and Prince Vijaya Quay, will in the near future, be supplied by hydrants on shore.

TRANSHIPMENT

The port of Colombo offers to all Shipping Lines that sail on the routes to the Far East, Australian Ports, the ports in the Persian Gulf, the Bay of Bengal and the East and South African Ports, an ideal entrepot for the transhipment trade. The Port itself is fully geared for handling a very sizeable quantity of transhipment cargo.

Up-to-date equipment is being installed at the Container Terminal at Queen Elizabeth Quay, specially to handle containers carrying transhipment cargo. Special arrangements have been made for security of transhipment cargo.

FUMIGATION SERVICES

All import grain in bulk is fumigated at mid-stream under the supervision of the Port Health Officer.

The Department of Agriculture maintains a Plant Quarantine Station within the Port of Colombo. "Phytosanitary Certificates" are issued after treatment for all exports. Plants imported are inspected and treated, wherever necessary.

PILOTAGE

The Port of Colombo is open for movement of vessels day and night, and pilotage is compulsory. The Port Pilot Service is manned by nine experienced Pilots. They perform all pilotage services including berthing, un-berthing and shifting of ships from berth to berth.

The Pilots operate from the Pilot Station situated close to the western entrance to the Port, and they could be contacted on V. H. F. Channel 16. The Pilots board the incoming vessels one mile outside the entrance and take sail outgoing vessels.

ANCHORAGE

Excellent accommodation is provided for vessels up to 40,000 DWT behind breakwaters; with safe approach at any hour.

Western Entrance - 230 m. \times 11.5 m.

Northern entrance - 190 m. \times 9.5 m.

Safe anchorage is available outside the harbour for vessels of all sizes.

DIVING SERVICES

The Ports Authority maintains a staff of qualified shipwright Divers for the service of under-water work required on Authority craft and outside shipping.

DREDGING

The harbour area and approaches are maintained by regular dredging and hydrographical work in the way of soundings and sweepings in and outside the harbour, and provision of navigational buoys.

CONTAINER TERMINAL

New container Terminal is in the Queen Elizabeth Quay. This Terminal is 300 metres long with a draught of 12.8 metres L.W.O.S.T. and is ready to handle all container vessels plying on the U.K./continental/Australian/Far Eastern/American routes. The Terminal also provides approximately 3.2 hectares of additional space adjacent to it to serve as a Marshalling and Stacking Yard for Containers awaiting removal outside the port premises, export, transhipment and for stuffing and stripping of Import/Export cargo.

The Port handles an average of 5,000 T.E.U's a month and additional stacking area is available within the port premises. The Management is making arrangements to instal a Gantry Crane at Queen Elizabeth Quay to meet the increasing demand for Container handling.

FUTURE DEVELOPMENT

The following proposals will be taken up for Future Development. Development and construction of a 900-metre alongside deep water Quay berth to accommodate three third-generation container vessels; and establishing a proper Container Terminal providing the required Gantry Cranes and other shore mechanical equipment along with CFS and Container Yard facilities. Two of these berths are expected to be completed in 1983. Preliminary sub-soil investigations have already been started.

Development of the North Pier for alongside handling of cargo.

Widening of the Harbour entrance to secure safe entry for larger and deeper vessels, with an extension arm to the Breakwater for extra protection of the Harbour basin.

Carrying out of a feasibility study for a new Oil Berth including sonic sounding in the approach channel.

Providing for container cranes and container handling equipment and all other back-up services.

Providing a system of road and rail transport in the Port and zoning off areas for different activities.

PORT OF GALLE

The Port of Galle (latitude 6° - 1° N and longitude 80° - 13° E), is situated on the South West Coast of the Island.

This Port serves as an outlet for Tea, Rubber, Coconut and other traditional exports produced in the Southern region, and handles imports such as Rice, Flour and Fertilizer. The cargo-handling operations in the Port of Galle were nationalised on 1st October, 1964.

BERTHS

The Port is a natural Harbour with an area of 320 hectares and provide facilities to berth in the stream 4 vessels during the South-West Monsoon period (April - November)

The new quay wall constructed recently provide alongside berths, for 2 small vessels. In addition to these alongside berths, there are five lighter landing points and five Mobile Cranes for working of lighter cargo. There are barges available for lightering.

STORAGE FACILITIES

Transit Sheds adjacent alongside berths have storage space of 557,559 square metres 12,000 tons of bag cargo could be stored in these Sheds and they have direct rail and road connections

PORT OF TRINCOMALEE

GEOGRAPHICAL LOCATION :

Latitude : 8°-36' N

Longitude : 81°-15' E

PORT AREA :

Approximately 5,261 hectares of land and 2,023 hectares of sea

Trincomalee Harbour, which was formerly a British Naval Base, was taken over by the Sri Lanka Government in 1956, to be developed as a commercial port. Situated on the North-East coast, it is one of the finest natural Harbours in the world and can accommodate over a hundred ships

The cargo-handling operations in the Port of Trincomalee were nationalised on 26th October 1967. The bulk of the tea exported from Sri Lanka, is shipped through this Port. The Port of Trincomalee is at present a lightering port and is connected with road and rail links

The Ceylon Petroleum Corporation supplies oil to bunkering vessels

The construction of the Flour Milling Complex at China Bay by Prima (Ceylon) Ltd., is now almost complete. When in operation this will have a capacity to mill up to 2,220 metric tonnes of Wheat per day

A main feature of this Flour Milling Complex will be the construction of a Jetty at China Bay to accommodate one ship of 40,000 metric tonnes and a Quay to accommodate two coastal vessels of 3,000 metric tonnes.

The project is expected to be completed by the end of 1980

STORAGE FACILITIES :

Mudcove and Love Lane	:	Provide storage space for 30,000 tons Cement, Fertilizer or Rice.
T.T.A. Wharf at China Bay	:	Has Storage space for 50,000 tons of Tea
Clappenburg	:	Has storage space for 32,000 tons of Food cargo

PORT DUES ON VESSELS :

Per G.R.T.

Entering Dues	50 cts (Fifty cents)
Pilotage in and out	60 cts (Sixty cents)

GENERAL PROVISIONS :

- PROVISO
- (i) Where a vessel's stay in port exceeds 96 hours (4 days) but does not exceed 288 hours (12 days), one half of entering dues shall be added;
 - (ii) Where a vessel's stay in port exceeds 288 hours (12 days) the same charge shall be paid outwards;
 - (iii) Where a vessel has paid port dues for entry or for clearance outwards, she shall not be liable for additional port dues for goods carried coastwise during the same voyage;
 - (iv) A vessel leaving port for period not exceeding twelve hours for the purpose of trying her machinery or of throwing overboard any damaged cargo shall, for the purpose of this Schedule, be deemed to be in port and shall be liable on re-entry to pay only the full pilotage dues chargeable in respect of such vessel for a first entry into port. The period during which such vessel has been out of port shall, for the purpose of buoy rent, be considered as part of her stay in the port.
 - (v) **Vessels outside Harbour**
Vessels anchoring outside harbour are exempted from paying entering dues, provided they carry out NONE BUT the following operations : -
 - (a) visual signalling :
 - (b) discharging sick and injured persons, their attendants and families, stowaways and persons overcarried.They shall pay pilotage due and the charge levied for stream berths within the harbour from the 5th day onwards.
 - (vi) Where a vessel is moved either from an alongside berth to a buoy/stream berth or vice-versa, that total period allowed at both berths should not exceed 96 hours
 - (vii) **Exemption**
Sri Lanka Naval vessels and foreign Man-O-Wars shall be exempt from Port Dues and Pilotage Dues

1 : 3 Port Dues on Harbour Craft

Port dues shall be payable at the time of issue of the licence of the harbour craft on or before 15th January of each year. Port Dues shall be payable upto 31st December each year. No refund shall be made of any Port Dues paid annually

TONNAGE DUES :

All cargo loaded or discharged

Per Tonne or part thereof
Rs. 5/- (Rupees Five)

Proviso : Cargo brought to the port for transshipment shall be free of Dues under this heading If it is not landed or if being landed, is not entered for Duty

NOTE : (a) Tonnage of cargo shall be reckoned according to scale approved by the Sri Lanka Ports Authority

(b) Where no scales are approved, tonnage of cargo shall be reckoned on the weight, or measurements, whichever is more

MOVEMENT OF VESSELS AND MOORING :

Pilotage per movement within harbour

Per G. R. T
30 cents (Thirty cents)

TUG SERVICES :

Per Tug per movement

(i) For berthing on entering and unberthing on leaving harbour and assisting vessels changing berths within the harbour - per tug

Rs. 2,000/-
(Rupees Two thousand)

(ii) For attending vessels shifting berth within harbour which are not under command - per tug per hour

Rs. 4,000/-
(Rupees Four thousand)

(iii) For attending vessels not under command outside harbour but within port limits - per hour

Rs. 6,000/-
(Rupees Six thousand)

(iv) For hire of tugs for work outside the harbour and outside port limits

Charges to be fixed by the
Sri Lanka Ports Authority

(v) For use of Fire Hydrants - per hour

Rs. 2,000 -
(Rupees Two thousand)

(vi) For supply of steam to a vessel from a Tug - per hour

Rs. 3,000/-
(Rupees Three thousand)

Conditions of Hire :

(a) An agreement must be signed by the Charterer on the despatch of the Tug, agreeing to the insurance of the Tug, the officers, crew and salvage gear at rates laid down by the Chairman, Sri Lanka Ports Authority, with whom the policies effected must be deposited

(b) All tackle, stores and equipment lost or damaged, shall be replaced at the expense of the Charterer, to the satisfaction of the Chairman, Sri Lanka Ports Authority, or will be charged at rates approved by him

(c) For the purpose of assessing these charges, the Tug shall be deemed to be engaged from the time it ceases to be available for ordinary harbour duty, until the time it is again available for ordinary harbour duty

RATES FOR SUPPLYING FRESH WATER

(PORTS OF COLOMBO, TRINCOMALEE AND GALEE)

Rates for supplying fresh water	:	Rs. 30.00 - 1000 litres or part thereof
Minimum charge for supplying water	:	Rs. 100.00
Water supplied after normal hours on Sundays and Holidays		
During Overtime hours on week days	:	20% more
Sundays and Holidays	:	50% more
Standby charges or detention charges during normal hours	:	Rs. 25.00 per hour or part thereof
During overtime hours on weekdays	:	Rs. 37.50 per hour or part thereof
During Sundays and Holidays	:	Rs. 40.00 per hour or part thereof

NOTE: Charges will be levied for the quantity of water supplied calculated to the nearest 1000 litres.

PROFESSIONAL PILOTAGE FEES:

	Per movement
(i) Vessels up to 30,000 GRT	Rs. 360/- (Rupees three hundred and sixty)
(ii) Vessels above 30,000 GRT	Rs. 480/- (Rupees four hundred and eighty)
(iii) Vessels warping alongside the Quay	Rs. 120/- (Rupees One hundred and twenty)

NOTE: The above charges will be increased by 50 per centum under the following circumstances:—

- (a) Work done between 6.00 p.m. and 6.00 a.m.;
- (b) For towing a dead vessels from outer harbour to inner harbour or Vice versa.

Definitions: A "dead vessel" being one which is completely devoid of engine power.

"A movement" is executed when a vessel changes place of occupation to the final intended position or re-moors in the same position or any other berth due to breakdown or any other reason.

PILOT DETENTION FEE:

If a pilot boards on to a vessel in accordance with the order placed for such pilotage service and is kept for more than One hour, a fee of Rupees One Thousand (Rs. 1000/-) shall be chargeable in addition to Tariff Item No. 2

BUOY BERTHS STREAM ANCHORAGE:

All vessels and floating craft lying within the harbour whether at buoys or on their own anchors

PER GRT PER DAY
10 cts.
(Ten cents)

Proviso: This charge shall not be payable in respect of any time during which a vessel is on the slip or in Dry Dock after the Commencement of Buoy Rent.

RATES FOR DISCHARGING AND LOADING CARGO

1 IMPORT BAGGED CARGO

(a) Bagged cargo (other than bagged cargo specified in (b) and (c))	32.00	per M. Tonne or part thereof
(b) Fertilizer bagged cargo worked by shift gangs	48.00	do.
(c) Other bagged cargo worked by shift gangs	63.00	do.

2 IMPORT GENERAL CARGO :

40.00	per M. Tonne or part thereof converted at 2,205 lbs. (M. Tonne) where weight exceeds measurement.
35.00	per M. Tonne or part thereof converted at 35,316 cu. ft (CBM) where measurement exceeds weight.

3 EXPORT CARGO :

(a) For measurement tonnage	31.00	per cu. Metre or part thereof.
OR		
(b) For dead weight tonnage whichever is higher for revenue.	46.00	do.

4 SPECIAL CARGO

(a) Cool Room Cargo and Bulk cargo	83.00	per M. Tonne or part thereof converted at 2,205 lbs. (M. Tonne) where weight exceeds measurement.
Cool Room Cargo and Bulk Cargo	74.00	per M. Tonne or part thereof converted at 35,316 cu. ft. (CBM) where measurement exceeds weight.
(b) Bulk cargo worked by shift gangs	124.00	per M. Tonne or part thereof.
(c) Bulk Tallow	25.00	do.

5 ANIMALS, BIRDS AND REPTILES ALIVE :

(a) Birds including poultry	each	2.00
(b) Animals small such as dogs monkeys, pigs, sheep, goats etc. and reptiles	each	5.00
(c) Animals, large such as horses, ponies, buffaloes, cows etc.	each	160.00
(d) Elephants, Lions, Tigers etc.	each	400.00

OVERTIME CHARGES

(a) RATES FOR EXTRA LABOUR CLASS OF WORKER	For every 4 hours or part thereof	For work performed during Meal Interval
Foreman	42.00	26.00
Winchman	30.00	15.00
Labourer	28.00	14.00
Serang / Lighterman	40.00	20.00
Tindal	35.00	19.00
Supervising Officer	}	
Lighter Supervisor		
Asst. Superintendent		31.00
Tally Clerk	38.00	19.00

(b) (i) A Surcharge of 50 /-. is payable for work done after 0400 hours during normal night shifts.

(ii) A Surcharge of 100/- is payable for work done during Sundays and Holidays.

RATES FOR TRANSHIPPING AND RE-SHIPPING CARGO

1. Direct Transhipment from ship to ship

	Rs.	CTS
(a) Without the use of lighters		
(i) Cargo in bags	8 00	per M.Tonne (2,205 lbs) or Cubic Metre Where measurement exceeds weight
(ii) General Cargo	24.00	per M. Tonne (2,205 lbs) or Cubic Metre Where measurement exceeds weight
(b) With the use of lighters, where both ships are in the port at the same time and the cargo is not landed into the warehouse		
(i) Cargo in bags	14.00	do.
(ii) General Cargo	28.00	dc.

2. Receiving into lighters, warehousing and re-shipping transhipment cargo.

Receiving into lighters, landing in warehouse and re-shipping, subject to the transhipment being landing into warehouse

(a) Cargo in bags	24.00	per M. Tonne (2,205 lbs) or Cubic metre where measurement exceeds weight for every 28 days or part thereof
-------------------	-------	--

(b) General Cargo	32.00	<i>per M. tonne (2,205 lbs) or Cubic metre where measurement exceeds weight for every 28 days or part thereof</i>
(c) Shut-out Charges	Where cargo is shut-out, a charge equivalent to double the rate will be applicable	
3. (a) For Cargo 100 tonnes and above This charge of Rs. 94.00 per tonne will be levied on the vessels which discharged the Transhipment cargo of 100 tons and above	94.00	<i>per M. Tonne within 28 days</i>
(b) For cargo transhipped after 28 days, in addition charge at 3 (a) the following charges too will be levied :		
(i) For Transhipment effected after 28 days but not exceeding 56 days	6.00	<i>per M. Tonne</i>
(ii) For Transhipment effected after 56 days but not exceeding 84 days	12.00	<i>per M. Tonne</i>
(iii) After 84 days for every 28 days or part thereof	36.00	<i>per M. Tonne</i>
(c) Stevedoring charges as at present in respect of Transhipment cargo will be levied for		
(a) Work beyond normal hours;		
(b) Extra Labour;		
(c) Detentions;		
(d) Work done during meal interval		
(d) Shut-out Charges		
Where cargo is Shut-out, a charge equivalent to double the rate will be applicable.		
4. LIGHTER DEMURRAGE		
Where due to the inability of the receiving ship to accept cargo within a period of 72 hours from the time the lighter arrives alongside the receiving ship, charges for lighter demurrage are payable.		
5. MINIMUM CHARGES		
The above rates shall be Subject to a minimum charge of Rs. 100.00 for Transhipping any one consignment of cargo direct from ship to or receiving into lighters, landing, warehousing and re shipping transhipment cargo.		

DOCKAGE :

Dockage charge shall apply on every vessel from the time such vessel occupies a berth at the Authority's wharves until the time it departs from the berth

- (i) Alongside berths
- (ii) For every hour or part thereof after two hours has elapsed from the completion of loading/discharging cargo

Per 100 GRT or part thereof
Per hour or part thereof

Rs. 6.00 (Rupees Six)

Rs. 30.00 (Rupees Thirty)

However, this penal rate will not apply to Tankers for the first six hours.

NOTE : (1) The above charge will also apply to Guide Pier and the Oil Docks.

- (2) The charges will not apply to ships berthed alongside Guide Pier for dry docking. However those berthed alongside for repairs, afloat, will be liable for these charges.

PORT DUES ON IMPORTANT EXPORT CARGO :

- (i) Import/Export/Re-shipment/Transshipment cargo
- (ii) Crude oil in bulk imported, exported or transhipped
- (iii) Other Petroleum products
- (iv) Coconut oil in bulk
- (v) Other bulk cargo
- (vi) Motor cars, vehicles
- (vii) Cycles, Motor cycles
- (viii) Animals or Birds

Port dues on Cargo per tonne or part thereof

Rs. 10/- (Rupees Ten)

Rs. 05/- (Rupees Five)

Rs. 10/- (Rupees Ten)

Rs. 10/- (Rupees Ten)

Rs. 05/- (Rupees Five)

EACH

Rs. 100/- (Rupees One hundred)

Rs. 25/- (Rupees Twenty Five)

Rs. 10/- (Rupees Ten)

HIRE OF OTHER FLOATING CRAFT

This plant will normally not be available for hire. Hire under special circumstances will be considered, if they can be spared by the Chief Engineer.

Name of Craft

- i) 10 ton Digger Rs. 400/- (Rupees four hundred)
- ii) 5 ton Digger Rs. 300/- (Rupees three hundred)
- iii) Hopper Barge Rs. 100/- (Rupees one hundred)
- iv) Punt Rs. 50/- (Rupees Fifty)
- v) Anchor Boat Rs. 100/- (Rupees one hundred)

- (a) On Saturdays, Sundays, holidays and outside normal working hours, the charge will be DOUBLE
- (b) Working hours shall be 7.00 a.m. to 12.00 noon and 12.30 p.m to 4.30 p.m
- (c) Charges for use of towing the craft will be according to rates laid down for launches and small towing tugs. Time will be reckoned from the time it arrives at site to time it leaves the site.

USE OF LAUNCHES AND SMALL TUGS

	Per $\frac{1}{2}$ hour or part thereof
I) Inside Harbour	Rs. 300/ (Rupees three hundred)
II) Outside Harbour	Rs. 600/- (Rupees six hundred)

CHARGES FOR MECHANICAL EQUIPMENT FOR USE OTHER THAN FOR CONTAINER OPERATIONS

(1) a. (i) Use of fork lift trucks with lifting capacity upto 10 tons	Rs. 500.00	per shift or part thereof
(ii) Use of fork lift trucks with lifting capacity upto 10 tons	Rs. 65.00	per hour or part thereof
b. (i) Lifting capacity 12 $\frac{1}{2}$ tons	Rs. 1200.00	per shift or part thereof
(ii) Lifting capacity 12 $\frac{1}{2}$ tons	Rs. 150.00	per hour or part thereof
c. (i) Lifting capacity 25 tons (Komatsu)	Rs. 2400.00	per shift or part thereof
(ii) Lifting capacity 25 tons (Komatsu)	Rs. 300.00	per hour or part thereof
d. (i) Lifting capacity 40 tons (Kalma)	Rs. 4000.00	per shift or part thereof
(ii) Lifting capacity 40 tons (Kalma)	Rs. 500.00	per hour or part thereof
e. Handjack for lift	Rs. 12.50	per hour or part thereof

CRANES

(2) a. Upto 5 tons	Rs. 75.00	per hour or part thereof
Over 5 tons and under 15 tons	Rs. 115.00	per hour or part thereof
Over 15 tons and under 25 tons ;	Rs. 130.00	per hour or part thereof
and		
Over 25 tons and above	Rs. 150.00	per hour or part thereof
(3) a. Electric wharf cranes and steam cranes upto 5 tons	Rs. 65.00	per hour or part thereof
b. Portal Crane	Rs. 115.00	per hour or part thereof

CHITTAGONG PORT TRUST

Pilotage is compulsory for ocean shipping.

The entrance to the river is constantly changing and no vessel should attempt to enter without pilot. Pilot boards approximately 2 miles seaward of the Outer Bar Buoys. In the moderate heavy weather a lee must be made for the pilot Boat. The vessel receiving a pilot is required to wait at the Pilot Ground near the entrance all clear of anchor; Taking into consideration the effect of the tide and other condition to facilitate boarding of the Pilot in good time to be able to avail of the tide for entering and berthing etc. The propelling distance from the Pilot Ground to the main jetties is approximately 11 miles, and the distance has to be covered at variable speed in different sections of the river. Inward ships must present themselves at Pilot Ground at least 3 hours before high water to enter on a particular day. This, of course, is subject to the availability of berth, draught etc.

The ship movements generally commence about 4 to 5 hours before the Day/Night high water and the tides have been termed A. M. or P.M. taking this factor into consideration.

During the Spring Tides/Freshets/Foul weather, vessels under 7 knots will not be handled and such vessels will be classed as grade 2 for operational purpose. Agents of such vessels are required to consult the Deputy Conservator well in advance.

Masters are advised to manoeuvre with great care while receiving and disembarking pilots.

Masters of vessels due to entering in the next 24 hours must anchor in Anchorage B. Keep R. T. or W.T. watch at least 3 hours before the Pilot Boarding Time and also display her signal letters.

Incoming vessels normally enter on the flood; the deeper the vessel, the closer She enters to high water. The normal manoeuvre is to snub with the starboard anchor, and proceed to berth mooring after heaving up and finally go alongside using the port anchor.

Night Navigation is continuing for outward and inward movements of vessels upto 510 feet L.O.A. and 450 ft. L.O.A. respectively.

CPA'S JETTY BERTHS

There are 17 jetties including 2 Pontoon Jetties ranging in Jetty face length from 435' to 600' of which 13 are provided with shore Cranes, 9 are provided with Transit sheds and 8 are provided with Railway Tracks. Vessels upto 605 (LOA) may be berthed at a main jetty berth.

PUBLIC SECTOR JETTIES

For bulk cargoes like wheat, cement clinkers, Rock Phosphates etc. the following jetties are available:

(A) For ocean going vessels :

- (1) Cement Clinker Jetty for vessels upto 550'
- (2) Grain Silo Main Jetty for Vessels upto 605'
- (3) T.S.P. Jetty for Vessels upto 520'

(B) For Coasters & Inland Vessels :

Grain Silo Lighter Jetty for Coasters and I.W.T. Vessels/Craft.

LIGHTER JETTIES :

- (1) LJ No. 1 with Pantoon and Shore Connection at (Sadarghat) for Coasters and inland vessels upto 230 feet with dry cargo.
- (2) LJ No. 2 with Pontoon and shore connection (at New Moorings) for coaster and inland vessels upto 250 feet with dry cargo.
- (3) LJ No. 3 with Pontoon and shore connection (Jamuna) for inland tankers and vessels upto 250 feet with POL in bulk.
- (4) LJ No. 4 with pontoon and shore connection (Meghna) for inland tankers & vessels upto 250 feet with POL in bulk.
- (5) LJ No. 5 with pontoon and shore connection (ITT) for Inland tankers and vessels upto 230 feet with sweet oil in bulk.
- (6) LJ No. 6 with cement concrete jetty (BE) for Inland tankers and vessels upto 230 feet with POL in bulk
- (7) 13A - Cement concrete Jetty having jetty face 132 feet for CPA vessels and coasters.
- (8) 13B - Cement concrete jetty having jetty face 138 feet for CPA vessels and coasters.

MOORING BERTHS

- (i) River Mooring No. 1 for ships of length upto 605' with dry cargo.
- (ii) River Mooring No. 2 with pontoon & shore connection not in use.
- (iii) River Mooring No. 3 with Pontoon & shore connection not it use.
- (iv) River Mooring No. 4 with pontoon & shore connection for vessels upto 580' with edible oil and POL in bulk.
- (v) River Mooring No. 5 with pontoon and shore connection for vessels upto 580' with POL
- (vi) River Mooring No. 6 with pontoon & shore connection for vessels upto 580' with POL
- (vii) River Mooring No. 7 with pontoon & shore connection for vessels upto 580' for crude oil landing, for processing in the Refinery.
- (viii) River Mooring No. 8 for vessels upto 605' with dry bulk cargo for landing through lighters.
- (ix) River Mooring No. 9 for vessels upto 605' for repairs of BSC vessels and over side cargo.
- (x) Lash Mooring. For vessels upto 900' with dry bulk cargo.

HANDLING EQUIPMENTS :

(A) Shore Crane :

There are 39 portal level luffing Electric Cranes of 3 ton capacity each with a radius of 65 feet and 82 feet.

(B) Yard Crane :

One traversal Electric Gantry Crane of 25 ton capacity.

(C) Floating Crane :

One floating Crane of 125 ton capacity

(D) Other Handling Appliances :—

Description	Capacity	Number	
Mobile Crane	6 Ton	19	
	15 "	1	
	16 "	5	
	25 "	1	
	30 "	1	
Fork Lift (Diesel)	3 "	35	
	5 "	7	
Scammels	6 "	8	
Trailers (Scammels)	6 "	28	
Heavy Trailer	25 "	2	
Tractors	25 "	20	
Trailors (Tractor)	6 "	45	
	25 "	1	
Fork Lift (Battery)	3 "	3	
Heavy Trucks	8 "	10	
Battery Operated Truck	3 "	38	

CARGO STORAGE SPACE

(A) Covered space within Port Protected Area :

1. Transit Shed	8,59,350	Sq. ft.
2. Ware Houses	8,17,346	" ft.
3. Emergency Cargo Sheds	70,000	" ft.
4. Hazardous Cargo Godown	3,150	" ft.
5. Automobiles Shed	24,300	" ft.
6. Baggage Shed	19,254	" ft.

(B) Covered Space Outside Port Protected Area :

1. Port Authority land quite close to Port has been leased out to public and private Sectors. On such land 6 warehouses of over 5,00,000 Sq. ft. floor area have been constructed and more warehouses are in the process of construction.

2. Grain Silo of 1,00,000 tons capacity for Bulk Wheat is situated adjacent to Grain Silo Jetty
3. T.S.P. Complex with a store capacity of 75,000 tons has been constructed adjacent to T.S.P Jetty
4. Storage of 24,000 tons has been provided in the Cement Clinker Plant adjacent to Cement Clinker Jetty.

(C) Open Space Within Port Protected Area :

Cement concrete and brick soled open space of approximately 20,81,000 Sq. ft. has been provided around the Transit Sheds and in the back Yard. 30,0,000 sq. ft. raised dunnage platform has been completed for storage of food grain.

(D) Open Space Outside Port Protected Area :

On the bank of Karnafulli, space has been provided for storage of 2,00,000 tons of Coal.

(E) POL Storage :

The storage and handling of POL is done directly by the Oil Companies outside the Port Protected area for which adequate storage tank capacity exists.

(F) Storage for Edible Oil in Bulk :

This is stored in tanks outside Port Protected area directly from the vessels at Moorings earmarked for the same.

CLEARANCE OF CARGO FROM THE PORT

This port is connected with the hinterland by Bangladesh Railway, the Inland water-ways through the Bay of Bengal and the Road net work.

Clearance of Dry Cargo per month from the Port by the three modes of Transport, viz. Rail, Road and River, are approximately 50,000 tons 1,66,000 tons and 1,10,000 Tons respectively.

LIGHTERAGE OF CARGO

The deep draught vessels can be lightered at the Outer Anchorage This is to be resorted to for vessels of deeper draft at Kutubdia Depending on the quantum involved in lighterage, T-12 type tankers Liberty Vessels are arranged on charter by the concerned Agencies from abroad or from the Bangladesh Shipping Corporation. Except the Ocean-going Tankers and Vessels of Bangladesh Shipping Corporation engaged in lighterage, local Lighterage fleet consists of tankers each of approximately 1,000 tons capacity and coasters each of the capacity of 300 to 1000 tons owned by the Public and Private Sectors Besides these, country craft each of 20 to 80 ton capacity in Private Sector and steel barges each of 300 to 500 ton capacity in the Public and Private Sectors are available to carry out lighterage work. The Cargo from such lighters intended to be discharged at the Chittagong Port is handled at a vacant jetty or in between the two vessels alongside the Jetties. Cargo discharged into lighters at outer Anchorage may also be directly transported to Inland river Ports, and Chalna Port, the 2nd International Port of the Country with prior permission of the Port and Customs Authorities.

Due to rough sea and inclement weather, lighterage at Outer Anchorage and also at Kutubdia during Mid-April to Mid October would become difficult and uncertain at times.

SUPPLY OF WATER, BUNKER & PROVISION

Fresh water supply is available at all the Chittagong Port Authority jetties. Water is also supplied by water Barges to vessels inside Port alongside moorings and at the Outer Anchorage. Due to rough sea and inclement weather, water supply at Outer Anchorage is seriously affected quite often during Mid-April to Mid-October. Oil Bunkers can be supplied to the vessels at the Oil Moorings. In emergent cases Oil companies may undertake supply of Bunkers by Inland Tankers.

Coal Bunkers are available and supplies can be obtained by the Master/Local Agents through the Assistant Controller of Coal, Chittagong.

Fresh meat, fish, vegetable, milk, egg, rice, wheat, bread, butter, etc. are available for supply.

MEDICAL FACILITIES

Necessary medical facilities to officers and crews of vessels may be made available at Chittagong Port Authority Hospital on request against payment or this may be privately arranged through the Local Agents concerned.

REPAIRING FACILITIES

Quite a good number of small Marine Workshops are available and they can carry out the repair work of the vessels. There is no ship repairing yard in Chittagong, except for small craft. A few number of electric workshops are also available in Chittagong.

There is no Dry Docking facility for large vessels. However, one Dry Docking and ship Yard is under construction by the Bangladesh Engineering & Ship Building Corporation. This is located between River Moorings 7 & 8.

Repairing facility at the Moorings used for Dry Cargo may be allowed only for reasonable period with the prior permission of the Deputy Conservator and the Traffic Manager.

UNDER WATER DIVING SERVICES

Such services can be made available by the Port Authority on hire charge basis.

MARINE SALVAGE FACILITIES

The Port Authority operates a small Marine Salvage unit. Services of personnel and equipment are available on hire charge basis.

RAIL & AIR TERMINALS

Chittagong is a terminal of Bangladesh Railway. There is an Airport close to the Harbour and regular Air Services are available from Chittagong to Dacca, the Capital of the Country.

There is regular communication by sea with the Ports of the World.

VESSELS AND CRAFT

The Chittagong Port Authority owns the following Dredges, Tug Boats and other utility vessels and Crafts.

Sl. Name	Type	Ton IHP	Capacity
(A) DREDGER :			
1. Patunga	Section Hopper.	GRT-2444	Hopper Capacity 2000 tons.
2. Al-Amanta	do.	GRT 1920	Hopper Capacity 1920 tons.
3. Karnafuli	Grab	GRT-736	Hopper Capacity 610 tons.
(B) TUG BOATS :			
1. S T. Kandari-I		GRT-477	BHP-565
2. Kandari-II		GRT-450	BHP-2000
3. Kandari-V		GRT-250	BHP-805

(i) 100 ft. Seagoing Survey Boat		
(ii) 42 ft. Survey Boat 2 Nos.		
(C) MOORING LAUNCHES :		
(i) 2 Nos. Mooring Launches		

FIRE PROTECTION MEASURES :

The Chittagong Port Authority maintains a full fledged Fire Fighting Establishment within the Jetty premises with modern Fire Fighting equipment capable to tackle any Fire incident on the shore side. In addition to that different sheds and warehouses are provided with sprinklers installation, Hydrant system and with different types of Fire Extinguishers Fire Buckets, Sand Drums etc.

The Bangladesh Fire Service if required, is contacted in case of any big Fire, at dock main Fire Station and New Mooring Fire-substation very close to the Port installations and their Head Quarters in the city about one & half miles away from the Port area.

During the period in review there were only a few small Fire incidents both ashore and afloat which were tackled efficiently by the CPA Fire Service.

P.O.L. HANDLING FACILITIES

River Mooring 7 has been exclusively earmarked for the crude oil transfer system. Chittagong Port Authority has provided Buoy, Pontoons and swinging bridge; Eastern Refinery Ltd. have laid the pipe lines and connected them with the installations and Bangladesh Shipping Corporation is operating two tankers for lighterage of crude oil from Deep Sea.

This is an interim arrangement till such time the deep water terminal now under active consideration of the Govt. is developed.

At present 2 Oil Moorings where oil transfer takes place are being managed by Chittagong Port Authority and remaining 2 Oil Moorings and 3 Oil Lighterage Jetties are being managed jointly by CPA and different Oil Marketing companies. POL is a dangerous Cargo and special rules, Law standing instructions are enforced by Port Authority as well as the Oil Companies in order to avoid explosion, fire hazards etc.

COMMUNICATIONS FACILITY

Chittagong Port Maintains a V.H.F. Radio network in conformity with requirements as laid down in the Hague Convention.

The name of the control station is "PORT RADIO CONTROL" call sign S₂YA but usually called as 'RADIO CONTROL' A round the clock watch is maintained simultaneously on the International calling and safety channel No. 16 (freq. 156.80 MHZ) and Port Operation channel No. 12 (freq. 156.60 MHZ). Vessels failing to establish contact on channel 16 are advised to attempt channel 12 too.

Implementation of the project: Improvement of the 2 Telecommunication system inaugurated last year. Some more VHF sets along with SSB and Facsimile equipment have been installed at different stations ashore & afloat. This has enabled the Port to extend the communication range in the high seas at a distance of 200 miles off the coast, which makes it possible to maintain regular watch on the MF/RT distress frequency of 2182 KHZ. Operation of Facsimile recorder has enabled us to obtain the regular weather charts of the condition prevailing in the bay so as to take adequate preventive measure in the event of cyclonic storms tidal bores etc.

Besides, the 'CHITTAGONG RADIO' maintained by the Bangladesh Telegraph & Telephone, is also 'ON THE AIR' on the International VHF Channel 16 where the land line telephone links are also made available.

The Port Authority has a telephone exchange through which all important places within the Port & other autonumbers out-side the port may be connected.

The Telephone exchange numbers are as under :

500101	:	7 lines
501811	:	2 lines

PORT DUES ON VESSELS

Port dues at the following rates shall be charged :

Name of Port.	Vessels chargeable	Rate of Port dues	Dues how often chargeable in respect of same vessel
(1)	(2)	(3)	(4)
Chittagong	(I) Sea-going vessels	Tk. 1.25 per GRT or fraction thereof	On each entry
	(II) Tug Steamer, River Steamer & Vessels remaining within the Port	Tk. 1.00 per GRT or fraction thereof	Twice in a year (i.e. once between the 1st Jan & 30th June & once between 1st July & 31st Dec.
	(III) Country Crafts including Ballam Boats & Cargo Boats of 10 tons and upwards, barges, flats and vessels other than sea-going vessels	Tk. 0.50 per gross registered ton or fraction thereof	On each entry
	(IV) Country Crafts including Ballam Boats and Cargo Boats of below 10 tons	Not exceeding Tk. 0.20 per gross registered ton or fraction thereof	On each entry
	(V) Vessels entering the Port in ballast and not carrying passengers	3/4th of the dues otherwise payable by such vessels	On each entry
	(VI) Vessels entering in Port for repairs or through stress of weather	1/2 of the dues otherwise payable by such vessels	On each entry
	(VII) Vessels entering the Port and taking in only provisions. Water, Bunker Coal or liquid fuel for their own consumption	1/2 of the dues otherwise payable by such vessels	On each entry

EXPLANATION: In the application of this column to the Port of Chittagong for calculating the dues payable by a vessel, the weight of the deck cargo shall be added to its gross registered tonnage.

An additional Pilotage fee of 50 per cent of the Pilotage fees specified above shall be levied in respect of vessels breaking journey at Gupta Khal in order to take delivery of bunkers at the Tanker Moorings

If Pilotage work takes place wholly or in part between 6 p.m. & 6 a.m. a fee at the rate of 1½ time of the Pilotage fee specified above shall be levied plus an additional fee at the following rates :

for vessels of which gross tonnage does not exceed 3,999 tons	Tk	160.00
for vessels of which gross tonnage exceeds 3,999 tons but does not exceed 4,999 tons	Tk	320.00
for vessels of which gross tonnage exceeds 4,999 tons	Tk	400.00

The above rates will come into force after expiration of 30 days from the date of Publication of the Notification in the official gazette

RIVER DUES

River due is charged at the following rate on all goods handled at the Chittagong Port :

Sl. No.	Description	Basis of charges	Rates
1	Goods arriving from a foreign Port and landed from a sea going vessel	Per ton or fraction thereof	5.50
2	Goods, other than raw jute, arriving from a Port in Bangladesh and landed from a sea-going vessel	Per half a ton or fraction thereof	2.50
3	Raw jute arriving from a Port in Bangladesh and landed from a sea-going vessel	do	2.50
4	Goods, other than raw jute, shipped to a foreign Port in a sea-going vessel	Per ton or fraction thereof	3.00
5	Raw jute shipped to a foreign Port in a sea-going vessel	Per ton or fraction thereof	2.50
6	Goods other than raw jute shipped to a Port in Bangladesh in a sea-going vessel	Per half a ton or fraction thereof	2.50
7	Raw jute shipped to a Port in Bangladesh in a sea-going vessel	Per half a ton or fraction thereof	2.00
8	News Print shipped to a foreign Port in a sea-going vessel	Per ton or Part of a ton	5.00

Note : 1 Where river-dues have once been paid on any goods in transit no river-dues shall be levied again on those goods within 8 weeks of such payments becoming due.

2 Except the cases in which river-dues will be charged on the basis of 'Number to a Ton' as appearing in the standard list annexed here to the tonnage of goods shall be calculated on the following basis, namely : -

One ton weight	20 Cwt.	
One ton measurement	40 Cft.	859

- 3 The standard list annexed here to shall be observed for the purpose of determining the basis of tonnage and in the case of goods not included in the list, the Chittagong Port Authority shall have the discretion to charge river dues either on weight or measurement, whichever is higher.
- 4 In case of goods brought from a Port situated in Bangladesh for shipment to foreign countries, only river-dues for shipment will be payable provided the shipment is effected within eight weeks from the date of their arrival otherwise river-dues for both landing & shipping will be charged for such goods.
- 5 The Chittagong Port Authority may demand the production of documents showing how freight was paid in support of the declarations made in the bill as to weight or measurements or number.

PORT DUTY ON JUTE

This charge will be realised as under : -

- (a) In the case of raw jute (including jute cutting & Rejections) Tk. 0.20 per bale of four hundred pounds
- and
- (b) In case of manufactured jute Tk. 1.00 per ton of two thousand two hundred & forty pounds.

LIST OF GOODS CHARGED ON WEIGHT, MEASUREMENT, ETC.

This list is liable to alteration without notice.

The following schedule shall form the basis of levying all charges on goods where not otherwise specified.

CHALNA PORT TRUST

The Pilotage waters extend from the Fairway Buoy in approximate position Latitude $21^{\circ} 24' 56''$ N. Longitude $89^{\circ} 28' 82''$ E to the port. The sharply defined Swatch of No Ground the tip almost touching the pilotage ground is nature's boon to the Mariners approaching this PORT.

A fairly accurate fix can be obtained by merely watching the echosounder trace indicating the entry of vessels from 100 fathoms into 10 fathoms and less. It is usual for navigators making the approaches from Calcutta and Chittagong to proceed between 10-20 fathoms contrivance which are quite well defined and converge on the northern most tip of the Swatch of No Ground.

A lighted buoy painted CHALNA FAIRWAY fitted with radar reflector, group flashing 2 every 10 seconds in position Latitude $21^{\circ} 24' 56''$ N Longitude $89^{\circ} 28' 82''$ E makes the approaches to the pilotage grounds reasonably easy and safe. The old channel has been shifted slightly westward. The new approach channel is deeper and requires a straight course of 005° to approach Hiron Point anchorage ground. Mariners are warned that they may have to use set as the vessel is likely to set towards west during flood tide.

Ship approaching the PUSSUR send their ETA and draft to their respective agents and to Port Khulna via the khulna Radio (Call sign S 3 E) at least 24 hours before their actual time of arrival. On receipt of the ETA directly from the ship the pilot is detailed in order of priority of arrivals. Further instructions are issued by the pilot himself on wireless. On or before arrival at the Fairway buoy the Master is to contact the Pilot station on W/T Call sign K 3 S) for bar crossing instructions. Channel 16 and 11 available on V.H.F. Vessel must allow for NWLY set during the flood tide.

It must be emphasised that the instruction so received should be repeated by the ship receiving such message. The banks of the river are stable and have a continuous belt of forest with small creeks here and there throughout the entire passage up to the Port.

The one and only bar at the entrance to Pussur River with a straight course of 005° (T) has a minimum datum depth of 17 feet. This is the limiting factor affecting the drafts of ships entering and leaving the Chalna Port.

Tides are semi diurnal with spring rise varying between 9.1 ft. in winter to 12.3 ft. in moonson. Unlike other riverine Bay of Bengal Ports there is no incidents of bore tides or freshets. In moonson when the hinterland rivers are in spate ebb current may attain strength upto 6 knots. The bottom is mainly of mud and fine sand.

Tidal stations at Hiron Point, Sundarikota, Joymonigol and Mongla are maintained for observation and record on daily tides.

The track is marked by buoys at various points conical to be passed on the starboard hand and cans on the port with the flood.

Weather is mainly tropical with very mild winter, with minimum temperature of 50°F and humidity to 50%. Hot summer maximum temperature occasionally rising to 100°F , humidity 95% and south westerly monsoon from June to August, causes rainfall causes average 80 inches. Tropical storm formed in the Bay of Bengal during the preceeding and succeeding two months of the south-west monsoon (April-May and September-October) lose some of their intensity after crossing the coast and reaching the Port 64 miles inland. A common weather feature is the 'Norwesters' in the months of March and April which are typical thunder storms of very short duration usually occurring at dusk with equally winds up to 40 Kts.

NAVIGATIONAL AIDS AND NIGHT PILOTAGE

The navigational track in Pussur River and its approaches is marked by lighted buoys at various points. Conical to be passed on the starboard hands and cans on the Port with the flood, 40 lighted buoys and 12 lighted beacons had been placed along the routes but most of the shore beacons and lantern with 898.

flashers on the buoys have been damaged during the Liberation War in 1971, as such night Pilotage that was in operation had to be suspended. Although this was introduced for short spell during the year but this had to be suspended again for technical reasons. This is expected to resume as soon as the 43 buoy scheme is completed under the project 'Day and Night Navigation'

MOORING AND BERTHS

The Port is situated near a place called Mongla which is about 30 miles down stream of Khulna town on the Pussur River. At present there are 12 swinging moorings where the Vessels are made fast with their own cables. 19 more ships can be safely anchored within 4 miles working range. The depths vary between 45-19 feet at datum. The holding ground is good with sand and mud. For to five shackles of chain are considered ample under normal circumstances.

PORT CRAFTS

Chalna Port being as much as 30 miles down from Khulna and 50 miles up from the pilot station at Hiron Point, and with no road or other land communication from Port main office at Khulna, it is necessary to have a fleet of sufficient strength for the Port. During Liberation War all the Port crafts were either lost or badly damaged. Mechanical department of the Port managed to repair a good number of the damaged crafts in a very short time for used in Port operations. One powerful tug cum pilot vessel from Japan one despatch launch, one harbour launch one mooring boat from Canada and a tug from the U N was received as rehabilitation gifts to replace the crafts lost or sunk during the Liberation war. Strength of the Chalna Port fleet consists of five tugs, one buoy tender, one self propelled water barge fourteen different types of pilot launches mooring boats, survey vessels, work boat, one seatruck and nine water barges.

Some of them are non-operational. Some crafts are being procured under the scheme 'Procurement of Harbour Crafts'.

TELE-COMMUNICATION

At present coastal radio station at Khalishpur (Khulna Radio call sign S 3 E) of Telegraphs and Telephones Department maintains 24 hours W/T watch on 500 kc/S. In addition to the T & T system, the Port has Harbour control station (call sign S 3 H) at Mongla and Pilot station (call sign S 3 K) at Hiron point to maintain 24 hours W/T watch on 500 kc/S. Khulna Port control, Mongla Harbour control and Hironpoint Pilot Station also maintain channel 16 & 11 on V.H.F. The Pilot station at Hironpoint guides the incoming and outgoing vessels from Fairway to pilot Grounds and vice versa and remain in touch with Khulna Radio (S3E) Mongla (AQBC) and ships anchored at Hironpoint for movement of pilots, mooring of vessels etc. Port Tug is kept stand by for emergency work.

A Radio beacon at Latitude $21^{\circ} 48' N$ Longitude $89^{\circ} 27' 45'' E$ transmitting CLN twice every hour at 05 and 35 minutes past the hour GMT on a frequency of 318 kc/S with a maximum range of 150 miles makes the approaches to the Pilotage grounds reasonably safe and easy. There is direct telephone link between Khulna and Mongla.

MAINTENANCE OF PORT AND HARBOUR

The Port Authority has a marine workshop and repair berths for its crafts mechanical handling equipments, navigational aids, instruments and harbour vessels, at Khulna. It has been planned to set up a workshop at Mongla.

MAINTENANCE OF WATER BARGE AND SUPPLY OF WATER TO SHIPS AND FOR MONGLA TOWN-SHIP

Water works at Khalishpur area operate round the clock for supplying water to foreign ships in the Port. Naval Base, Port residentie' area at Khalishpur and 10,000 Mongla residents. Daily average carriage of water approximate 600 tons to Mongla. Two new water barges were procured to meet partially the shortage of barges. One self propelled water barge is being constructed at Narayanganj Dockyard

BERTHING COMMITTEE

The berthing committee meets Tuesday and Friday attended by the Traffic Manager, Deputy conservator, Shipping Agents and concerned agencies. Once in every month Chairman of the Authority and Member (Operation) also attend the berthing committee. The berthing meeting moots the arrival and departure of ship from the port as well as cargo position in the port. Representative of Bangladesh Inland Water Transport Corporation Khulna Acts as the Secretary to the Committee.

MAINTENANCE OF POWER HOUSE AT MONGLA AND HIRONPOINT

Although the electricity at Mongla is now being supplied by the Power Development Board but two power houses are still run by the Port Authority for supplying electricity of Hironpoint wireless station round the clock and Mongla township to meet the constant power failure of power Development Board.

MAINTENANCE OF FIRE FIGHTING FACILITIES

Port Authority maintains fire fighting facilities at Roosevelt Jetty Khulna and at Chalna. Chalna fire fighting station lacks amenities and equipments. The Port Authority is taking necessary steps to meet the shortages. Tugs belonging to the Port Authority have powerful pumps for fighting fire on ships at the Port. Besides a fully equipped modern fire fighting has been tug procured by the Port for fighting shipboard fires out of Belgium aid.

ROOSEVELT JETTY

In order to extend facilities for handling of general cargo at Khulna the Port Authority has provided Jetty facilities at the Roosevelt Jetty at Khulna with two transit sheds having a total area of 80,000 sq. ft. The main jetty is 750 feet long and two wing wharfs are 400 feet each thus providing a 1550 running feet jetty. Considerable open space stacking-area is also available at the Jetty.

Custom clearance of general cargo unloaded at Chalna Port can be arranged at these sheds. Besides, the jetty area is served by broad gauge railway sidings connected with northern districts of Bangladesh. The Jetty is equipped with one 100 tons crane, two 7 tons crane, three 3 tons Scooter crane and 6 fork lift trucks with a lifting capacity of 1½ ton.

1. PILOTAGE FEES (For Pilots)

- | | |
|--|----------------------------|
| (i) Inward/Outward | Taka 100 per ship each way |
| (ii) Vessel having speed less than 10 kts. | Additional Taka 50 |
| (iii) Vessel having speed between 10-12 kts. | Additional Taka 25 |
| (iv) Vessel having length 600 ft. or more | Additional Taka 100 |
| (v) Mooring/Unmooring | Taka 200 each occasion |

2. Sea-going vessels of ten tons and upwards, not being Ballamboats.

Taka 1.00 per Regd. ton
Whenever the vessel enter Port except incase of coasting vessels engaged in trade exclusive between Chalna and other riverine stations in Bangladesh which shall not be charged more than once in sixty days.

3. Tug Steamer, River Steamers and other vessels remaining within the port.

Taka 0.80 per Regd ton
Once between 1st January and 30th June and once between 1st July and the 31st December in each year.

4. Barges, Flat and vessels other than Sea-going vessels.

Taka 0.80 per Regd. Ton
Once in sixty days.

5. Ballam-boats

Taka 0.25 per ton
Whenever the vessel enters the Port.

6. A vessel entering the Chalna Port which does not discharge or take in any cargo or passenger there in with the exception of such unshipment and reshipment as may be necessary for purpose of repair shall be charged with port dues at half the rate.
7. A vessel entering the Chalna Port in ballast and not carrying passengers shall be charged with Port dues at three-fourth of the rate.

MOORING & MISCELLANEOUS CHARGES

- | | |
|--|---|
| 1. (a) For occupying swinging mooring | (per diem) |
| (i) All vessels upto 999 ton gross measurement | 0.15 paise per GRT with minimum Tk. 110 |
| (ii) All vessels from 1000 tons gross measurement and above | 0.15 paise per GRT |
| (b) Vessels lying at their own anchor shall be charged half the fees prescribed above | |
| 2. For use swinging mooring by launch | Tk. 16 per Diem |
| 3. Transport charges on vessels entering or leaving the Anchorage on each occasion | Tk. 160 per occasion |
| 4. For mooring at or unmooring from swing mooring on each occasion | Tk. 160 on each occasion |
| 5. (a) Detention fee (if vessel fails to arrive or sail) | Tk. 1580 per day or part thereof |
| (b) Detention fee for pilot (if vessel fails to arrive or sail and pilot is detained for the same) | Tk. 320 per day or part thereof |

6. Attendance fee for pilot	Tk. 100 for each occasion	
7. Harbour Master's fees:		
(a) For Mooring at/or unmooring from Jetty/ berth/on Sunday & Holiday	Tk. 140.00 each occasion	
(b) At night 6 P.M. to 6 A.M.	Tk. 280.00 per occasion	
(c) Sunday/Holiday night	Tk. 420.00 per occasion	
8. Use of Anchorage howser	Tk. 160.00 per diem	
9. Salvage of Anchor	Tk. 30.00 per cwt	
Cables hooking	Tk. 160.00	
10. Hire charges for Tugs within the Port		
	Hired locally	When hired by foreign ships
	Taka	Taka
(i) M. T. Sarathi II—Running	1500 per hr.	2500 per hr.
Standby	750 per hr.	1250 per hr.
Day or part of day :		
Running	10000	15800
Standby	3000	4800
To escort vessels per trip	7500 per trip	
(ii) M. T. Sarathi-I	500 per hr.	800 per hr.
	3000 per day	4800 per day or part of a day
(iii) C.P.V. Meghdoot Running	1000 per hr.	1600 per hr.
Standby	500 per hr.	800 per hr.
Day or part of a day	8000	12800
(iv) A.H. Chalna Dishari	500 per hr.	800 per hr.
Day or part of a day	6400	12800
(v) M.T. Olondaj	400 per hr.	640 per hr.
Day or part of a day	2000	3200

In addition to the usual charges the party requisitioning the use of the tug shall be liable to pay reasonable compensation for any damage caused to the tug in rendering the assistance required. Such compensation will be estimated by the Chairman, Port of Chalna Authority.

DREDGING

1. Charges for hire of dredger from all outside parties by the Authority's dredger per day/night or part thereof Tk. 37500-00

MISCELLANEOUS CRAFTS

1. (i) Hire of steam or motor pilot vessel or launch for any purpose except fire : -

	Hired locally (Taka)	Hired by foreign St (Taka)
(a) Per hour or part thereof from 6 a.m. to 6 p.m.	200.00	320.00
(b) Per hour or part thereof wholly or in part from 6 a.m. to 6 p.m.	300.00	460.00

2. (a) Hire of Mooring or Hawser boat per occasion or the part thereof from 6 a.m. to 6 p.m. 160.00

- (b) Hire of Mooring or Hawser boat per boat per occasion or part thereof wholly or in part from 6 p.m. to 6 a.m. 320.00

3. (a) Hire of Heave up boat for assisting a vessel per boat per occasion or part thereof from 6 a.m. to 6 p.m. 320.00

- (b) Hire of Heave up boat for assisting a vessel per Boat per occasion or part thereof wholly or in part from 6 p.m. to 6 a.m. 640.00

4. Hire of wire hawser for each hawser per diem or part thereof 50.00

5. Hire of anchors or each anchor per diem or part thereof 90.00

6. For the use of spring attached to tug on each occasion 160.00

7. For the use of hawser attached to tug on each occasion 160.00

8. Charges for hire of port Authority's oil barge for the supply of oil to the vessel will be Tk. 18.00 per ton or part thereof of which Tk. 2.00 is to be paid to the oil company for handling customs, etc.

NOTE : Detention charge, overtime allowance of the Crew and hire charges of oil separately barge will be charged

9. Running out anchors for vessels on shore or going on the hard to clear bottom on each occasion

(a) If the vessel is 400 tons and above	128.00
(b) If the vessel is under 400 tons	64.00

NOTE :

- (i) For the services rendered by Tugs and launches between 6 p.m. and 6 a.m. the charges will be double
- (ii) Any damages caused to the crafts when on charter will be borne by the charter. Such Compensation shall be estimated by the Port Authority
- (iii) For carrying out any salvage or rendering assistance outside Port limit a special contract will be made and the fees shall be decided on the hazards involved by the Port Authority.

GLOSSARY OF SHIPPING TERMS

ACCOUNT SALES : A document sent by an agent or broker to his principal when the goods consigned to the agent or broker. have been sold, showing the amount realised, the expenses incurred and the net proceeds which are due to the principal.

ACT OF GOD :- Some sudden and violent act of nature which could not be foreseen or guarded against.

ACTIONABLE CLAIM : A claim to any debt which the Civil Courts recognise as affording grounds for relief whether such debt or beneficial interest be existent, accruing, conditional or contingent.

ACTUAL TOTAL LOSS : When a cargo has actually been destroyed or been so damaged as can no longer be recognised by its name, it is termed as actual total loss.

ADMIRALTY CHART : Navigation charts for sea-farers so named because they are prepared by the British Admiralty.

ADMIRALTY JURISDICTION : Administration of laws relating to sea-faring.

AD VALOREM DUTY : Duty calculated on the value of goods.

AD VALOREM TARIFF : Tariff based upon the value of goods.

ADVANCE FREIGHT : Freight which is payable to the shipowner by the shipper before he delivers the goods to him for transportation.

ALL RISKS COVER : An insurance term. It includes all the extraneous risks for which cover is generally demanded such as theft, pilferage, non-delivery, leakage, breakage, as also physical loss or damage by any other risk, but it does not include War or S.R.C.C. (Strike, Riot and Civil Commotion) risks, loss or damage due to inherent vice, wear and tear, depreciation or losses proximately caused by delay.

ADHOC : For any particular purpose.

A V : Assessable Value.

A.C : Assistant Collector of Customs.

AFFREIGHTMENT : A contract to carry goods from one place to another by sea or to provide a ship for the carriage of goods in consideration of freight.

AIRWORTHY : Reasonably fit to undertake the contemplated flight.

ALGOL : An International data processing language.

ALL-IN-ONE POLICY : Insurance term to describe a policy combining insurance against several kind of risks.

ANCHORAGE : A place in sea-water within harbour limits where steamers can cast anchor and stand still for loading and unloading cargo.

ALL-WEATHER WORKING PORTS : A port where steamers can call at all times of the year.

ABVESAL : Pertaining to the deep Ocean beyond the continental shelf and slopes six hundred feet or more in depth which covers ninth of the ocean area.

AQUACULTURE : Scientific farming of the sea for fish, shell-fish, marine plant etc.

ABATEMENT : This term is used to denote reduction in the amount of duty due to allowance of trade or other discounts.

ASSESSMENT : This term includes the fixation of the value, classification and the rate of duty by a Customs officer.

BACK FREIGHT : The freight payable by the owner of the cargo for the carriage of the goods back to the port of lading when they are returned undischarged from the port to which they were Consigned

BAILMENT : The delivery of goods by one person to another for some purpose upon a contract that they shall, when the purpose is accomplished, be returned or otherwise be disposed of according to the directions of the person delivering them

BAILEE : The person to whom goods are delivered by way of bailment

BANKER'S INDEMNITY OR GUARANTEE : A form required by the shipowner to be completed and signed by the consignee and counter-signed by the consignee's banker, when, the release of goods is required without the production of the Bill of Lading

BANKER'S REFERENCE : The banker named by a customer as willing to vouch for him.

BARGES : Flat bottomed boats.

BARS : Sandbars-Collection of sand in a water channel which frequently interferes with the movements of vessels.

BAY : An opening of the Sea. Bay of Bengal.

BERTHING FACILITIES : Facilities with which a port is equipped so that a ship came alongside a masonry structures at the shore line for direct loading and unloading operations.

BILL OF ENTRY : A statement delivered by an importer at the Customs House describing the nature and value of the goods he imports and declaring the place from which they have been imported.

BILL OF EXCHANGE : An unconditional order in writing addressed by one person to another, signed by the person giving it, requiring the person to whom it is addressed to pay on demand, or at a fixed or determinable future time, a certain sum of money to, or to the order of, a specified person or to bearer.

BAGGAGE : The goods imported by a passenger along with him or within a short time of his arrival which are meant for personal and private use and not a merchandise for sale

BILL OF LADING : A document signed by the shipowners or their agents acknowledging the receipt of goods delivered for carriage and containing the terms and conditions agreed upon for the carriage of goods. It is also a document of title to the goods.

BORE : A tidal front compressed into a narrow channel to form a nearly vertical rapidly advancing wall of water. Such bores are frequently encountered in creeks in the Gulf of Cambay in Gujarat.

BENTHOS : Flora and Fauna of the deep sea bottom.

BREAKWATER : A barrier of stones and cement set up in a harbour to break the force of waves and tidal currents

BASIN : An opening of the sea inside the land, where a harbour can be sited.

BUNDER BASIN : A closed enclosure with water in adequate depth to permit ships to move about.

BUOYS : A floating mark which acts as a guide for ships entering or leaving a harbour

BUNDER-BANDAR : A synonym for a harbour. In practice the term is used to describe that part of a harbour which is frequented by country craft.

COMBINED BILL OF LADING : A Bill of Lading covering more than one shipment from the same party.

CLAUSED BILL OF LADING : A Bill of Lading with an endorsement declaring a defective condition of the goods or packaging.

CLEAN BILL OF LADING : A Bill of Lading for goods delivered to the carriers in a good condition.

DIRTY BILL OF LADING : A Bill of Lading claused in some way as to limit the responsibility of the shipping company.

FOUL BILL OF LADING : Same as above

BERTH : The place where ships are anchored at the docks in a port.

BASIC DUTY : The duty charged on the goods imported from abroad according to the provisions of the Customs Act, as distinct from additional duties levied under other provisions and other law.

BILL OF SALE : A document transferring the ownership of goods, from one person to another.

BLANK ENDORSEMENT : An endorsement containing merely the signature of the endorser without mentioning the name of the person in whose favour the endorsement is made

BOUGHT COMPONENTS : Those parts of a product which are bought from outside suppliers and incorporated into the final product in the original form in which they were bought.

BOUGHT OUT PARTS : Finished parts or assemblies purchased from outside suppliers by a manufacturer.

BOUGHT OUT RAW (B.O.R) : A classification of purchases which includes all materials, parts and sub-assemblies which are purchased in such a form which cannot be used on assembly or be sold until they have been further processed.

BOUGHT-OUT FINISHED (B.O.F) : A classification of purchases which includes all parts, sub-assemblies and assemblies that they can be used up on assembly or can be resold without further processing.

BOND : A stamped and sealed undertaking to perform a certain act or to abide by a certain decision and to pay a fine or penalty in the case of default.

BONDED GOODS : Goods liable to duty, placed in a bonded warehouse till duty on them is paid.

BONDED WAREHOUSE : A warehouse for the storage of goods liable to duty for the storage of which a bond has been given to the Customs Authorities.

BULK MATERIALS : Materials stored in bulk such as coal, sand, gravel, etc. In shipping, foodgrains, ores, fertilizers and chemicals such as sulphur are treated as such when loaded in bulk.

CAPITAL ACCOUNT : Expenditure incurred by a port for permanent structure or equipment.

CAPITAL DEBT : Debts incurred by port authorities for constructing permanent structure or equipment.

CALCAREOUS : Pertaining to the chalky material of which marine shells are composed.

CARRIER : Any person or company engaged in the business of transporting goods from place to place, either by land, sea or air.

CARRIER'S CONSIGNMENT NOTE : The consignment note which may be sent by the carrier to the consignee showing the name and address of the consigner, the description of the goods, the number of packages and their identification marks if any, the weight, details of the delivery vehicles and the name and address of the carrier.

CARRIER'S LIEN : The right of the carrier to retain possession of the goods till freight charges are paid.

CARRIER'S RECEIPT : A certificate of delivery signed by the wharfinger and forwarded with the Bill of Lading and other documents as legal proof.

CARRIER'S RISK : A term used in foreign trade indicative of the carrier's responsibility for the loss or damage during transit except when this occurs through an Act of God, armed conflict, an inherent vice in the goods carried or the fault of the sender such as bad packing.

CASH CREDIT : This is given by the Government to the exporters of goods as an incentive under the various Export Promotion Schemes.

CREDIT : See under Letters of Credit.

CERTIFICATE OF DAMAGE : A certificate issued by the docks authority certifying that the merchandise received or unloaded was in a damaged condition.

CERTIFICATE OF INSURANCE : A certificate issued in the case of a block policy by the brokers concerned stating that a particular despatch is covered under the policy. This certificate is evidence that an insurance exists.

CERTIFICATE OF ORIGIN : A document showing the place of origin of the cargo. Such a certificate is required to be produced in support of the importer's claim to preferential rate of custom's duty in the importing country.

CERTIFICATE OF REGISTRATION : A certificate issued upon the registration of a ship stating her name, tonnage and other particulars.

CERTIFICATE OF SHIPMENT : A certificate issued by a forwarding agent, certifying that specified packages have been shipped on a certain vessel.

CERTIFIED INVOICES : See Invoice.

CESSER CLAUSE : A clause in charter-party stating that charter's liability shall cease on the cargo being loaded and after payment of advance freight (if any) dead freight and demurrage in loading, if any.

CHANNEL : The lane charted in harbours for ships being towed to their berths from the open sea

CESS : An impost on goods which is not a source of revenue but a fee for the advancement of production.

CHARTER : An arrangement under which an exporter or a group of exporters of a shipping intermediary hires the entire ship on various terms and conditions. Main chartering terms in use are :

VOYAGE CHARTER : A ship is hired for a particular voyage or voyages.

TIME CHARTER : A ship is hired for a specified period of time.

DEMISE CHARTER : This is an arrangement under which the charterer hires a ship for its entire life and agrees to meet the entire cost for working it including insurance premia, apart from a fixed annual or periodic payment to the shipowner.

CHHAPPA : A document prepared by the importer giving relevant particulars of the goods and presented to the Port authorities for payment of port charges.

CLASSIFICATION SOCIETIES : Organisations formed in several countries (including one in India) for registering vessels, etc. Also known as Register of Shipping.

COASTER : See Ship.

COATING TRADE : See Trades.

COLLIER : See Ship.

COMBINED BILL OF LADING : See Bill of Lading.

COMMERCIAL TON-MILE : A common unit of service in haulage of goods found by multiplying the number of tonnes loaded at the start of the journey by number of miles travelled, out and home, and halving result.

COMMODITY RATES : Freight rates which apply to specific commodities that move regularly in large volume. See Freight Rates also.

CONFERENCE : An organisation of shipping companies plying their ships on a particular specified trade route. The conference system originated in India and is now one hundred and two years old (1977). Currently more than 370 shipping conferences are believed to be functioning all over the world.

OPEN CONFERENCE : A conference is considered open if every line wishing to join it is admitted subject only to the conditions that it can offer a regular liner service in the conference's area of operations, and that it accepts the internal conference agreement fulfilling all formalities relating to it.

CLOSED CONFERENCE : A conference is considered 'closed' if the decision whether or not to admit a new line is left solely to the discretion of existing members.

CONVENTION : GENEVA CODE OF CONDUCT : A document adopted on 6th April, 1974, by the United Nations Conference of Plenipotentiaries on a Code of Conduct for Liner Conferences, providing among other things, for consultations between shippers and conferences on a wide range of matters. Though it has been signed by requisite number of maritime countries, it has not yet been ratified.

CONDITIONAL SALE : A sale in which title is retained by the vendor of goods as security for the purchase price, although possession is surrendered to the buyers. The characteristic feature of such sales is that the seller retains the title to the merchandise until payment is completed.

CONSIGN : To send goods by rail, road, sea or any other route.

CONFIRMATION : The reply given by the seller of the goods signifying his acceptance of the order.

CONSIGNEE : The person to whom the goods are sent or the agent to whom the goods are sent 'on consignment'.

CONSIGNMENT : A form of trading under which a merchant sends goods to an agent in another town or country, who is to sell them and remit the proceeds after deducting a commission, to the sender. If he is unable to dispose of the goods, he may return to the consignor without incurring any liability.

CONSIGNMENT ACCOUNTS : Accounts pertaining to a consignment.

CONSIGNMENT NOTE : A form which requires to be completed by a consignor when sending goods for sale on consignment basis.

CONSIGNMENT STOCK : That part of the dispatched goods which have been sent on 'consignment'.

CONSIGNMENT TERMS : Terms by which payment is deferred until goods are resold or used by the buyer, meanwhile the title of the goods remaining with the seller.

CONSULER INVOICE : See Invoice

CONTRABAND : Goods, the import or exports of which is forbidden by law.

CONVENIENCE GOODS : Those which the consumer buys frequently, immediately and with minimum shopping effort.

CONTAINER : A box like equipment fairly large capable of carrying several tonnes of cargo now widely used in transport systems, sea, road and rail and air.

COVER : Protection against loss or risk.

C.F.V. : Container Feeder Vessel.

C.B. OF E.C. : The Central Board of Excise and Customs

C.C.P. : Customs Clearance Permit.

COVER : Protection against loss or risk.

CLOSED PORT : Ports without trade are sometimes closed and declared as closed ports by a notification.

COUNTRYCRAFT : Same as sailing vessels. Old fashioned ships which used to ply the seas before the advent of steamers. They are of several types and have an extensive nomenclature.

COASTAL VESSELS : COASTAL STEAMERS : Steamers or boats which ply between ports on a country's coastline.

CONTINENTAL SHELF : Submerged margin of a continent, extending seaward to a distance which may range from thirty to a hundred miles upto the depth of a hundred fathoms. The term has assumed now a considerable legal connotation as matters pertaining to sea are becoming increasingly complex subjects of discussion internationally.

CORIOLIS FORCE : Effect on the sea, particularly felt in the lower latitudes, of the spinning of the earth around its axis, once every day, by which flowing mass of water is directed westward in the northern hemisphere and eastward in the southern hemisphere.

CORAL : The Small calcareous skeletons of any of the many varieties of tropical marine animals.

COTIDAL LINE : Line on a map or a chart showing where high tide appears throughout a given basin at the same time.

CONTAINER DOCKS : Docks where only container traffic is handled. More and more of such docks are nowadays being set up around the world.

CREEK : A narrow small opening of the sea running for some distance into the land surface.

CUSTOMS CLEARANCE : Release of goods from the control of the Customs by production of original invoices, payment of duties, etc.

CUSTOMS DECLARATION : A declaration of the contents of baggage required to be made to customs officer by the owner of the baggage for the purpose of clearing it. A declaration accompanying goods imported or exported by post containing the description, quantity and value of goods.

CUSTOMS DRAWBACK : The refund of duty allowed on re-export of goods on which duty was paid when imported or the refund of duty allowed on imported materials used in the manufacture of goods which are exported.

CUSTOMS ENTRY : A list given to the customs officer by the importer or shipper, which shows the weight, value and description of the goods to be landed or shipped.

CUSTOMS TARIFF : A schedule of duties to be paid on imported or exported goods.

C. V. DUTY : Countervailing duty is imposed under provisions of the Tariff Act and it is equivalent to the amount of Customs or Excise Duty levied by the Customs or the Excise Department on like goods manufactured or produced in India. It is in addition to the basic duty of the Customs.

C. I. F : Cost, Insurance Freight.

C & F : Cost and Freight.

C. I. F & C : Cost, Insurance, Freight & Commission.

C. I. F & I : Cost, Insurance, Freight & Interest.

C. I. F. C & I : Cost, Insurance, Freight, Commission & Interest.

CUSTOMS PORT : A port becomes a customs port when so declared by a government notification, without which it is not permitted to handle overseas trade.

DAUGHTER-SHIP : A shipping term describing a vessel which is being towed by another ship.

DEAD FREIGHT : The amount payable to the shipowner by the charterer for failure to load a full and complete cargo as agreed upon.

DRAFT : A Shipping term used to indicate the depth upto which a seafaring vessel will immerse itself in water. Port authorities use the term to indicate the depth of water in the harbour limiting entry to vessels of draft below the specified figure.

DEAD WEIGHT TONNES : A shipping term signifying the cargo carrying capacity of a ship.

D. C : Deputy Collector of Customs.

DEFERRED PAYMENT SYSTEM : The system under which the customer receives delivery of the goods upon payment of the first instalment on agreeing with the seller to pay further instalments at regular intervals for a given period.

DEFERRED REBATE : A percentage of the net freight paid to a shipping company which is returned to the shippers at stated intervals to ensure their exclusive support to that particular line or group of lines known as conferences.

DELIVERED DOCKS : A form of price quotation. The term covers all charges until the goods are placed in the docks.

DEMURRAGE : The payment that has to be made by a consignee to the port authorities for failure to take delivery of the goods within a specified period of time after their arrival.

DERRICK : A kind of crane for lifting weights. Generally the term is used for weight lifting devices operating from within a ship.

DETENTION CERTIFICATE : A certificate granted by the Customs certifying that the goods were detained due to some requirements of the Customs.

DEVELOPMENT REBATE : A special allowance granted over and above the depreciation allowance under the income Tax Act. It also benefitted shipping lines to enable them to acquire new tonnage.

DISPENSATION : *Is a request by a loyal shipper to a conference seeking permission to ship by a non conference vessel without losing his rebate.*

DIURNAL : Daily.

DIURNAL TIDE : A tide with only one rise and one fall during a single day.

D.P. TERMS : See Letters of Credit.

D.O. : Delivery Order.

DOCUMENT OF TITLE TO GOODS : A document which entitles its possessor to get the goods mentioned therein or to transfer them earlier by endorsement or by delivery. It includes a Bill of Lading, dock-warrant, warehouse keeper's certificate, railway receipt, etc.

DOCUMENTS AGAINST ACCEPTANCE ; (D/A) An arrangement under which a period or a usance bill is drawn by the exporter and the documents of title to the goods are handed over to the importer on his acceptance of the Bill.

DOCKS : Part of a harbour where ships go for loading or unloading or repairs.

DOCK LABOUR : Workers engaged on docks for loading and unloading cargo in a ship.

DOCK LABOUR BOARD : An organisation established by law to regulate dock labour in a port town.

DOCKYARD : A naval harbour with docks, storage facility etc.

DRY-DOCK : A dock which can be cleared of water so that the lower part of a ship's hull may be repaired also called *Graving dock*.

DREDGING : *An operation that has to be almost continuously carried out in most of the sea lanes to keep channels free of silt and maintain their depth for the passage of ships.*

DREDGERS : Dredgers are special types of vessels which dredge ship channels in harbours by removing accumulated silt and thus prevent them from being filled in and become shallower.

DROP SHIPMENT : A shipment to be sent directly to the customer of the firm which places the order.

DROP SHIPMENT WHOLESALER : One who sells for delivery to be made by the producer direct to the buyer.

DURABLE GOODS : A description of goods which give service for a long time such as furniture, motor cars, refrigerators, etc.

DUTIABLE GOODS : Any goods which are chargeable to duty and on which duty has not been paid.

DUTY : A tax levied on the import, export or use and consumption of goods.

DUTY PAID : A form of price quotation in overseas trade which implies payment of the import duty by the exporter in addition to all the charges necessary for the goods to be delivered into a bonded warehouse at the port named.

EBB : To retreat or fall seawards.

EBB TIDE : A term generally applied to a period of low water at sea shore.

EDDY : Circular motion created by conflicting currents, tidal or otherwise, or in a strong current by an obstacle.

ELECTRIC CRANES : Electrically operated cranes.

ENTRY-POT TRADE : A Place for **Entry-pot** trade is one where entrepreneurs can set up warehouses for importing goods for purpose of storage and subsequent re-export to the foreign countries in the same **form** as received or after repacking or reprocessing.

E. O. : Examining Officer.

E. P. : Export Promotion.

E.T.C. : Export Trade Control.

EXAMINATION : The physical inspection of the goods for ascertaining quality, quantity or chemical qualities. Any process adopted for these purposes is called an examination.

EX C. COPY : Every licence granted for the import of goods is accompanied by an Ex. Con. Copy. This copy is required to be presented to the bank for the remittance of the exchange to the country of shipment. Similarly, B/E is also accompanied by an Ex. Con. Copy which is verified by the bank.

EX WORKS : A price quotation in which the price quoted is for delivery at the seller's works, the buyer paying for carriage from the works.

EX-GRATIA ; Same as Ad hoc. Many times, certain relief which the importer deserves is not admissible to him according to the letter of the Law and the Government feels that the relief should be granted, Such a relief is said to be ex-Gratia i.e. out of grace.

EXCHANGE CONTROL : The control over demand for foreign exchange.

EXCHANGE RATE : The rate at which one currency is exchanged for another.

EXCISE DUTY : Duty levied on goods manufactured in the country.

EXPORT BOUNTY : Or incentives. A subsidy granted by government to encourage the exports of certain products.

EXPORT HOUSE : An export firm recognised by government as such.

EXTRA COVER : In marine insurance, the cover provided at extra premium over and above the normal extended cover.

FAIR WEATHER PORTS : Ports which could only be worked in fair weather and remain closed during monsoon, generally four months from June 15 to October 15.

F.A.S : Free alongside Ship. A form of quotation in which the price includes all charges incurred in getting the goods alongside the ship ready to be loaded.

FEEDER VESSELS : Small vessels from which goods are loaded on to a waiting steamer in the mid-stream

FISHING JETTY : A place set apart in a harbour for fishing boat traffic.

FLOATING CRAFT : A boat or vessel in the harbour free to move about anywhere they are needed.

FLOATING CRANE : Cranes mounted on a floating craft for operation in the mid-stream.

FLOOD : The landward flow of rising tide.

FLOOD TIDE : The high water level of a tide.

FLOATING DOCK : A large contrivance with enclosed mass of water fashioned after a dock which could be moved about in the sea for providing berthing facilities to a ship in the midstream.

F.L.D. : Final Landing Date.

F.O.B. Free on Board : A form of quotation in which the price includes all charges until the goods are placed on board a vessel at the named port.

FLOATSAM : Goods lost by shipwreck and found floating upon the water.

F.O.R. FREE ON RAIL : In this form of quotation, the price includes all charges until the goods are placed on rail at the named railway station

FORK-LIFT : An appliance for lifting cargo to and from shelves where goods are stored.

FUMIGATION ARRANGEMENT : Equipment with which several ports and sea ports are equipped by which an incoming cargo likely to carry pests is fumigated in order to free it from any danger of spreading the infestation

FORWARDING AGENTS : An agent who undertakes to convey goods from a seaport to an inland location or vice versa.

FORWARDING CHARGES : Charges for conveying goods from a seaport to an inland location or vice versa, including such incidentals as dock dues, craneage, etc.

FREE DOCKS : A form of quotation, in which the price includes all charges until the goods are placed in the docks.

FREE ENTRY : The document relating to the import of goods not subject to customs duty.

FREE GOODS : Goods not subject to duty.

FREE HARBOUR : A term sometimes used to cover all charges to the port of destination.

F. C. & S. FREE OF CAPTURE & SEIZURE : A clause in an Insurance policy which protects the insurer, especially in times of war, from liability in case the goods are captured or seized by enemy action.

F. P. A. FREE OF PARTICULAR AVERAGE : A term used in marine insurance business indicating that the policy does not cover loss or damage falling under particular average meaning partial loss.

FREE PORT. FREE TRADE ZONE : A segregated area, generally (but not necessarily situated at or near a port into which foreign merchandise is allowed entry without being subject to customs regulations relating to the import of goods or the payment of duties thereon.

FREE TRADE : International trade without any customs duties levied to restrict imports or to protect home industries.

FREIGHT : Charges levied by shipping companies for transporting goods.

FREIGHT SURCHARGES : There are several that the shipping companies and shipping conferences are now adding to their bill of freight to the shipper, in addition to the basic rate. Some typical ones are :

BUNKER SURCHARGE : This surcharge helps shipping lines to recover from shipper the extra cost that they have to incur on fuel because of an increase in the price of oil by the Oil Exporting Countries.

SUEZ SURCHARGE : When the Suez Canal was closed following the six day war between Israel and Egypt, ships using the Canal had to be diverted round the Cape of Good Hope, involving extra voyaging time, and extra expenses which the shipping lines recovered from shippers by levying an extra charge called by this name. The Suez Canal has been re-opened since June 1975. but the surcharge still continues to be levied, by several shipping lines, by some in a diluted form.

SUEZ ADJUSTMENT FACTOR : Shipping lines which disliked the notion of discontinuing to levy Suez Surcharge even after the reopening of the Canal have coined a new term for it for continuing the levy in the same or a diluted form on the ground of enhanced rate at which tolls are now being levied by the canal authorities.

PORT CONGESTION SURCHARGE : If there is a delay in a ship getting berth at any port. shipping conferences nowadays are resorting to collect the extra cost of voyaging from shippers by adding a Port Congestion Surcharge, whose rates vary from port to port and from time to time depending upon the nature of congestion.

CURRENCY ADJUSTMENT FACTOR : In recent years, currencies of several countries have started to float. i.e. change rates frequently and shipping lines have started adjusting their freight bills by the devise known as above in order to safeguard themselves against any loss in revenue on this account.

FREIGHT ACCOUNT : The invoice for freight charges.

FREIGHT GOODS : The goods which are being transported.

FREIGHT AT DESTINATION : FREIGHT FORWARD : Freight payable by the consignees at destination.

FREIGHT NOTE : A debit note for the freight charges.

FREIGHT RELEASE : A document issued on payment of freight.

FREIGHT TON : A unit of measurement for calculating freight, either by weight or by measurement.

FUMIGATION ARRANGEMENT : Equipment with which several ports and sea ports are equipped by which an incoming cargo likely to carry pests is fumigated in order to free it from any danger of spreading the infestation.

GALLEON : A large vessel of olden times, used by Spain mostly for carrying treasure.

GALLEY : A place where cooking is done on board ship. A ship's kitchen.

GAUGE : A standard measure to which things such as thickness of sheet metal, etc. must conform.

GAZETTEER : A geographical dictionary giving the names of places, their location, population, etc.

GENERAL AVERAGE : Whenever any ship suffers some loss due to accident, storm or other natural calamities enroute, the amount of the loss is charged pro rata to the goods in the ship and it is recoverable from the consignees. This is called general average. This loss is subsequently made good by cargo insurers.

GENERIC GOODS : Goods which are only generally described by their name but are not actually identified at the time a contract of sale is made.

G.L.D. : General Landing Date

GIVE-AWAYS : Small toys or other articles which are given away free with the product.

GOODS-IN-TRANSIT : Goods in the possession of a carrier or other bailee for the purpose of transmission to the buyer.

G.R. FORM : A form prescribed by the Reserve Bank of India for accounting of the foreign exchange, to be accompanied with Shipping Bills.

GOODS IN BOND : See Bonded Goods.

GONDOLA : A small pleasure boat.

GOOD FAITH : As defined in law, General Clauses Act, 1897, a thing shall be deemed to have been done in good faith, where in fact it is done honestly, whether done negligently or not. As defined in Section 62 of the Indian Penal Code, 1860, nothing is said to be done or believed in good faith which is done or believed without due care or attention.

GOODWILL : The value attached to a business by reason of its location, name, reputation, connections, etc. It is based on the probability that the old customers will resort to the old place.

GRACE PERIOD : Time allowed by law for payment of a bill of exchange or insurance period after it falls due.

G.R.T. GROSS REGISTERED TONNAGE : A shipping term to describe the over all measurement of the dimensions of a ship.

GUARANTEED BOND : A bond in respect of which the payment of interest and principal is guaranteed by some party other than the issuer.

HANDLING EQUIPMENT : All mechanism or devices used in materials handling. In shipping, they are cranes, shore-Cranes floating cranes, forklifts, derricks, tractors, trailers, etc. used either on shore or in the midstream or from the ships.

HARBOUR : A place on a sea shore where ships or boats, sea faring vessels, can halt and load and unload cargo.

HARBOUR DUES : Fees payable for using facilities at a harbour.

HARBOUR MASTER : Officer in charge of a harbour

HARBOUR BOARD . A statutory body for administering the affairs of a harbour.

HARD CURRENCY : Currency of a country which is in demand.

HARD GOODS : Goods which are more or less durable.

HIGH WATER : The maximum height reached by a flood tide.

HIGH SEAS . All seas outside the territorial waters hitherto taken usually three miles distant from shore. But this definition may have already undergone a change or may do so because international discussions that are now in progress by which nations may be at liberty to extend their territorial line much beyond the three mile limit.

HINTERLAND . The inland territories near a port which it serves for the sea born traffic in imports and exports and coastal trade

HOME TRADE . The internal trade of a country.

HARD CURRENCY AREA : This term in India generally means the countries abroad where the U.S.A. dollars and formerly the Pound Sterling were the currencies in vogue.

HOME CONSUMPTION : The goods that are cleared from ports for use in the country itself.

HOLD : The part of a ship where cargo is stowed.

HYDROGRAPHY : Study of the dynamics and physical properties of water.

INDEMNITY : A guarantee or an undertaking given on stamped paper to make good any loss that may be caused to the person doing some obligation to the person giving the indemnity.

IDENTITY : This term is used in the case of Drawback or re-imported goods to denote that goods exported or reimported are the same as those previously imported or exported.

INCHAMAREE CLAUSE : A marine insurance clause, usually inserted in marine insurance policies which makes the insurer liable for loss or damage arising even otherwise than out of ship peril. The clause owes its name to an incident related to the ship of that name.

I.C.T. : Indian Customs Tariff.

I.O. : Indication of origin.

I.S.I. : Indian Standards Institute.

I.T.C. : Import Trade Control.

I.G.M. : Import General Manifest.

INDORSEMENT/ENDORSEMENT : In general, writing on the back of a document.

INVOICE : A merchant's bill for the goods sold, giving specific details of the goods, their prices and the various charges such as packing, etc.

CERTIFIED INVOICE : Invoices certified as conforming to the requirements of certain countries at present or formerly in the Commonwealth.

BOMBAY INVOICE : When a shipper's invoice is not received, an inventory is prepared in Bombay and the values are declared for assessments. This document is called a Bombay Invoice.

LOADING OF INVOICE : A percentage added to the invoice value to bring the invoice values to the level of assessable value.

INVISIBLE ITEMS : Items other than actual goods in respect of which payments are made to or received from, foreign countries. These include services such as banking and insurance, expenditure by tourists, investments, loans, etc.

IMPOUNDING BASIN : A closed enclosure of water in a harbour where ships could be berthed safely inside.

INTRA-STATE TRAFFIC : Cargo movement from one coastal port to another coastal port situated within the same State territories.

INTER-STATE TRAFFIC : Cargo movement from coastal ports of one State to ports in other States.

INWARD TRAFFIC : Traffic entering a port. The term is generally used to distinguish imports traffic from foreign countries to incoming traffic from a coastal port.

INCENTIVES : The benefits that a government offers trade for encouraging exports or workers for increasing output.

INTERMEDIATE PORTS : A term used in classification of ports in India by which large ports administered by State Governments are designated.

JETTISON : To throw cargo overboard to lighten a ship in distress.

JETSAM : Jettisoned Cargo.

JETTY : A small pier in a harbour where usually countrycraft are berthed.

KELP : Large brown sea-weed or algae, common to the tidal kingdom.

KEELAGE : Dues payable by a ship in certain ports.

KNOT : A measure of the speed of a ship, a little over 6080 feet per hour.

KNOWN DAMAGE : Damage that is apparent and acknowledged by the carrier at the time of delivery to the consignee.

LANDING : The actual unloading of the goods from the ship and putting them on the wharf

LANDING DATE : The date declared by the port authorities as a date on which the cargo is landed from the ship. This date is relevant for the purpose of calculating demurrage. The beginning of the landing is said to be the General Landing Date and the last date is said to be the final landing date.

LIGHTER BOARDS : Boats used in harbours for carrying cargo to and from a ship anchored at mid-stream

LIGHTERAGE : The fees that have to be paid for using the services of lighter boats.

LIGHT HOUSE : Massive, imposing structures built near ports and other locations on sea-shore from which powerful beacons of light issue fourth every night sweeping the skies for the guidance of sea farers and their boats.

LATITUDE : The distance measured in degrees on a map, north or south from the equator. These are usually horizontal lines, as distinguished from Longitudes which are vertical ones.

LONGITUDE : The lines of longitudes run on a map from north to south running perpendicularly from the Equatorial middle line.

LIEN : The right to detain or retain the property of another person for nonfulfilment of an obligation.

LOCKFAST : A protected place in the dock in which goods are stored as an additional precaution against theft. This place is also called Pinjara.

LLOYD'S : An association in the City of London, the members of which under-write each other's policies. It also acts as an agency for arranging insurance of almost all kinds.

L. C. -LETTER OF CREDIT : A letter issued by the importer's bank in favour of the exporter, authorising him to draw bills upto a particular amount (usually the contracted price) covering a specified shipment of goods and assuring him of payment against the delivery of the prescribed shipping documents. usually in his own country.

REVOCABLE LETTER OF CREDIT : Revocable credits which are rare these days, as they cannot be relied upon by the beneficiaries because they can be cancelled without notice to him, although in practice he usually receives advice of revocation. A revocable letter of credit does not constitute a legally binding undertaking between the bank or banks concerned and the beneficiary.

IRREVOCABLE LETTER OF CREDIT : An irrevocable credit is a definite undertaking on the part of an issuing bank and constitutes the engagement of that bank to the beneficiary that the provisions for payment acceptance or negotiation contained in the credit will be duly fulfilled provided that all the terms and conditions of the credit are complied with.

CONFIRMED LETTER OF CREDIT : Confirmation of an irrevocable Letter of Credit by the bank through whom the credit is routed means a definite undertaking on the part of the confirming bank either that the provisions for payment or acceptance will be duly fulfilled or in the case of a credit available by negotiation of drafts that the confirming bank will negotiate drafts without recourse of drawer.

‘WITH RECOURSE’ AND ‘WITHOUT RECOURSE’ CREDITS : If a bill in a credit transaction remains unpaid, a holder in due course has a right to fall back (recourse) on the preceding parties course or drawer for payment. If an exporter draws bill without recourse to him, he negatives his liability but the holder is free to obtain his payment in the normal course.

ACCEPTANCE CREDITS : An acceptance credit stipulates that the beneficiary must draw a bill of exchange for a particular tenor, e.g. 60 days or 90 days or 120 days sight. It is a time credit or a term credit.

TRANSFERABLE CREDITS : Transferable Credit is defined as ‘a credit under which the beneficiary has the right to give instructions to the bank called upon to effect payment or acceptance or to any bank entitled to effect negotiation to make the credit available in whole in part to one or more third parties (second beneficiaries)’.

BACK-TO-BACK CREDITS : ‘A Back-to-back Credit is the term given to an ancillary credit which arises where the seller beneficiary uses the credit granted to him by the issuing bank to support another (the ancillary) credit granted by the beneficiary’s (seller’s) bank to his supplier’.

ANTICIPATORY LETTERS OF CREDIT (‘RED CLAUSE’ AND ‘GREEN CLAUSE’) LETTERS OF CREDIT : The Anticipatory Credits provide for preshipment payment, of at least a part amount to the beneficiary in anticipation of his effecting the shipment and submitting a bill and/or documents under the letter of credit. As the clause containing the authorisation for making preshipment payment is printed or typed usually in red, such credits are popularly called ‘Red Clause’ Credits. The ‘Green Clause’ is an extension of the ‘Red Clause’ in that it envisages the grant of shortage facilities at the port in addition to the preshipment payment.

REVOLVING LETTERS OF CREDIT : Revolving credits are those which though issued for a fixed amount, are renewed automatically for the same initial amount when the fixed limit (amount) is reached.

DEFERRED PAYMENT LETTERS OF CREDIT : When an exporter supplies plant and machinery, capital goods etc. on deferred payment credit basis, he has the option of either to have a bank guarantee for the payment of instalments or deferred payment letter of credit. In India, deferred payment guarantees, rather than letters of credit, are more popular and widely used by the banks in financing the import of capital goods.

MANIFEST : A detailed list of ship’s cargo for the information of customs officials delivered by the master of the ship.

MATE’S RECEIPT : A temporary document issued by the mate of a ship acknowledging receipt of the goods on board the ship, which in due course, is exchanged for a bill of Lading.

- MASTER MARINER :** A technical term describing a person who has studied the nautical sciences and obtained a degree or a diploma as the case may be from an institution authorised to issue such certificates.
- MECHANISED BOATS :** Sailing Vessels with an engine installed in them to help propulsion in case of need. Currently there are over 350 such boats registered in the country.
- MARITIME BOARD :** A statutory body to administer affairs relating to port or sea trade assigned to it.
- MOBILE CRANES :** Cranes for lifting cargo which could be moved from one place to another. Usually they are mounted on rails.
- MOORING BERTH :** A place where a ship can be fastened at a berth for facilitating the loading and unloading of cargo.
- MOORING BUOY :** A buoy mark in the harbour to indicate the location of a ship.
- N.C.V :** No commercial value.
- N.D.C :** Non Delivery Certificate.
- N.T :** No Trace.
- N.T. Notice :** The notice given to the Port Trust of the nontraceability of packages.
- OCTROI :** Duty levied by a municipality or other local authority on goods brought in their area.
- OPEN GENERAL LICENCE :** Permission given by the Import Trade Control authorities to import the goods without a licence.
- OVERSTOWED CARGO :** Cargo stowed in such a way that it cannot be unloaded with the rest of the cargo for a particular port or destination. The shipping company is under obligation to make the correct delivery of the cargo eventually.
- P.A :** Principal Appraiser.
- PALLETS:** A Load-board specially designed to facilitate handling of cargo by forklift trucks and now being increasingly used in transport by sea.
- PASSENGER JETTIES :** Structures within a port where passengers could embark on a boat or disembark.
- PERILS OF THE SEAS :** In maritime insurance, perils peculiar to sea voyage which cannot be foreseen and guarded against by the shipowner are his servants, as necessary or probable incidents, such as storm, collision, stranding, etc.
- P & I CLUB .** A mutual interest liability insurance organisation.
- PILOTS :** Functionaries entrusted with the task of safely bringing a ship through the navigation channel from the open sea into the harbour and vice versa.
- PILFERAGE :** The stealthy removal of goods stored in port warehouses.
- PILOTAGE :** Port authorities provide their own experts to guide the journeyings of sea faring vessels from the open sea in and out of the harbour, known as pilots. Pilotage is the charge that they levy for this service.

P.O : Preventive Officer.

PRE-ENTRY : Forms required to be submitted for each dispatch overseas, to the Customs authorities at the port or place of shipment, before loading.

PREFERENTIAL RATE : The lower rate allowed for goods coming from U.K. and colonies under the U.K-India Trade Agreement Rules.

PRIVATE BONDED WAREHOUSE : A warehouse, licensed by the A.U.C. Bond Dept. for depositing Bonded Cargo of a particular bond.

PROTECTIVE DUTY : The duties imposed under the Tariff Act on the import of goods for giving protection to the indigenous industries.

PRIME ENTRY : A customs entry completed by an importer of dutiable goods at the time of clearing goods by the payment of duty.

PUBLIC WAREHOUSE : A warehouse in which Bonded goods of any importer can be kept.

RATE OF EXCHANGE : The Indian equivalent for foreign money.

REBATE : Getting back the C.E. duty paid.

REVENUE TONNE : Freight earning cargo in a ship.

REFUND : Getting back the Customs Duty paid.

REVISION APPLICATION : Application for revising the orders of the Appellate Authorities.

RUMMAGING : Special meticulous examination Conducted by the Customs authorities.

ROADSTEAD : An open space in the sea in a harbour where a ship can stand at anchor and be approached by lighters.

SAME BOTTOM : The goods brought from a previous port and taken to the next port without landing.

SETTLING AGENTS : The local representatives of insurance companies to settle the claims of insurance.

SEIZURE : Assuming control over the goods.

SELLER'S LIEN : The right of a seller to retain possession of goods until the price is paid. Such right does not exist when goods are sold on credit.

SHEX : Sundays and holidays excluded.

SHINE : Sundays and holidays included.

WW SHEX : Weather working days, Sundays and holidays excluded.

SHIP OR VESSEL : Those vehicles which shipping companies use in transporting cargo by sea. There are many types of ships some of which are enumerated below :

RO-RO : Roll-on/Roll Off. A type of vessel from which motor cars or trucks or similar vehicles could just be driven off on shore without being lifted off by crane or such similar contrivance.

BULK CARRIERS : Vessels designed to carry bulk cargo such as iron ore or foodgrains, etc.

TANKERS : Vessels designed to carry crude oil and other petroleum products.

OBO : Vessels which are constructed in such a manner as to carry oil in one voyage and bulk cargo in another.

LPG : Liquefied Petroleum Gas Carrier.

LNG : Liquefied Natural Gas Carrier.

CONTAINER SHIPS : There are several sub-species of this brand new types of deep-water ocean faring vessels.

SPECIAL CONTAINER SHIPS . These are built for maximum use of the ship's cubic capacity for containers.

CONVERTIBLE CONTAINER SHIPS . Most of these ships are regular liner ships which have been built and equipped for carrying containers

TRAILER SHIPS : This type of ship takes containers on a chassis uses the roll on roll/off method for loading and discharging.

CONTAINER SHIP/TRAILER SHIP : This is a combination ship which mainly carries containers on a chassis. flats. in cells or in other ways. Uses mainly the roll on/roll off method for the handling of containers but lift on/lift off method is also used.

SEMI CONTAINER SHIP : This term is often used for ships which carry containers although they have not been specially built or equipped for that purpose.

ASH : LIGHTER ABOARD SHIPS : These ships have no real holds but are built to take a number of lighters or barges. These barges are filled with cargo and then loaded onto ships which unload them quickly at the port of destination where the cargo is taken off barges later on. This method is designed to save a ship's time at port.

LINER SHIPS : Liner ships are noted for their speed and their ability to take care of various types commodities. They are often equipped with reefer space (for cargo needing refrigeration) with tanks for carrying lubricating oil, latest, vegetable oils, etc.

CONVENTIONAL SHIPS : A conventional ship is usually so called because it was built according to normal traditional specifications without being specially fitted for mechanical handling.

OPEN SHIPS : An open ship is a ship where the docks can be opened. The hatches are wide enough for most of the cargo to be lowered straight down directly to the space where it is to be stowed

PALLET CARRIERS : A pallet carrier is a ship built for the carrying of palletised cargo. Pallet loads are handled by fork-lifts and similar machines.

TRAMP SHIPS : Tramp ships are those which do not have to run on regular routes as Liner Ships have to, but have the liberty to run as and when required on whatever route the cargo is destined to be carried.

COASTAL VESSELS : These are ships which run between coastal ports only.

SHIPPING BILL OR S/B : A document presented to the Customs for export of the goods giving relevant particulars in the prescribed form.

SHIP SURVEY : Survey held on behalf of the master of the ship.

SHOW CAUSE NOTICE : An opportunity given to a party to disprove the allegation.

SHUT : Goods not shipped through brought for shipment.

S.L.C. : Short Landing Certificate.

SPOT REMISSION : Remission of port charges allowed for the period for which the goods were not traced.

SUBROGATION : Delegation of rights to another person, especially an insurance company.

SURVEY : Examination and ascertainment of the contents of a package for the purpose of a claim for compensation.

TALLY : The counting of cargo being loaded or unloaded from ship to shed and from shed to ship.

TRADE MARK : The mark or symbol on the goods which have acquired reputation of a particular make or quality.

TRADE : A shipping term denoting a specific route on which liner ships run.

TARE : The weight of the packing material of the goods.

TARIFF VALUE : Value fixed by the Government for assessment of duty.

T.P. : Transhipment Permit

TRIPTIQUE : A document empowering the visitor to import and use a motor car for a short period with out payment of duty.

AMMENDMENTS

WHARFAGE M A D R A S

Wharfage and special charges on goods handled mechanically at the Mechanised Berths.

Item No. (1)	Description (2)	Unit (3)	Rates (4) Rs. P
1.	Iron Ore shipped through mechanical ore handling system at Bharathi Dock	1 Tonne	25 . 25

Note : (i) The above rate will be recovered at Rs. 12 per tonne at the time of receiving and unloading the iron ore wagons and at Rs. 13.25 per tonne at the time of shipment of iron ore.

Note : (ii) The above rate is inclusive of all operations from the time of tipping the iron ore from the wagon by the wagon tippler to putting it into the holds of the vessels but is exclusive of the following for which separate charges are leviable as indicated below:-

(a) All the Railway operations connected with the movement of iron ore as per the Scale of Rates.

(b) Cleaning the system between the rakes for maintaining quality as instructed by the MMTC—at actuals.

(c) Cleaning of spillage and dust accumulation during the process of receiving, stacking and shipment—at actuals.

(d) Trimming operations of the ship according to the requirements of the MMTC or the Chief Officer of the vessel—at actuals.

(e) Charges paid by Madras Port Trust to Railways for wagon damages on ore wagons arising out of the normal operations -at actuals.

(A GROUP) 560-4—1

2.	Charges for cleaning the ore handling system for receiving and shipment of iron ore fines/calibrated iron ore.	50 paise per tonne or part thereof on the quantity of iron ore/fines calibrated ore received.
----	--	---

Charges other than those indicated under Item 1 and 2 above in respect of services not specified in the note (ii) under (1) above like Night and Holiday services, etc., will be levied extra as provided for under various provisions of the Scale of Rates.

3.	Other Ores handled by the Port Trust mechanically outside the Bharathi-Dock.	1 Tonne	17 . 25
----	--	---------	---------

Note : The above rate is inclusive of all operations from moving the stock from the rented plot to putting it into the holds of vessels but exclusive of (1) unloading of wagons at the plot, (2) rent for the occupation of the plot and (3) trimming, if required.

SCALE-F (1) Special quay dues on masters, owners or agents of vessels.

	Unit	Rate
Special quay dues on vessels loading iron ore at Bharathi Dock	Per Tonne	50 Paise

Note : The above dues will be levied on the quantity of iron ore shipped.
